## Magazoopet MY-PET-CAT-17

# Magazoopet Large Outdoor Catio Enclosure User Manual

Model: MY-PET-CAT-17

## PRODUCT OVERVIEW

This Magazoopet Large Outdoor Catio Enclosure provides a safe and stimulating environment for your feline companions. Designed for outdoor use, it features multiple levels, secure access points, and weather-resistant materials to ensure durability and comfort for your cats.

Key features include a multi-level design with jumping platforms, a walk-in access door, weatherproof asphalt and UV protection roofs, and an optional window connection for seamless indoor-outdoor access.

## PACKAGE CONTENTS AND DIMENSIONS

The MagazooPet Large Outdoor Catio Enclosure is shipped in two separate boxes. Please ensure both packages are received before beginning assembly. The total dimensions of the assembled catio are 76.8 inches (L) x 36 inches (W) x 70 inches (H).

# Product Information

## 2 Boxes Delivery

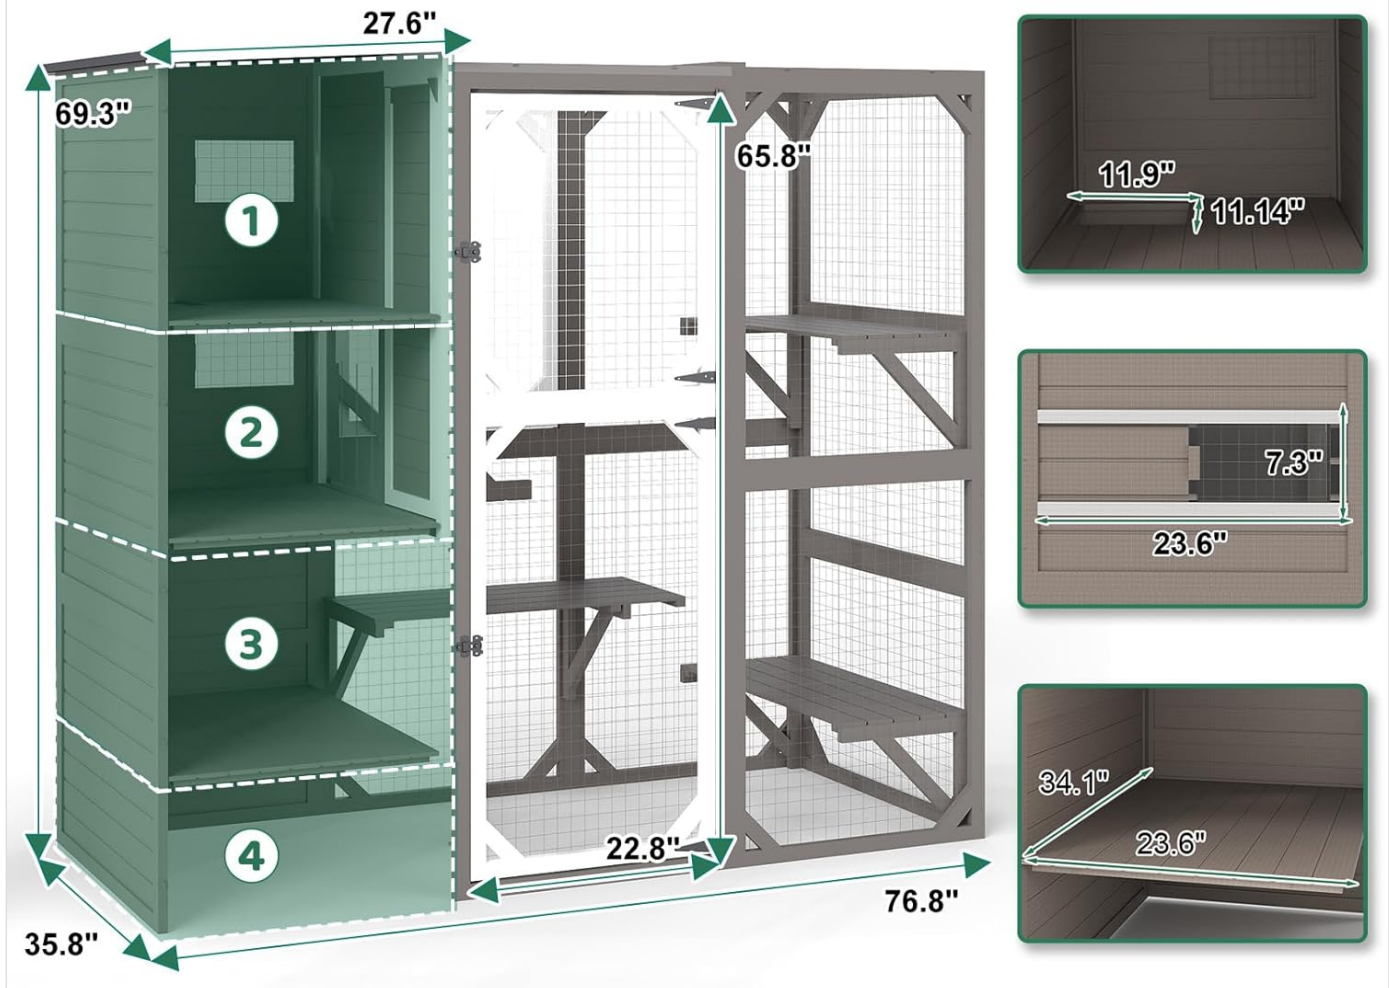

Figure 2: Detailed product information and dimensions, illustrating the two-box delivery and key measurements of the catio components.

### SETUP AND ASSEMBLY

Assembly of the Magazoopet Catio is designed to be straightforward with pre-drilled holes and numbered parts. It is recommended that two people assist with carrying the packages and assembly due to the size and weight of the components.

#### Pre-Assembly Checklist:

- Verify all parts are present according to the included parts list.
- Ensure you have the necessary tools (e.g., screwdriver, wrench).
- Choose a level and stable location for installation.

#### Assembly Steps:

1. Unpack all components carefully. Note that the catio ships in two boxes.
2. Follow the step-by-step instructions provided in the assembly manual (not included in this digital manual, refer to

physical manual).

3. Assemble the main structure, ensuring all reinforced corners and pre-drilled holes align correctly.
4. Install the multi-level platforms and jumping platforms as indicated.
5. Attach the asphalt waterproof roof and UV protection panels.
6. Secure all latches and doors.

# SPACIOUS INTERIOR

## *Multi-Tier Cat Enclosure*

Figure 3: Illustration of the spacious multi-tier interior, highlighting the three jumping platforms and visualization windows for cat activity.

Figure 4: Detail of the catio roof, demonstrating the asphalt waterproof layer and UV protection panels for all-weather durability.

## OPERATING INSTRUCTIONS

### Placing Your Cats:

Once assembled, the catio provides a secure outdoor space. Guide your cats into the enclosure through the main access door. The multi-level design encourages climbing and exploration.

