Aheaplus YHCC-20B

Aheaplus YHCC-20B Modular Closet System Instruction Manual

Model: YHCC-20B

INTRODUCTION

This manual provides detailed instructions for the assembly, installation, and maintenance of your Aheaplus YHCC-20B Modular Closet System. Designed for spaces ranging from 6 to 15 feet, this system includes two closet towers with a total of eight wooden drawers and four expandable hanging rods, offering versatile storage solutions for your wardrobe.

SAFETY INFORMATION

- Always follow assembly instructions carefully.
- Assembly is recommended for two people to ensure safety and ease.
- Ensure all anti-tip kits are properly installed to prevent the unit from tipping over.
- Do not exceed the maximum weight capacity of 1200 lbs for the entire system.
- Keep small parts away from children during assembly.

PACKAGE CONTENTS

The Aheaplus YHCC-20B Closet System is shipped in two separate packages. You may receive these packages at different times. Please verify all components are present before beginning assembly.

Included Components:

- 2 x Closet System Towers (each with 4 drawers)
- 4 x Expandable Hanging Rods

- 8 x Wooden Drawers (pre-assembled into towers)
- Necessary Hardware & Tools for Assembly
- 2 x Anti-Tip Kits

Figure 1: The closet system is delivered in two separate packages.

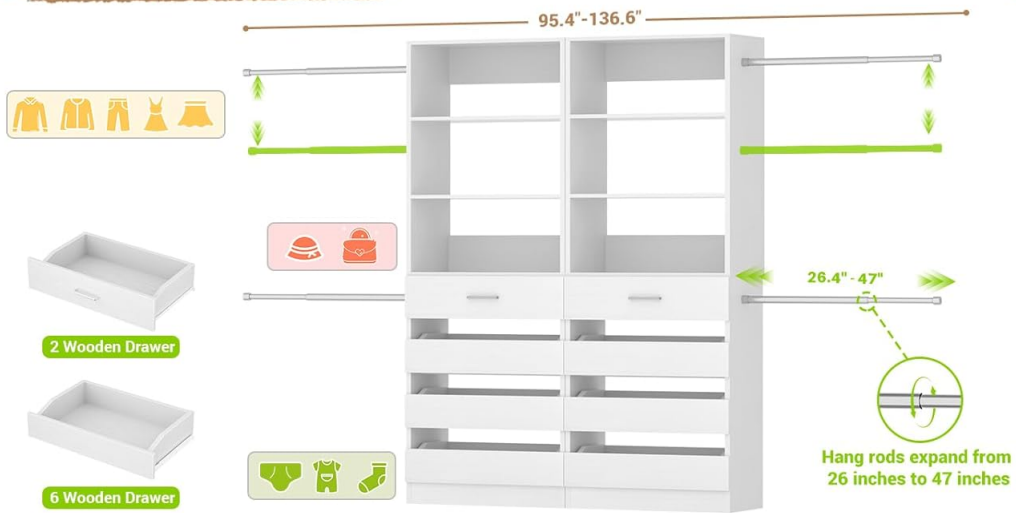

SETUP AND ASSEMBLY

Before starting, ensure you have enough space and a clean work area. It is highly recommended that two people assemble this unit.

1. **Unpack and Identify Parts:** Carefully unpack both packages. Lay out all parts and hardware. Refer to the included separate instruction manuals for each component to identify all pieces. All parts are clearly labeled.
2. **Assemble Closet Towers:** Follow the specific instructions provided with each closet tower to assemble them. These towers include the wooden drawers.
3. **Install Hanging Rods:** Once the towers are assembled, attach the expandable hanging rods. The rods can be installed on either side of the unit, or in the middle, depending on your desired configuration. The rods expand from 26 inches to 47 inches.
4. **Combine Units (Optional):** The system supports multiple combination methods to fit spaces from 6 to 15 feet. You can arrange the two towers and rods to create various layouts, including U-shaped or L-shaped walk-in closets.
5. **Secure with Anti-Tip Kits:** Attach the provided anti-tip kits to the top of the closet towers and secure them to the wall. This is crucial for stability and safety.

Weight Capacity: 1200LBS

OPERATING THE CLOSET SYSTEM

Your Aheaplus Modular Closet System is designed for flexible storage. Here's how to utilize its features:

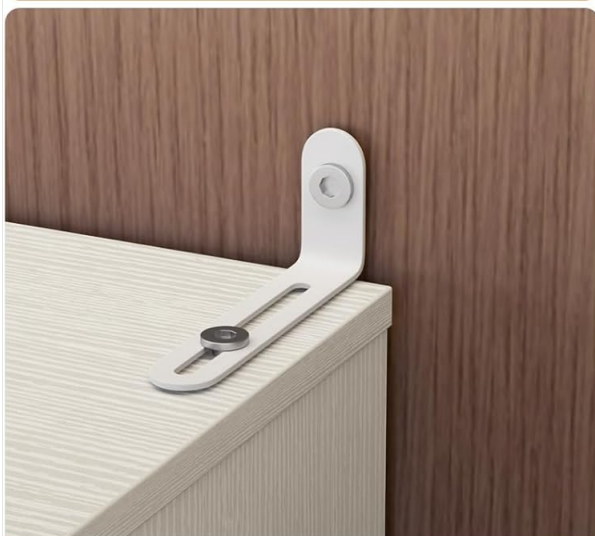

- **Drawers:** The eight wooden drawers provide enclosed storage for folded clothing, accessories, or other items. Pull them out smoothly using the handles.
- **Hanging Rods:** Use the four expandable hanging rods to organize shirts, jackets, dresses, and pants. Adjust the length of the rods to fit your space and clothing volume.
- **Shelves:** The open shelves within the towers are ideal for displaying bags, hats, shoes, or folded garments.

MAINTENANCE

To ensure the longevity and appearance of your closet system, follow these maintenance guidelines:

- **Cleaning:** Wipe surfaces with a soft, damp cloth. Avoid harsh chemicals or abrasive cleaners that could damage the finish.
- **Dusting:** Regularly dust all surfaces to prevent buildup.
- **Hardware Check:** Periodically check all screws and fasteners to ensure they remain tight. Tighten if

necessary.

- **Drawer Slides:** If drawers become stiff, a small amount of silicone lubricant can be applied to the slides.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Missing or Damaged Parts	Shipping error or oversight during packaging.	Contact Aheaplus customer service immediately with your purchase details.
Unit is Wobbly	Screws are loose; anti-tip kits not installed or improperly secured.	Ensure all screws are tightened. Install or re-secure anti-tip kits to the wall.
Hanging Rods Don't Fit	Incorrect measurement; panels lack pre-drilled holes.	Verify measurements for your space. If panels lack pre-drilled holes, use appropriate tools to screw directly, ensuring proper alignment.
Drawers are Stiff	Dust or debris in slides; slides need lubrication.	Clean drawer slides. Apply a small amount of silicone lubricant if needed.

SPECIFICATIONS
