UKLISS Mini Curling Iron Instruction Manual

Model: WT-148-2

IMPORTANT SAFETY INFORMATION

Please read all safety instructions carefully before using this appliance. Failure to follow these instructions may result in electric shock, fire, or personal injury.

- **Burn Hazard:** Surfaces become extremely hot during use. Avoid direct contact with skin, especially the scalp, neck, and ears. Use the anti-scalding tip and bottom bracket for safety.
- **Electric Shock Risk:** Keep away from water. Do not use near bathtubs, sinks, showers, or other water-filled containers. Do not handle with wet hands.
- **Fire Risk:** Unplug the device when not in use. Do not leave unattended when plugged in. Ensure the device is placed on a heat-resistant surface when hot.
- **Child Safety:** This appliance is not intended for use by children. Keep out of reach of children and pets.
- **Damage Prevention:** Do not wrap the power cord around the appliance. Do not use if the cord or plug is damaged.

PRODUCT OVERVIEW

The UKLISS Mini Curling Iron (Model WT-148-2) is a versatile styling tool designed for creating various curl styles, particularly suitable for short to medium hair. It combines rapid heating technology with adjustable temperature settings and a ceramic coating to minimize heat damage and enhance hair health.

Key Features:

- **Rapid PTC Heating:** Achieves desired temperature in approximately 30 seconds for quick styling.
- **Adjustable Temperature:** 5 settings (250°F-390°F / 120°C-200°C) to cater to different hair types and styling needs.

- **Negative Ion Ceramic Coating:** Reduces frizz, adds shine, and protects hair from excessive heat.
- **Lock Mode (-LOC-):** Prevents accidental temperature changes during use.
- **Dual Voltage (110-240V):** Automatically adapts for safe and convenient use worldwide.
- **Travel-Friendly Design:** Compact and lightweight, includes European (EU) and United Kingdom (UK) plug adapters.
- **Safety Auto-Off:** Automatically shuts off after 60 minutes of inactivity for enhanced safety and energy saving.
- **Anti-Scalding Features:** Equipped with an extra-long anti-scalding tip and a bottom bracket to prevent burns.

OPERATION Q&A

TEMP LOCK: -LOC-

Double-click  **unlock**

Q:

Why does the screen display "-LOC-" but the button does not respond?

A:

Safety lock (-LOC-):

No buttons can be adjusted at this time,
double-click "Power Button" to unlock

HOW TO CHOOSE MULTIPLE SIZES

Q:

How do I choose the size?

A:

You can choose the size according to the following effect display:

9MM:

Tight Spiral Curls & Ringlets

13MM:

Bold Spirals & Precision Curls

19MM:

Everyday Beachy Waves

Image: The UKLISS Mini Curling Iron, showcasing its compact design and 3/4 inch barrel.

SETUP AND FIRST USE

1. **Unpack:** Carefully remove the curling iron and any included accessories from the packaging.

2. **Inspect:** Before first use, check the device for any visible damage. Do not use if the appliance or cord appears damaged.
3. **Plug In:** Connect the power cord to a suitable electrical outlet. The device supports dual voltage (110-240V) automatically. If traveling internationally, use the appropriate UK or EU plug adapter provided.
4. **Power On:** Press and hold the power button to turn on the curling iron. The LCD display will illuminate.
5. **Select Temperature:** Use the temperature control buttons (usually '+' and '-') to select your desired heat setting. Refer to the "Temperature Settings" section for guidance based on your hair type.
6. **Heat Up:** Allow approximately 30 seconds for the curling iron to reach the selected temperature. The LCD display will show the temperature increasing until it stabilizes at your chosen setting.

OPERATING INSTRUCTIONS

Temperature Settings

The curling iron offers 5 adjustable temperature settings to suit various hair types and desired curl intensity:

- **250°F (120°C):** For damaged or very fine hair.
- **285°F (140°C):** For thin hair.
- **320°F (160°C):** For normal hair.
- **355°F (180°C):** For thick hair.
- **390°F (200°C):** For coarse hair.

60-min Auto Shut Off

The power will be shut off automatically when the curling wand works for over 60 minutes

It can help: Prolong lifespan Decline failure rate

Image: Visual guide for selecting the appropriate temperature based on hair type, from damaged to coarse.

Using the Curling Iron

1. Ensure your hair is clean, completely dry, and thoroughly detangled before styling.
2. Divide your hair into small, manageable sections, typically about 1 inch wide.
3. Open the clamp and place a section of hair between the clamp and the barrel, starting close to the roots.
4. Wrap the hair evenly around the barrel, away from your face, ensuring the ends are securely held by the clamp.
5. Hold the curling iron in place for a few seconds. The holding time will vary depending on your hair type and the desired tightness of the curl.
6. Release the clamp and gently slide the curling iron out, allowing the curl to fall naturally.
7. Repeat this process for all sections of hair.
8. For a softer, more natural look, gently run your fingers through the curls after they have completely cooled.

