Aoxun G30053BK04A-HY

Aoxun 14'x10' Lean-to Gazebo Instruction Manual

Model: G30053BK04A-HY

1. Introduction

Thank you for choosing the Aoxun 14'x10' Lean-to Gazebo. This manual provides essential information for the safe assembly, operation, and maintenance of your new outdoor structure. Please read all instructions carefully before beginning assembly and retain this manual for future reference.

2. Safety Information

- **Read all instructions:** Ensure you understand all assembly steps and safety warnings before installation.
- **Two or more people required:** Assembly requires at least two to four people for safety and ease of installation.
- **Wear protective gear:** Use gloves and eye protection during assembly.
- **Choose a suitable location:** Select a flat, level surface for installation. Ensure adequate clearance around the gazebo.
- **Secure the structure:** Always anchor the gazebo securely to the wall and ground using the provided anchors to prevent wind damage.
- **Check local regulations:** Verify any local building codes or permits required for installing a permanent outdoor structure.
- **Avoid climbing:** Do not climb on the gazebo structure or roof.
- **Snow load:** While the roof is designed to handle snow, heavy accumulation should be cleared to prevent structural damage.

3. Package Contents

Your Aoxun Lean-to Gazebo ships in two packages, which may arrive separately. Please verify all components are present before beginning assembly. Refer to the detailed parts list included in your physical instruction manual for specific component identification.

Figure 3.1: Delivery of two packages, which may arrive separately.

4. Setup and Assembly

Assembly of the Aoxun Lean-to Gazebo typically takes 2-4 hours with 2-4 people. An easy-to-follow guide with labeled components and hardware is included in your package. Follow these general steps:

1. **Unpack and identify parts:** Lay out all components and hardware. Compare them against the parts list to ensure everything is present.
2. **Assemble the frame:** Begin by connecting the main support beams and posts. The structure features sturdy steel pillars and beams with triangular reinforcements for enhanced stability.
3. **Attach to the wall:** The gazebo is designed for wall-mounting. Secure the wall-mounted side of the frame to a sturdy wall using appropriate fasteners.
4. **Install the roof panels:** Carefully place and secure the galvanized steel hardtop roof panels. Ensure they are properly aligned and fastened to provide 100% UV protection and weather resistance.
5. **Anchor to the ground:** Secure the freestanding posts to the ground using the included anchors. The metal leg supports have pre-drilled holes for easy connection to various flooring types.

PRODUCT DETAIL

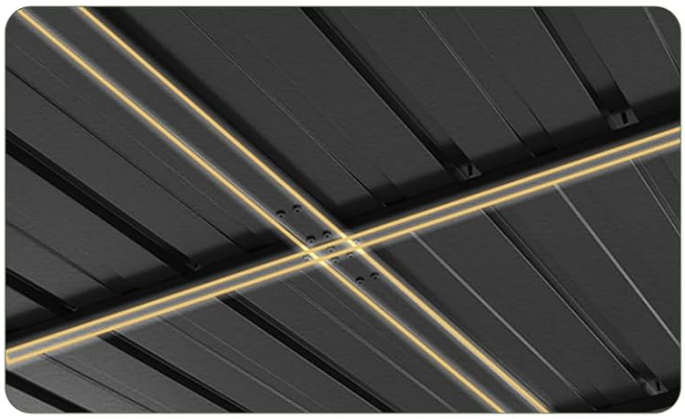

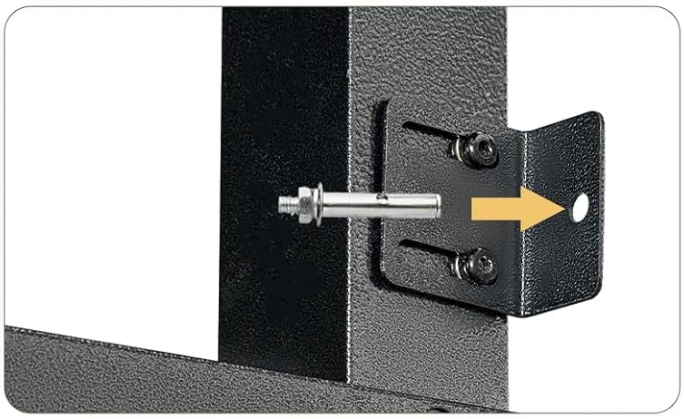

TRIANGULAR STRUCTURE

Triangular structure enhances the stability and durability of the hardtop terrace

METAL LEG SUPPORT

Equipped with two pre-drilled holes for easy connection to any type of flooring

MULTIPLE-COLUMN SUPPORT

Multiple iron tubes provide robust support for the top panel

WALL-MOUNTED

One screw is used to connect the wall enhancing stability

5. Operation and Features

The Aoxun Lean-to Gazebo is designed to enhance your outdoor living space with its robust construction and thoughtful features.

- **Spacious Shading Coverage:** Measuring 163.4" (L) x 110.7" (W) x 100.8" (H), this pergola provides 120 sq ft of shade, comfortably accommodating 6-8 people.
- **All-Weather Protection:** The angled roof design effectively channels rainwater, preventing pooling. The galvanized steel roof offers reliable shelter in sun, rain, hail, or snow.
- **UV Protection:** The reinforced galvanized steel roof blocks 100% of UV rays, providing a safe and comfortable environment for UV-sensitive users.
- **Snow Load Capacity:** The durable metal gazebo structure supports up to 77 lbs/m², capable of handling heavy snow loads of 6 inches effortlessly.
- **Wind Resistance:** The stable wall-mounted design, combined with sturdy steel pillars and triangular reinforcements, allows the outdoor pergola to withstand 31-38 mph winds without shifting.

6. Maintenance

Regular maintenance will extend the life and appearance of your gazebo.

- **Cleaning:** Clean the roof and frame periodically with mild soap and water. Avoid abrasive cleaners or harsh chemicals that could damage the finish.
- **Inspect fasteners:** Periodically check all bolts, screws, and anchors to ensure they are tight and secure. Tighten any loose connections.
- **Snow removal:** In areas with heavy snowfall, gently remove excessive snow accumulation from the roof to prevent structural strain.
- **Seasonal checks:** Before and after seasons with extreme weather, inspect the entire structure for any signs of wear or damage.

7. Troubleshooting

If you encounter any issues with your gazebo, refer to the following common troubleshooting tips:

- **Wobbling or instability:** Ensure all frame connections are securely tightened. Verify that the ground anchors are firmly in place and the wall mounting is secure.
- **Water pooling on roof:** The slanted roof is designed for drainage. Check for any obstructions on the roof panels or gutters (if applicable) that might impede water flow. Ensure the gazebo is installed on a level surface.
- **Missing parts:** If any parts are missing upon delivery, contact Aoxun customer support immediately with your purchase details.

8. Specifications

Feature	Detail
Brand	Aoxun
Model Number	G30053BK04A-HY
Product Dimensions (L x W x H)	163.4" x 110.7" x 100.8"
Material	Iron (Frame), Galvanized Steel (Roof)
Item Weight	233.7 Pounds
Color	Black
Style	Modern
Water Resistance Level	Waterproof
Ultraviolet Light Protection	Yes (100% UV Block)
Assembly Required	Yes

Feature	Detail
Occupancy	4~8 people
Floor Area	120 Square Feet
