## AROEVE DH-CS17

# AROEVE DH-CS17 Compact Dehumidifier User Manual

Model: DH-CS17

## 1. INTRODUCTION

---

Welcome to your new AROEVE DH-CS17 Compact Dehumidifier. This manual provides essential information for safe and efficient operation of your device. Please read it thoroughly before first use and keep it for future reference.

## 2. SAFETY INSTRUCTIONS

---

To ensure safe operation, please observe the following precautions:

- Read all instructions carefully before using the appliance.
- Do not immerse the appliance, power cord, or plug in water or any other liquid.
- Keep the dehumidifier out of reach of children and pets.
- Operate the device only within the recommended temperature range of 15°C to 40°C (59°F to 104°F).
- Ensure there is adequate air circulation around the unit (at least 10 cm clearance on all sides).
- Always unplug the dehumidifier from the power outlet before cleaning or performing any maintenance.
- Do not block the air inlets or outlets of the device.
- Do not stand the product upside down during operation or storage.
- If the power cord is damaged, it must be replaced by the manufacturer, its service agent, or similarly qualified persons to avoid a hazard.

## 3. PRODUCT OVERVIEW

---

### 3.1 Components

# Compact mais Puissant

Maximale Sammelmenge **450ml** in 24h  
(30°C & 80% RH)

This image displays the main components of the AROEVE DH-CS17 dehumidifier, including the touch screen, display panel, air outlet, handle, air inlet, and water tank.

1. Touch Screen
2. Display Panel
3. Air Outlet
4. Handle
5. Air Inlet
6. Water Tank

## 3.2 Control Panel

The control panel features touch-sensitive buttons for Sleep Mode, Timer settings, Ambient Light control, and Power.

**Power Button:** Short press to turn the device on or off.

**Light Button:** Short press to cycle through 7 ambient light colors or turn off the light.

**Timer Button:** Short press to set the timer for 8 hours, 12 hours, or 24 hours.

**Sleep Button:** Short press to activate sleep mode, which reduces fan speed and dims lights.

## 4. SETUP

---

Follow these steps for initial setup:

1. Unpack the dehumidifier and all its accessories from the packaging.
2. Place the dehumidifier on a flat, stable surface. Ensure there is adequate space (at least 10 cm) around the unit for proper air circulation.

# Prêt pour n'importe quel coin d'humidité

Placard

Cuisine

Salle de bain

Caravane

Adapté  
**15m<sup>2</sup>**

The AROEVE DH-CS17 dehumidifier is shown in various room settings, illustrating its compact size and placement flexibility in areas like closets, kitchens, bathrooms, and RVs.

3. Connect the power adapter to the dehumidifier's power interface and then plug it into a suitable electrical outlet.
4. Ensure the water tank is correctly inserted into the base of the unit.

## 5. OPERATING INSTRUCTIONS

### 5.1 Power On/Off

Press the **Power** button once to turn on the dehumidifier. The ambient light will gradually illuminate, and the dehumidification indicator will light up. Press the **Power** button again to turn off the device.

### 5.2 Ambient Light Control

Press the **Light** button to cycle through the 7 available ambient light colors. Each press will change the color. To turn off the ambient light, continue pressing the button until the light is off.

# Fonctionnement sans souci

Arrêt auto & alerte rouge

The dehumidifier displays its 7-color ambient light feature, enhancing the room's atmosphere.

## 5.3 Timer Setting

Press the **Timer** button to set the operating time. Each press cycles through 8 hours, 12 hours, and 24 hours. The corresponding indicator (8H, 12H, or 24H) will light up. Pressing it a fourth time will turn off the timer function.

## 5.4 Sleep Mode

Press the **Sleep** button to activate sleep mode. In this mode, the fan speed is reduced for quieter operation (approx. 28 dB), and the display lights are dimmed to avoid disturbance during sleep.

# Dormir sans Perturbation

Lumières éteintes & ultra-silencieux

The dehumidifier is shown in a bedroom, emphasizing its ultra-quiet operation (28 dB) suitable for undisturbed sleep.

## 5.5 Automatic Shut-off and Defrost

The dehumidifier is equipped with an automatic shut-off feature. When the water tank is full (990ml capacity), a red indicator light will illuminate, and the device will automatically turn off to prevent overflow.

# Pour une utilisation prolongée

## Dégivrage Intelligent

Protection à basse température

The dehumidifier shows a red light, signaling that the water tank is full and the automatic shut-off function has activated. It also features intelligent automatic defrosting. In cold conditions, the unit will automatically defrost to maintain optimal performance and prevent damage.

## 6. MAINTENANCE

## 6.1 Emptying the Water Tank

When the water tank is full, the unit will automatically shut off and a red indicator light will appear. Follow these steps to empty it:

1. Gently pull out the water tank from the base of the dehumidifier.
2. Carefully pour out the collected water into a sink or drain.
3. Reinsert the empty water tank back into the unit until it clicks securely into place.

The image illustrates the easy removal and emptying process of the water tank for the AROEVE DH-CS17 dehumidifier.

## 6.2 Cleaning

Regular cleaning helps maintain the performance and longevity of your dehumidifier:

- Clean the exterior of the dehumidifier with a soft, damp cloth. Do not use abrasive cleaners, solvents, or harsh chemicals.
- Clean the water tank periodically to prevent mold or bacterial growth. Rinse with clean water and dry thoroughly before reinserting it into the unit.

## 7. TROUBLESHOOTING

If you encounter any issues with your AROEVE DH-CS17 dehumidifier, please refer to the following table for common problems and solutions:

Problem	Possible Cause	Solution
Dehumidifier not turning on	No power supply; Water tank not correctly inserted.	Check power connection and ensure the adapter is securely plugged in; Ensure water tank is securely in place.
No water collected	Humidity level is too low; Room temperature is too low; Air inlets/outlets blocked.	Ensure room humidity is above 60% and temperature is above 15°C; Clear any obstructions around the unit.
Red indicator light on	Water tank is full.	Empty the water tank and reinsert it properly.
Device is noisy	Unit not on a flat surface; Obstruction in fan.	Place on a stable, flat surface; Check for and remove any obstructions.

## 8. SPECIFICATIONS

---
