Primal Hatch 6075730

Primal Hatch Hybrid Hatchers Toy Dinosaur & Egg Instruction Manual

Model: 6075730

Introduction

The Primal Hatch Hybrid Hatchers Toy Dinosaur & Egg allows you to create your own unique hybrid dinosaur figure. This interactive toy involves decoding, injecting, and hatching a mystery dino from its egg. Each hybrid features a modern animal combined with a dinosaur, measuring approximately 3 inches tall. Collect all the different hybrids for expanded play.

What's Included

- 1 Primal Hatch Hybrid Hatchers Egg
- 1 Syringe for DNA mixing and injection
- 1 Decoder Card
- 1 Hybrid Dinosaur Figure (inside the egg)

Setup Instructions

1. **Unpack the Egg:** Carefully remove the Primal Hatch Hybrid Hatchers Egg from its packaging. Ensure all components are present.
2. **Prepare Water:** Fill a small container with clean water. This water will be used with the syringe.

Operating Instructions: Hatching Your Hybrid Dino

1. **Decode Your Hybrid:** Use the provided scanner (decoder card) to identify which hybrid dinosaur is inside your egg. Look for the designated area on the egg or packaging to use the scanner.

2. **Fill the Syringe:** Submerge the tip of the syringe into the prepared water. Pull the plunger back to draw water into the syringe. This water represents the "Primal DNA" for mixing.

3. **Inject the Egg:** Locate the small hole on the Primal Hatch egg. Carefully insert the tip of the filled syringe into this hole. Slowly push the plunger to inject the water into the egg. This action initiates the hatching process.

Figure 4: Injecting water into the egg to begin the hatching process.

4. **Observe Hatching:** After injection, observe the egg. Cracks will begin to form, and the hybrid dinosaur figure will gradually emerge from the egg. This process may take a few moments.

Maintenance

The Primal Hatch Hybrid Hatchers toy requires minimal maintenance. After hatching, the dinosaur figure can be wiped clean with a damp cloth if necessary. Store the figure and any accessories in a dry place away from direct sunlight to preserve their condition.

Troubleshooting

- **Egg not cracking:** Ensure sufficient water has been injected into the egg. If the egg does not crack after a few minutes, try injecting a small amount more water.
- **Dinosaur not emerging:** Gently assist the dinosaur out of the egg once cracks are visible. The egg material is designed to break apart easily.
- **Missing parts:** If any components are missing from your package, please contact customer support.
