

Majority Rostock

Majority Rostock Internet Radio User Manual

Model: Rostock

INTRODUCTION

The Majority Rostock Internet Radio is a versatile audio system designed to provide a comprehensive listening experience. It offers access to thousands of global internet radio stations, crystal-clear DAB/DAB+ digital radio, traditional FM radio, Bluetooth connectivity for streaming from your devices, and Spotify Connect integration. This manual provides detailed instructions for setting up, operating, and maintaining your Rostock radio.

SAFETY INFORMATION

- Ensure the power adapter is connected to a compatible power outlet.
- Do not expose the unit to rain, moisture, or extreme temperatures.
- Avoid placing the unit near heat sources or in direct sunlight.
- Do not open the casing; refer all servicing to qualified personnel.
- Keep the unit away from strong magnetic fields.
- Clean the unit with a soft, dry cloth. Do not use liquid cleaners.

- Majority Rostock Internet Radio Unit
- Remote Control
- Power Cable Adapter
- User Manual

PRODUCT OVERVIEW

The Majority Rostock features a clear LCD display on the front, flanked by two large control knobs and several function buttons. The left knob typically controls volume and navigation, while the right knob is used for selection and power. Buttons for menu, mode, dimmer, sleep, and alarm are also present. An extendable antenna is located at the rear for optimal radio reception. The unit is designed with powerful stereo speakers for rich audio output.

Key Components:

- **LCD Display:** Shows station information, time, and menu options.
- **Control Knobs:** For volume, navigation, and selection.
- **Function Buttons:** Access various modes and settings.
- **Telescopic Antenna:** For FM and DAB/DAB+ reception.
- **Stereo Speakers:** Deliver high-fidelity audio.
- **Remote Control:** Full control over all functions.

The Rostock is equipped with two full-range high-fidelity drivers, ensuring immersive stereo sound. These internal components are engineered to provide clear and powerful audio across all listening modes, from internet radio to Bluetooth streaming.

SETUP

1. Power Connection:

1. Connect the power cable adapter to the DC IN port on the back of the Rostock radio.
2. Plug the other end of the power adapter into a wall socket.
3. The radio will power on automatically or enter standby mode.

2. Antenna Setup:

- For optimal FM and DAB/DAB+ reception, fully extend the telescopic antenna located at the rear of the unit.
- Adjust the antenna's position for the best signal quality.

3. Initial Wi-Fi Setup (for Internet Radio/Spotify Connect/Podcasts):

1. Upon first power-on, the radio will prompt you to set up the Wi-Fi connection.
2. Use the control knobs to navigate the menu and select "Network Wizard" or "Wi-Fi Setup".
3. The radio will scan for available Wi-Fi networks. Select your network from the list.
4. Enter your Wi-Fi password using the on-screen keyboard and control knobs.
5. Once connected, the radio will confirm the successful connection.

OPERATING INSTRUCTIONS

Switching Modes:

Press the **MODE** button on the radio or remote control to cycle through available modes: Internet Radio, DAB Radio, FM Radio, Bluetooth, Spotify Connect, and Podcasts.

1. Internet Radio:

Access thousands of global radio stations via your Wi-Fi connection. In Internet Radio mode, use the control knob to browse by genre, location, or search for specific stations. You can save your favorite stations as presets for quick access. The radio supports over 90 radio presets across all modes.

1. Select "Internet Radio" mode.
2. Navigate through the menu options (e.g., "Stations", "Location", "Genre").
3. Select a station to begin listening.
4. To save a preset, press and hold the **PRESET** button (if available) or follow the on-screen instructions.

2. DAB/DAB+ Radio:

Enjoy high-quality digital radio broadcasts. Ensure the telescopic antenna is fully extended for best reception.

1. Select "DAB Radio" mode.
2. The radio will automatically scan for available DAB/DAB+ stations.
3. Use the control knob to scroll through the list of found stations.
4. Press the knob to select a station.

3. FM Radio:

Tune into traditional analog FM radio stations. Extend the antenna for optimal signal.

1. Select "FM Radio" mode.
2. Use the control knob to manually tune to a frequency or press the **SCAN** button (if available) for automatic scanning.
3. Save favorite FM stations as presets.

4. Bluetooth Connectivity:

Stream audio wirelessly from your smartphone, tablet, or other Bluetooth-enabled devices.

1. Select "Bluetooth" mode on the radio. The display will show "Pairing" or "Waiting for connection".
2. On your device, enable Bluetooth and search for "Majority Rostock".
3. Select "Majority Rostock" from the list of available devices to pair.
4. Once paired, you can play audio from your device through the radio.

5. Spotify Connect:

Control your Spotify music directly from the Spotify app on your phone or tablet, playing it through the Rostock radio.

1. Ensure your Rostock radio is connected to the same Wi-Fi network as your device running the Spotify app.
2. Open the Spotify app on your smartphone or tablet.
3. Play a song, then tap the "Devices Available" icon (usually a speaker or computer icon) at the bottom of the screen.
4. Select "Majority Rostock" from the list of available devices.
5. Your music will now play through the radio.

6. Podcasts:

Access a wide range of international podcasts via the internet connection.

1. Select "Podcasts" mode.
2. Browse podcasts by category, location, or search for specific titles.
3. Select a podcast to listen.

7. Using the Remote Control:

The included remote control provides full functionality without needing to interact directly with the unit. It allows you to power on/off, change modes, adjust volume, navigate menus, and set alarms.

- **Power Button:** Turns the unit on/off or into standby.
- **Mode Button:** Cycles through listening modes.
- **Volume +/-:** Adjusts the sound level.
- **Navigation Buttons:** For menu navigation and station selection.
- **Preset Buttons:** Save and recall favorite stations.

8. Using the OKTIV App:

For an enhanced control experience, download the OKTIV app on your smartphone or tablet. The app allows you to control all functions of your Rostock radio, browse stations, manage presets, and access Spotify and podcasts directly from your mobile device.

1. Download the "OKTIV" app from your device's app store (iOS or Android).
2. Ensure your smartphone/tablet and the Rostock radio are connected to the same Wi-Fi network.
3. Open the OKTIV app; it should automatically detect your Rostock radio.
4. You can now control the radio's functions via the app.

MAINTENANCE

- **Cleaning:** Use a soft, dry, lint-free cloth to clean the surface of the radio. Do not use abrasive cleaners, waxes, or solvents.
- **Storage:** If storing the unit for an extended period, disconnect it from the power supply and store it in a cool, dry place.
- **Antenna Care:** Handle the telescopic antenna gently to prevent damage.

TROUBLESHOOTING

Problem	Possible Cause	Solution
No power	Power cable not connected or power outlet is off.	Check power cable connection and ensure the outlet is active.
No sound	Volume too low or muted; incorrect mode selected.	Increase volume; check if unit is muted; ensure correct mode (e.g., Internet Radio, Bluetooth).
Poor radio reception (DAB/FM)	Antenna not extended or poor signal area.	Fully extend and adjust the telescopic antenna; try moving the radio to a different location.
Cannot connect to Wi-Fi	Incorrect password; router issues; radio too far from router.	Re-enter Wi-Fi password carefully; restart your router; move radio closer to router.

Problem	Possible Cause	Solution
Bluetooth pairing issues	Device not in pairing mode; radio already connected to another device.	Ensure radio is in Bluetooth pairing mode; disconnect from other devices; restart Bluetooth on your device.
