Joiedomi 6 FT Tall Christmas Tree Inflatable with Santa and Dog Instruction Manual

Model: 32530 | Brand: Joiedomi

1. INTRODUCTION

Thank you for choosing the Joiedomi 6 FT Tall Christmas Tree Inflatable with Santa and Dog. This product is designed to provide a festive outdoor decoration for your yard, lawn, or garden. It features a 6-foot tall inflatable Christmas tree with Santa Claus climbing and a dog at the base, illuminated by built-in LED lights. This manual provides essential information for safe setup, operation, and maintenance.

2. SAFETY INFORMATION

- This product is intended for seasonal outdoor and indoor use.
- The power adapter is UL certified, ensuring compliance with safety standards.
- Ensure the inflatable is securely anchored to prevent it from being blown away by wind. Use all provided stakes and tethers.
- Keep the blower fan clear of obstructions to ensure proper inflation and prevent overheating.
- Do not operate the inflatable in extreme weather conditions such as heavy winds, snowstorms, or torrential rain.
- The product is IP44 splash-proof, meaning it is protected against splashing water from any direction. However, it is not fully waterproof and should not be submerged.
- Always unplug the inflatable when not in use or during prolonged periods of absence.
- Keep away from open flames or heat sources.

LET US BRING JOY TO YOUR HOME

Safe for indoor and outdoor use.

INFLATES IN SECONDS

WEATHER RESISTANT

**IP44
SPLASH PROOF**

4. SETUP INSTRUCTIONS

Follow these steps to set up your inflatable decoration:

1. **Unpack and Position:** Carefully remove the inflatable from its packaging. Lay it flat in the desired outdoor or indoor location, ensuring there are no sharp objects underneath that could puncture the fabric.
2. **Close Zipper:** Locate the zipper at the bottom of the inflatable unit. Ensure it is fully zipped up to allow for proper inflation.
3. **Plug In and Inflate:** Connect the UL certified power adapter to the inflatable's blower and then plug it into a standard electrical outlet. The inflatable will begin to self-inflate within seconds.
4. **Secure with Tethers:** Once fully inflated, use the provided tethers. Attach one end of each tether to the loops on the inflatable and the other end to the ground stakes.
5. **Anchor to Ground:** Drive the ground stakes firmly into the ground at an angle to provide maximum stability. Adjust the tension of the tethers to ensure the inflatable stands upright and is stable.

Easy To Set Up

Simple 4 steps to create your inflatable

Image 4.1: Visual guide for the four-step setup process.

5. OPERATING INSTRUCTIONS

Operating your Joiedomi inflatable is straightforward:

- **Inflation:** The inflatable will automatically inflate when plugged into a power source, provided the bottom zipper is closed.
- **LED Lights:** The built-in LED lights will illuminate automatically when the unit is powered on, enhancing visibility and festive appeal during nighttime.
- **Deflation:** To deflate the unit, simply unplug the power adapter from the electrical outlet. The air will slowly escape, and the inflatable will collapse. For faster deflation, you may open the bottom zipper.

6. MAINTENANCE

- **Cleaning:** To clean the inflatable, wipe it gently with a damp cloth. Do not use harsh chemicals or abrasive

cleaners, as these can damage the fabric or printed design.

- **Inspection:** Periodically inspect the inflatable for any tears, punctures, or damage to the fabric, zipper, or electrical components. Address any issues promptly to ensure safe operation.

7. STORAGE

Proper storage will extend the life of your inflatable:

- Ensure the inflatable is completely dry before folding and storing to prevent mold or mildew.
- Deflate the unit fully and carefully fold it to its original compact size.
- Store the inflatable and all accessories (stakes, tethers, power adapter) in a cool, dry place, preferably in its original packaging or a suitable storage container.

8. TROUBLESHOOTING

Problem	Possible Cause	Solution
Inflatable does not inflate.	Power not connected, zipper open, blower obstructed.	Ensure power adapter is securely plugged in. Check that the bottom zipper is fully closed. Clear any debris from the blower intake.
Inflatable does not stand upright or falls over.	Insufficient anchoring, strong winds.	Ensure all stakes and tethers are properly secured and tensioned. Reposition stakes if necessary. Do not use in strong winds.
LED lights are not working.	Power issue, damaged wiring/LEDs.	Check power connection. If power is supplied and blower works but lights do not, contact customer support.
Blower is noisy or vibrating excessively.	Obstruction in blower, fan damage.	Unplug and inspect the blower for any foreign objects. If the issue persists, discontinue use and contact customer support.

9. SPECIFICATIONS

- **Brand:** Joiedomi
- **Model Number:** 32530
- **UPC:** 840494320327
- **Inflated Dimensions (Approximate):**
 - Height: 6 FT (183 CM)
 - Width: 4.4 FT (134.1 CM)
 - Depth: 3.5 FT (106.7 CM)
- **Item Weight:** 2.86 pounds
- **Special Feature:** Self Inflating, Built-in LED Lights
- **Weather Resistance:** IP44 Splash Proof
