

Ecoway ST2210

Ecoway Lux Smart Toilet ST2210 User Manual

Model: ST2210 | Brand: Ecoway

1. INTRODUCTION

This manual provides detailed instructions for the installation, operation, and maintenance of your Ecoway Lux Smart Toilet ST2210. Please read this manual thoroughly before installation and use to ensure proper function and safety. The Ecoway Lux Smart Toilet ST2210 integrates advanced features for enhanced hygiene and comfort, including a built-in bidet, heated seat, remote control, and warm air dryer. Its sleek design complements modern bathroom aesthetics.

2. SAFETY INFORMATION

- Ensure all electrical connections comply with local codes and regulations.
- Do not immerse the product or remote control in water.
- Unplug the unit before cleaning or servicing.
- Keep children and individuals with reduced physical, sensory, or mental capabilities away from the product unless supervised.
- Use only as intended for personal hygiene.

3. COMPONENTS OVERVIEW

The Ecoway Lux Smart Toilet ST2210 includes the main toilet unit, a wireless remote control, and necessary installation hardware. Familiarize yourself with the components before proceeding with installation.

UV Sterilization that
kills **99%** of bacteria
after every use.

4. INSTALLATION

Professional installation is recommended for this product. Ensure water supply and electrical outlets are properly prepared according to local plumbing and electrical codes.

4.1 Pre-Installation Checklist

- Verify all parts are present and undamaged.
- Ensure a standard 120V AC electrical outlet is available within reach of the toilet's power cord.
- Confirm water supply line is accessible and can be shut off.
- Clear the installation area of any obstructions.

4.2 Installation Steps

1. **Prepare the Floor Flange:** Ensure the existing floor flange is clean and level.
2. **Install Foundation Bolts:** Secure the foundation bolts to the floor flange.

3. **Position the Toilet:** Carefully place the toilet unit over the foundation bolts, ensuring it aligns correctly.
4. **Secure the Toilet:** Tighten the nuts onto the foundation bolts to secure the toilet to the floor. Do not overtighten.
5. **Connect Water Supply:** Connect the flexible water supply line from the wall stop to the toilet's water inlet. Ensure a watertight seal.
6. **Connect Power:** Plug the toilet's power cord into a grounded electrical outlet.
7. **Test Functionality:** Turn on the water supply and check for leaks. Test basic flushing and bidet functions.

5. OPERATING INSTRUCTIONS

The Ecoway Lux Smart Toilet ST2210 is operated primarily via its wireless remote control. Some basic functions may also be accessible via side panel controls.

5.1 Remote Control Functions

The remote control provides access to all smart features. Refer to the remote control diagram (if available) for specific button layouts.

- **Bidet Wash:** Activates the bidet function. Adjustable settings include:
 - **Water Temperature:** Adjust from ambient to warm (34°C - 39°C).
 - **Water Pressure:** Adjust intensity for comfort.
 - **Nozzle Position:** Adjust forward or backward for optimal cleaning.
- **Heated Seat:** Activates the seat heating function. Temperature is adjustable for personalized comfort.
- **Warm Air Dryer:** Activates the warm air dryer after washing for a hands-free drying experience.
- **Deodorizer:** Automatically activates to reduce unpleasant odors.
- **Flush:** Initiates a powerful flush.
- **Stop:** Halts any active bidet or drying function.

5.2 Automatic Functions

- **UV Sterilization:** The bidet nozzle undergoes UV sterilization after each use, eliminating 99% of bacteria.
- **SIAA Certified Antibacterial Seat:** The toilet seat is designed with SIAA certified antibacterial coating to inhibit

bacterial growth.

- **Powerful Flush System:** The toilet features an efficient flush system that uses 1.0-1.28 gallons per flush.

6. MAINTENANCE

Regular cleaning and maintenance will ensure the longevity and optimal performance of your Ecoway Lux Smart Toilet ST2210.

- **Exterior Cleaning:** Wipe the exterior surfaces with a soft, damp cloth and mild, non-abrasive cleaner. Avoid harsh chemicals that may damage the finish.
- **Seat Cleaning:** Clean the antibacterial seat with a gentle bathroom cleaner. Do not use abrasive pads or strong solvents.
- **Nozzle Cleaning:** The bidet nozzle has a self-cleaning function. For manual cleaning, gently pull out the nozzle and wipe with a soft cloth. Do not force or bend the nozzle.
- **Filter Maintenance:** Periodically check and clean the water inlet filter to prevent blockages and maintain water pressure.
- **Power Disconnection:** For extended periods of non-use or before major cleaning, unplug the toilet from the electrical outlet and shut off the water supply.

7. TROUBLESHOOTING

If you encounter issues with your Ecoway Lux Smart Toilet ST2210, refer to the following common troubleshooting steps. For persistent problems, contact customer support.

Problem	Possible Cause	Solution
No power/Unit not responding	Power cord unplugged, circuit breaker tripped, remote control batteries low.	Check power connection, reset circuit breaker, replace remote control batteries.
No water for bidet/weak spray	Water supply shut off, water inlet filter clogged, nozzle blocked.	Ensure water supply is open, clean water inlet filter, clean bidet nozzle.
Heated seat not warming	Heated seat function not activated, temperature setting too low.	Activate heated seat via remote, increase temperature setting.
Leaks from connections	Loose connections, damaged seals.	Tighten connections, inspect and replace seals if necessary.
