MUBVIEW Bell J7

MUBVIEW Bell J7 2K Wireless Video Doorbell Camera with Chime User Manual

Model: Bell J7

1. INTRODUCTION

This manual provides detailed instructions for the installation, operation, and maintenance of your MUBVIEW Bell J7 2K Wireless Video Doorbell Camera with Chime. Please read this manual thoroughly before using the product to ensure proper function and safety. This device is designed to enhance your home security with advanced features like 2K video, motion detection, and two-way audio.

2. WHAT'S IN THE BOX

Verify that all components are present before proceeding with installation:

- Camera Doorbell x1
- Chime x1
- User Manual x1
- Charging Cable x1
- Battery x3
- Other Accessories (screws, anchors, screwdriver)
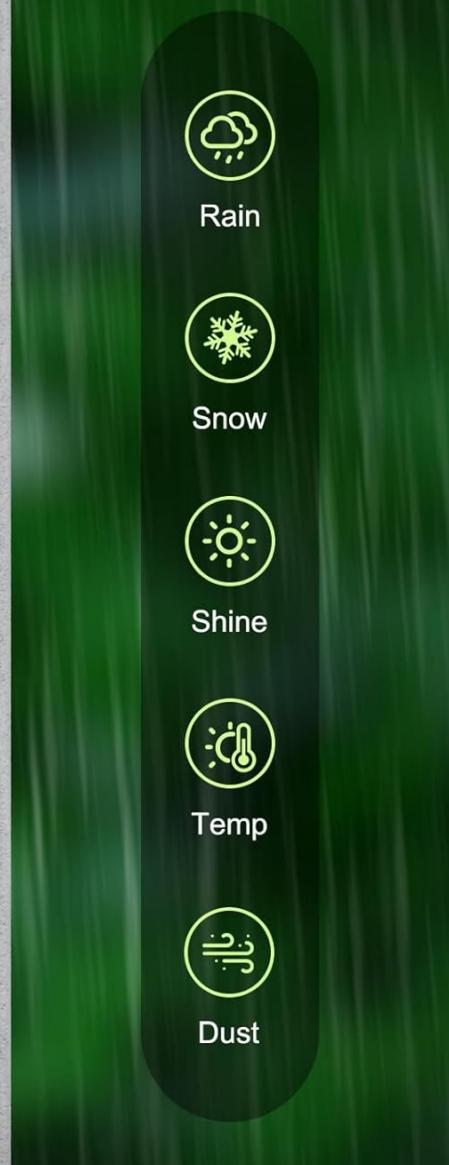

Image: Contents of the MUBVIEW Bell J7 package, including the doorbell, chime, and installation tools.

3. PRODUCT OVERVIEW

Familiarize yourself with the main parts of your video doorbell and chime:

Doorbell Camera

- **2K Camera Lens:** Captures high-resolution video.
- **PIR Motion Sensor:** Detects human movement.
- **Microphone:** For two-way audio communication.
- **Speaker:** For two-way audio communication and siren.
- **Doorbell Button:** Activates the chime and sends notifications.
- **Micro USB-C Port:** For charging the internal battery.
- **Reset Button:** For device reset.

- **Micro SD Card Slot:** For local video storage (up to 128GB, card not included).
- **Anti-Theft Button:** Triggers an alarm if the doorbell is removed from its mount.

Wireless Chime

- **Speaker:** Emits doorbell sound.
- **Volume Control:** Adjusts chime volume.
- **Tone Selector:** Changes chime melody.
- **Power Source:** Battery-powered for flexible placement.

4. SETUP

Follow these steps to set up your MUBVIEW Bell J7 doorbell camera:

4.1 Charging the Doorbell

1. Before first use, fully charge the doorbell camera using the provided USB charging cable.

2. The charging port is located on the side of the doorbell, protected by a rubber flap.

3. A full charge can last up to 180 days, depending on usage.

4.2 App Installation and Wi-Fi Connection

1. Download the **CloudEdge** or **MUBVIEW** app from your smartphone's app store (Apple App Store or Google Play Store).

2. Register for an account or log in if you already have one.

3. Ensure your smartphone is connected to a **2.4GHz Wi-Fi network**. The doorbell is not compatible with 5GHz Wi-Fi.

4. In the app, select "Add Device" and choose "Smart Video Doorbell".

5. Follow the on-screen prompts to connect the doorbell to your Wi-Fi network. This typically involves scanning a QR code displayed on your phone with the doorbell camera.