### Window Connection Feature:

The catio is designed to attach securely to a window, allowing cats to transition safely between your home and the enclosure. Removable panels facilitate this connection. Ensure the window connection is properly sealed to prevent escapes and maintain weather integrity.

# CONNECT TO WINDOW

*Give Your Pets the Freedom to Come & Go!*

Figure 5: The catio demonstrating its window connection feature, allowing cats safe and easy access between indoor and outdoor environments.

## **Expanding Space (Optional):**

Multiple Magazoopet catio units can be linked together to create an even larger outdoor space for your cats. This feature allows for customization and expansion as needed.

Figure 6: An example of two catio units linked together, illustrating the expandable design for increased space and enrichment.

## MAINTENANCE

Regular maintenance will prolong the life of your Magazoopet Catio and ensure a safe environment for your pets.

- **Cleaning:** Periodically clean the interior and exterior surfaces with a mild, pet-safe cleaner and water. Ensure all surfaces are dry before allowing cats back inside.
- **Inspection:** Regularly inspect the wooden frame, wire mesh, and latches for any signs of wear, damage, or loosening. Tighten any loose screws or fasteners.
- **Roof Care:** Check the asphalt roof and UV protection panels for cracks or damage, especially after severe weather. Repair or replace as necessary to maintain weatherproofing.
- **Winterization:** In areas with harsh winters, consider adding extra insulation or moving the catio to a more sheltered location if possible. Ensure snow and ice do not accumulate excessively on the roof.

## TROUBLESHOOTING

Problem	Possible Cause	Solution
Catio feels unstable after assembly.	Loose fasteners or uneven ground.	Ensure all screws and bolts are tightened securely. Verify the catio is placed on a level surface. Adjust the ground if necessary.
Water leakage from the roof.	Damaged asphalt or UV panels, improper installation.	Inspect the roof for cracks or gaps. Re-seal any damaged areas or replace panels if severely compromised. Ensure roof panels are correctly overlapped and secured.
Difficulty connecting to a window.	Incorrect alignment or missing window connection kit components.	Refer to the specific instructions for the window connection kit. Ensure the window opening dimensions are compatible with the catio's connection point.
Cats are not using the catio.	Lack of familiar items, uncomfortable environment, or initial hesitation.	Place familiar bedding, toys, or treats inside. Ensure there is shade and shelter. Gradually introduce cats to the space. Consider adding catnip.

## SPECIFICATIONS

Attribute	Detail
Model Name	MY-PET-CAT17
Product Dimensions (L x W x H)	76.8" x 36" x 70"
Item Weight	59 Pounds
Material	Fire wood, Steel Mesh, Asphalt
