## KEY FEATURES

- **Non-Stick Performance:** Enjoy effortless food release and easy cleanup thanks to the superior non-stick coating.
- **Detachable Handles:** The innovative detachable handles allow for compact storage, oven use, and easy transfer from stovetop to table.
- **Versatile Compatibility:** Suitable for all cooktops, including induction, gas, and electric. Pans are also oven safe up to 480°F (without handles).
- **Space-Saving Design:** With handles removed, the pots and pans stack efficiently, saving up to 70% more cabinet space.
- **Easy Cleaning:** The non-stick surface and spray-coated bottom make cleanup simple, and the pans are dishwasher safe.
- **Safe Materials:** Constructed from aluminum and free from PFOA, PFOS, Lead, Cadmium, and BPA.

## SETUP AND FIRST USE

---

### 1. Initial Cleaning

Before first use, wash all pots, pans, lids, and utensils with warm, soapy water. Rinse thoroughly and dry completely. It is recommended to season the non-stick surface by wiping a thin layer of cooking oil over the interior of the pans with a paper towel, then heating on low for 30 seconds. Let cool and wipe clean.

### 2. Attaching and Detaching Handles

To attach a handle, align the handle's clips with the designated slots on the side of the pot or pan. Squeeze the handle's trigger mechanism to open the clips, then release to securely fasten it to the cookware. Ensure the handle is firmly attached before lifting or moving the pan.

To detach, simply squeeze the trigger mechanism again to release the clips. Always detach handles before placing cookware in the oven or for compact storage.

## OPERATING INSTRUCTIONS

---

### 1. General Cooking

- Use low to medium heat settings for most cooking tasks. High heat can damage the non-stick coating over time and is generally not necessary due to the efficient heat distribution.
  - Always use wooden, silicone, or plastic utensils to protect the non-stick surface. Avoid metal utensils.
  - A small amount of oil or butter is sufficient for cooking; excessive oil is not required due to the non-stick properties.

## MAINTENANCE AND CLEANING

### 1. Dishwasher Safe Pans

The pots and pans are dishwasher safe. For best results and to prolong the life of the non-stick coating, use gentle detergents. The spray-coated bottom resists black residue, making cleaning easier.

## 2. Hand Washing Handles

The detachable handles should be hand washed with warm, soapy water and dried immediately. Avoid placing them in the dishwasher to maintain their functionality and appearance.

## 3. Storage

To maximize space and protect your cookware, remove the handles and stack the pots and pans. Utilize the included pan protectors between stacked items to prevent scratches and preserve the non-stick surface.
