SAMSUNG Galaxy Watch Ultra 2025 User Manual

Model: 3d512f97-68d2-44a2-b46c-b2c700087e18

INTRODUCTION

This manual provides essential information for the setup, operation, maintenance, and troubleshooting of your SAMSUNG Galaxy Watch Ultra 2025. This AI Smartwatch is designed for rugged reliability, offering advanced fitness tracking, communication features, and long-lasting battery performance. It is equipped with a 1.5" AMOLED display, 64GB storage, 2GB RAM, and supports Unlocked LTE, Wi-Fi, and Bluetooth connectivity.

WHAT'S IN THE BOX

Upon unboxing your SAMSUNG Galaxy Watch Ultra 2025, verify that all components are present:

- SAMSUNG Galaxy Watch Ultra 2025 (Titanium Blue)
- Watch Strap (matching color)
- Wireless Charging Cable

- Fast Charger Cube
- Quick Start Guide and Safety Information

Figure 2: Included accessories and watch components

SETUP

Initial Charging

Before first use, fully charge your Galaxy Watch Ultra. Connect the wireless charging cable to the provided fast charger cube, and place the watch onto the charging pad. The watch display will indicate charging status. A full charge can provide up to 100 hours of use.

Device Pairing (Android Only)

The SAMSUNG Galaxy Watch Ultra 2025 is compatible with Android devices only. To pair:

1. Ensure your Android smartphone has the latest Galaxy Wearable app installed.
2. Turn on your Galaxy Watch Ultra.
3. Open the Galaxy Wearable app on your phone and follow the on-screen instructions to connect to your watch.
4. Confirm the pairing code displayed on both devices.

LTE Setup (eSIM)

This international model supports eSIM for LTE connectivity. Cellular LTE features are compatible with T-Mobile in the US. Contact your carrier to register your eSIM. During initial setup, if country selection is not available, select any option; the country will update after connecting to Wi-Fi in settings.

OPERATING INSTRUCTIONS

Basic Navigation

Navigate the watch interface using the touchscreen and the physical buttons. The customizable Quick Button allows for rapid access to frequently used functions, such as starting, pausing, or ending a workout, or activating an emergency siren.

Fitness Tracking with Galaxy AI

The Galaxy Watch Ultra 2025 utilizes Galaxy AI for enhanced fitness tracking:

- **Heart Rate Tracking:** Provides precise readings during workouts by filtering out physical movements.
- **Performance Comparison:** Compare current workout performance to previous sessions to track improvement.
- **Personalized Wellness Tips:** Receive daily suggestions based on insights collected by your watch.
- **GPS Navigation:** Utilize built-in GPS for confident outdoor adventure tracking during runs or bike rides.

Communication and Smart Features

Stay connected with ease:

- **Smart Reply with Galaxy AI:** Get quick text reply suggestions based on conversation context.
- **Google Pay:** Supports contactless payments.

Sleep Tracking

Galaxy AI-powered sleep tracking helps monitor your sleep patterns and provides personalized tips to improve rest. It can also assist in detecting moderate to severe sleep apnea.

MAINTENANCE

Durability and Water Resistance

The Galaxy Watch Ultra 2025 features a durable titanium design, MIL-STD 810H certification, and IP68/10ATM

water resistance up to 100 meters. This makes it suitable for use in rainy or dusty conditions and during ocean swimming. After exposure to saltwater, rinse the watch with fresh water and dry thoroughly.

Cleaning

Regularly clean your watch and strap to prevent skin irritation and maintain performance. Use a soft, lint-free cloth. For stubborn dirt, slightly dampen the cloth with water. Avoid using harsh chemicals or abrasive materials.

TROUBLESHOOTING

Connectivity Issues

- **Bluetooth/Wi-Fi:** Ensure both devices have Bluetooth/Wi-Fi enabled and are within range. Restart both the watch and the phone.
- **LTE (eSIM):** Verify that your eSIM is properly registered with your carrier (T-Mobile in the US). Check cellular signal strength.

Battery Life

- If battery life is shorter than expected, check for excessive background app usage.
- Reduce screen brightness or disable always-on display.
- Limit continuous heart rate monitoring or GPS usage when not needed.

General Performance

- If the watch is unresponsive, press and hold the Power button to restart.
- Ensure the watch software is up to date via the Galaxy Wearable app.

SPECIFICATIONS

Feature	Detail
Model Number	3d512f97-68d2-44a2-b46c-b2c700087e18

Feature	Detail
Display	1.5" Super AMOLED, 480x480px
