

MXV EF565A

MXV 80-Inch Fireplace TV Stand with 36-Inch Electric Fireplace Instruction Manual

Model: EF565A | Brand: MXV

INTRODUCTION

This manual provides detailed instructions for the assembly, operation, and maintenance of your MXV 80-inch Fireplace TV Stand. This unit is designed to accommodate TVs up to 90 inches and features an integrated 36-inch electric fireplace with LED lighting and storage solutions. Please read these instructions carefully before assembly and use to ensure safe and proper operation.

PRODUCT OVERVIEW

The MXV Fireplace TV Stand combines a media console with an electric fireplace, offering both functionality and aesthetic appeal.

Key Features:

- **2-in-1 Design:** Integrates a TV stand for TVs up to 90 inches with a 36-inch electric fireplace.
- **Adjustable Fireplace:** Features 12 flame color options, 5 adjustable brightness levels, and temperature settings from 60°F to 99°F. Heats up to 400 sq ft.
- **Remote Control:** Included for convenient adjustment of flame, temperature, and timer settings.
- **Customizable LED Lighting:** The entertainment center includes LED lights with 12 vibrant colors and 5 adjustable brightness levels, controllable via remote.
- **Ample Storage:** Two side cabinets with doors and an additional open storage compartment provide space for media devices, books, and other items.
- **Cable Management:** Designed with cable holes for organized wiring.
- **Safety Features:** Equipped with overheat protection and CSA/ETL certification for the fireplace.
- **Durable Construction:** Frame made of FSC-certified engineered wood.

SETUP AND ASSEMBLY

Your MXV Fireplace TV Stand will arrive in two separate packages. Please ensure you have received both packages before beginning assembly. If only one package arrives initially, the second package is likely still in transit. Detailed assembly instructions are included within the packaging. Assembly typically requires 1-2 people and takes approximately 2 hours.

Package Contents:

- TV Stand components
- 36-inch Electric Fireplace unit
- Assembly hardware
- Remote control for fireplace and LED lights
- Instruction manual

OPERATING INSTRUCTIONS

This section covers the operation of the electric fireplace and the integrated LED lighting system.

Electric Fireplace Operation:

The electric fireplace can be controlled using the included remote or the control panel on the unit. Ensure the fireplace is properly plugged into a standard electrical outlet.

- **Power On/Off:** Press the power button on the remote or control panel to turn the fireplace on or off.
- **Temperature Adjustment:** Use the temperature controls to set the desired heat output between 60°F and 99°F. The unit will automatically maintain the set temperature.
- **Flame Color Selection:** Choose from 12 different flame colors to match your ambiance.
- **Flame Brightness:** Adjust the flame brightness across 5 levels (L1-L5) for varying intensity.
- **Timer Function:** Set a timer for automatic shut-off, ranging from 1 to 9 hours.
- **Heat Settings:** The fireplace operates at 750W or 1500W for energy-efficient heating.

MAINTENANCE

Proper care and maintenance will extend the life of your TV stand and fireplace.

- **Cleaning:** Wipe surfaces with a soft, damp cloth. Avoid harsh chemicals or abrasive cleaners.
- **Dusting:** Regularly dust the unit to prevent buildup, especially around the fireplace air outlets.
- **Electrical Safety:** Periodically check the power cord for any damage. Do not operate the fireplace with a damaged cord.
- **Ventilation:** Ensure the fireplace's air outlets are not obstructed to prevent overheating.

TROUBLESHOOTING

If you encounter issues with your MXV Fireplace TV Stand, refer to the following common solutions:

- **Fireplace Not Turning On:**
 - Check if the power cord is securely plugged into a working outlet.
 - Ensure the main power switch on the fireplace unit is in the "On" position.
 - Verify that the remote control batteries are not depleted.
 - If using a surge protector, ensure it is not tripped or overloaded.
- **No Heat Output:**
 - Confirm the temperature setting is higher than the ambient room temperature.
 - Check if the heat function is activated on the control panel or remote.
 - Ensure the air outlets are not blocked.
- **LED Lights Not Working:**
 - Check the power connection to the LED strip.
 - Ensure the LED remote control batteries are functional.
- **Missing Parts During Assembly:**
 - Confirm both packages have arrived. Components are distributed between the two boxes.
 - Refer to the included assembly instructions for a complete parts list.