Finish Curling Hair

Achieve your extraordinary temperament

Image: Step-by-step visual guide demonstrating how to curl hair using the device, from choosing temperature to finishing the style.

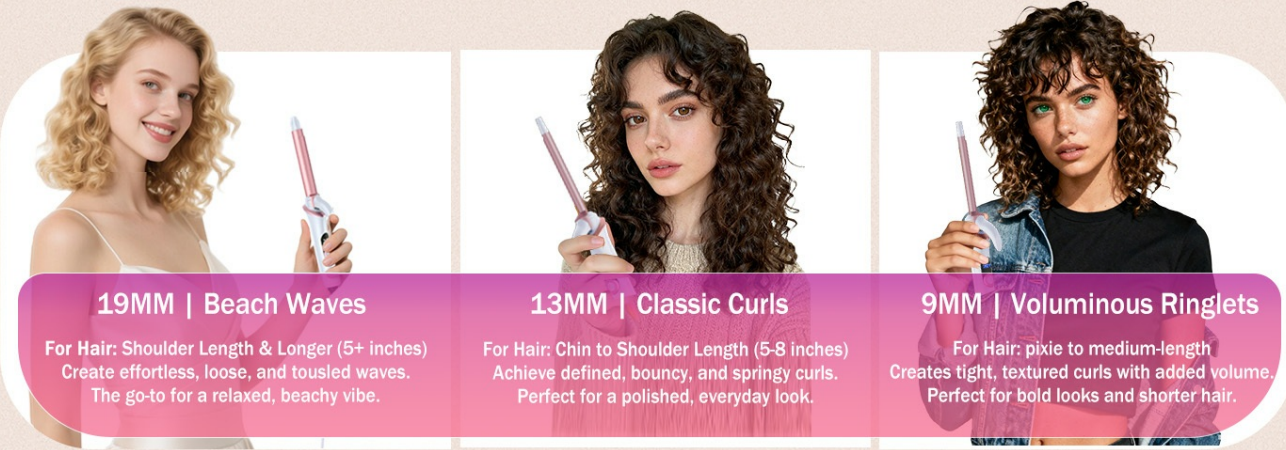

Lock Mode (-LOC-)

The curling iron features a safety lock mode to prevent accidental temperature adjustments during styling. When the screen displays "-LOC-", the temperature control buttons will not respond.

- **To Unlock:** Double-click the power button. The "-LOC-" indicator will disappear, and you can then adjust the

temperature.

- **To Shut Down (after unlocking):** Press and hold the power button for 3 seconds.

19MM Beach Waves	13MM Classic Curls	9MM Voluminous Ringlets
For Hair: Shoulder Length & Longer (5+ inches) Create effortless, loose, and tousled waves. The go-to for a relaxed, beachy vibe.	For Hair: Chin to Shoulder Length (5-8 inches) Achieve defined, bouncy, and springy curls. Perfect for a polished, everyday look.	For Hair: pixie to medium-length Creates tight, textured curls with added volume. Perfect for bold looks and shorter hair.

3 Size for different hair lengths and different hair types

MAINTENANCE AND CARE

Proper maintenance ensures the longevity and optimal performance of your curling iron:

- **Cleaning:** Always ensure the curling iron is unplugged and completely cool before cleaning. Wipe the barrel and handle with a soft, damp cloth. Do not use abrasive cleaners, harsh chemicals, or immerse the device in water.
- **Storage:** Store the curling iron in a cool, dry place, away from direct sunlight and moisture. Ensure the power cord is not wrapped tightly around the device, as this can cause damage and fraying over time.
- **Cord Care:** Regularly inspect the power cord for any signs of damage, such as cuts, fraying, or kinks. If the cord is damaged, discontinue use immediately and contact customer support for assistance.

TROUBLESHOOTING

Device Not Responding / Screen Displays "-LOC-"

Issue: The curling iron is powered on, but the buttons do not respond, and the screen shows "-LOC-".

Solution: This indicates that the safety lock mode is active, preventing accidental temperature adjustments. To unlock the device, double-click the power button. Once unlocked, you can adjust settings or power off the device by pressing and holding the power button for 3 seconds.

Device Not Heating Up

Issue: The curling iron is plugged in and powered on, but it is not heating to the selected temperature.

Solution: First, ensure the power cord is securely plugged into a functional electrical outlet. Check if the device is in lock mode (-LOC-); if so, double-click the power button to unlock it. If the issue persists, unplug the device, wait a few minutes, and then plug it back in and try again. If it still does not heat, contact customer support.

Automatic Shut-Off

Information: For safety and energy conservation, the curling iron is equipped with a 60-minute auto-off function. If the

device turns off unexpectedly after prolonged use, it is likely due to this feature. Simply power it back on if you wish to continue styling.