6. Once connected, you can name your device and complete the setup.

4.3 Mounting the Doorbell

The doorbell can be mounted using screws or strong adhesive tape (not included for all mounting types).

1. Attach the mounting bracket to your desired location on the wall or door frame. Ensure it is at an appropriate height for optimal viewing.

2. Secure the bracket using the provided screws and anchors.

3. Slide the doorbell camera into the mounting bracket until it clicks securely into place.

4. For added security, a small screw can be inserted from the bottom of the bracket into the doorbell to prevent easy removal.

5. OPERATING INSTRUCTIONS

5.1 Live View and Two-Way Audio

- Open the MUBVIEW app to access the live video feed from your doorbell camera.
- Use the microphone icon in the app to enable two-way audio and speak with visitors at your door.
- The voice changer feature can be activated for added privacy and security.
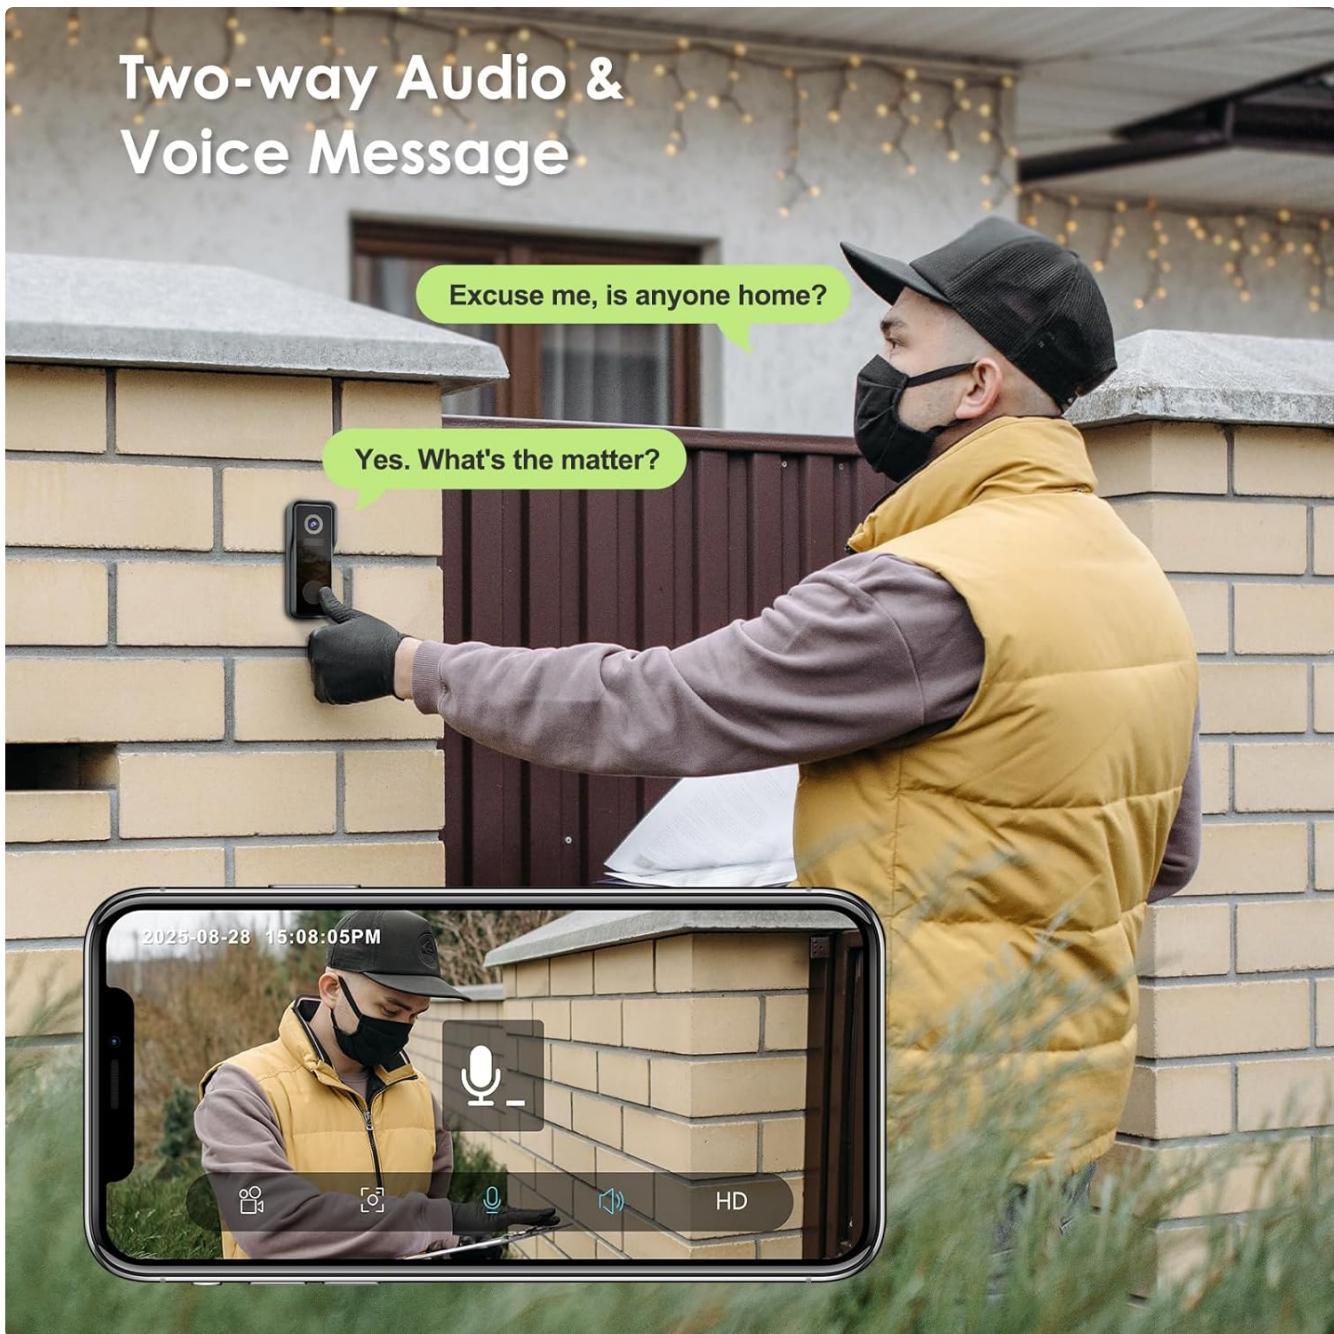

