Step 7: Final Tightening

Once all components are assembled, go back and fully tighten all screws to ensure the frame is stable and secure.

OPERATING INSTRUCTIONS

Smart RGB LED Lights

- The LED strip is built into the headboard shelf.
- Use the included remote control or a compatible mobile application to customize the color, brightness, and mode of the lights.
- Explore various dynamic modes and music sync options to enhance your bedroom ambiance.

Charging Station

- The headboard features 2 USB-A ports (5V/2A) and 2 AC outlets (120V/12A).
- Simply plug in your devices to charge them conveniently from your bed.

MAINTENANCE

- **Cleaning:** Wipe the bed frame with a dry cloth to remove dust and debris.
- **Upholstery Care:** For the velvet upholstered parts, gently vacuum or use a soft brush to remove dust. Spot clean with a mild fabric cleaner if necessary, following the cleaner's instructions.
- **Hardware:** Periodically check all screws and bolts to ensure they remain tight. Re-tighten if any looseness is detected.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Bed frame is squeaking.	Loose connections or insufficient EVA foam.	Check and tighten all screws. Ensure EVA insulation foam is properly placed between metal components.
LED lights are not working.	Power connection issue or remote battery.	Verify the power cable is securely plugged into an outlet and the charging station. Check the remote control battery.
Charging station is not providing power.	Power connection issue or device compatibility.	Ensure the bed frame's main power cable is plugged into a working wall outlet. Test with a different device.
Mattress is sliding.	Incorrect mattress placement or missing anti-slide features.	Ensure the mattress is correctly seated within the embedded frame design.
