SHA CERLIN SCVBPQ2948

SHA CERLIN Queen Size Velvet Platform Bed Frame Instruction Manual

Model: SCVBPQ2948

INTRODUCTION

Thank you for choosing the SHA CERLIN Queen Size Velvet Platform Bed Frame. This manual provides essential information for the safe assembly, operation, and maintenance of your new bed frame. Please read all instructions carefully before beginning assembly and retain this manual for future reference.

SAFETY INFORMATION

WARNING:

- Do not exceed the maximum weight limit of 800 lbs. Overloading may cause structural damage and injury.
- Avoid using wet cloths or harsh chemicals to clean the bed frame. Use a dry cloth for maintenance to prevent damage to the velvet upholstery and frame materials.
- Ensure all bolts and screws are securely tightened before use. Periodically check and re-tighten fasteners as needed.
- Keep small parts and packaging materials away from children during assembly to prevent choking hazards.

PARTS LIST

Before assembly, verify that all components listed below are present and undamaged. If any parts are missing or damaged, please contact customer support.

- Headboard (Wingback, Velvet Upholstered)
- Side Rails (Velvet Upholstered)
- Footboard (Velvet Upholstered)
- Center Support Beam
- Wooden Slats (with foam padding and Velcro for noise reduction)
- Support Legs (with protective pads)
- Assembly Hardware (bolts, screws, washers, Allen wrench)
- Instruction Manual (this document)

SETUP AND ASSEMBLY

Assembly typically requires two adults and approximately 1 hour. All necessary tools are included. Do not use power tools as over-tightening may damage the frame.

1. **Unpack Components:** Carefully remove all parts from the packaging. Lay them out on a clean, soft surface to prevent scratches.
2. **Attach Side Rails to Headboard:** Connect the side rails to the wingback headboard using the provided hardware. Ensure the connections are snug but do not fully tighten yet.
3. **Attach Side Rails to Footboard:** Connect the other end of the side rails to the footboard. Again, hand-tighten the hardware.
4. **Install Center Support Beam:** Secure the center support beam to the headboard and footboard. Attach the adjustable support legs to the center beam.
5. **Place Wooden Slats:** Unroll the wooden slats across the bed frame. The slats feature Velcro strips to secure them to the frame and foam padding to reduce noise. Ensure they are evenly spaced.
6. **Final Tightening:** Once all components are in place and aligned, fully tighten all bolts and screws using the provided Allen wrench.
7. **Attach Support Legs:** Ensure all support legs are securely attached and adjusted to provide stable support. The legs include protective pads to prevent floor scratches.

Easy Assembly

Sturdy Structure

Protective Pad

OPERATING INSTRUCTIONS

This platform bed frame is designed for use without a box spring. Simply place your mattress directly onto the wooden slats.

- **Mattress Compatibility:** The frame is suitable for mattresses with a recommended height of 8 to 12 inches.
- **Under-Bed Storage:** The frame provides 8 inches of clearance underneath, offering convenient space for storage.
- **Stability:** The embedded design of the frame helps prevent mattress sliding, ensuring a stable sleeping surface.

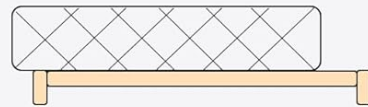

✔ Embedded Design

MAINTENANCE

- **Cleaning:** Wipe the velvet upholstery and frame with a dry, soft cloth to remove dust. Do not use liquid cleaners, abrasive materials, or harsh chemicals, as these may damage the fabric or finish.
- **Fastener Check:** Periodically inspect all bolts and screws to ensure they remain tight. Re-tighten as necessary to maintain structural integrity and prevent squeaks.
- **Avoid Excessive Moisture:** Keep the bed frame in a dry environment to prevent damage to the wood and metal components.

TROUBLESHOOTING

Problem	Possible Cause	Solution
---------	----------------	----------

Problem	Possible Cause	Solution
Bed frame feels unstable or wobbly.	Loose fasteners or uneven support legs.	Ensure all bolts and screws are fully tightened. Adjust the levelers on the support legs if your floor is uneven.
Squeaking noises.	Loose connections or friction between components.	Re-tighten all assembly hardware. The bed frame is designed with foam-padded slats to minimize noise; ensure slats are properly seated.
Mattress slides on the frame.	Mattress not properly seated or embedded design not fully utilized.	Ensure the mattress is centered and fully within the frame's embedded design. Verify that the wooden slats are correctly positioned and secured with their Velcro strips.

SPECIFICATIONS

Model Number:	SCVBPQ2948
Size:	Queen
Product Dimensions (L x W x H):	83.3" x 62.4" x 47"
Material:	Metal, Velvet, Wood
Upholstery Fabric Type:	Velvet
Color:	Pink
Weight Capacity:	800 lbs
Box Spring Required:	No
Special Features:	Fade Resistant, Squeak Resistant, Under-bed Storage
Included Components:	Headboard, Instruction Manual, Slats, Tools for Assembly