Image: Demonstrating two-way audio and voice message functionality via the app.

5.2 Motion Detection and Alerts

- The doorbell features advanced PIR motion and human detection to minimize false alarms.
- When motion is detected, you will receive instant push notifications on your smartphone.
- Adjust motion detection sensitivity and set custom motion zones within the app to suit your environment.

7. MAINTENANCE

7.1 Battery Charging

The doorbell is powered by rechargeable batteries. Monitor the battery level through the app and recharge as needed. The battery life can extend up to 180 days on a single charge, depending on activity and settings.

7.2 Cleaning

Wipe the camera lens and the doorbell's exterior with a soft, damp cloth to remove dust and debris. Avoid using harsh chemicals or abrasive materials that could damage the device.

7.3 Weather Resistance

The MUBVIEW Bell J7 is IP65 weather-resistant, designed to endure various outdoor conditions. However, extreme weather conditions may still impact performance or battery life.

Stable 2.4GHz Wi-Fi

3dBi antennas for stronger, reliable connection anywhere.

8. TROUBLESHOOTING

Issue	Possible Solution
Doorbell not connecting to Wi-Fi	Ensure your Wi-Fi is 2.4GHz. Move the doorbell closer to your router during setup. Reset the doorbell and try again.
Frequent false motion alarms	Adjust the motion detection sensitivity in the app. Set custom motion zones to exclude busy areas or moving foliage.
Poor video quality	Check your Wi-Fi signal strength in the app. Ensure the camera lens is clean and free from obstructions.
Short battery life	Reduce motion detection sensitivity or frequency of live view access. Ensure the doorbell is fully charged.
Anti-theft alarm not working	Ensure the anti-theft feature is enabled in the app settings. Check if the doorbell is properly seated in its mounting bracket, activating the tamper button.
