## advwin 20L

# advwin 20L Mini Skincare Fridge User Manual

Model: 20L

### IMPORTANT SAFETY INSTRUCTIONS

Please read all instructions carefully before using this appliance. Failure to follow these instructions may result in electric shock, fire, or serious injury.

- Ensure the voltage matches the power supply before connecting.
- Do not immerse the appliance, cord, or plug in water or other liquids.
- Unplug from the outlet when not in use and before cleaning.
- Do not block ventilation openings. Ensure adequate air circulation around the unit.
- Do not use the appliance if the cord or plug is damaged. Contact customer support for assistance.
- Keep out of reach of children. This appliance is not intended for use by persons with reduced physical, sensory, or mental capabilities unless supervised.
- Do not use in direct sunlight or near heat sources.
- Avoid placing heavy objects on top of the fridge.
- This appliance is designed for personal use with cosmetics and skincare products. Do not store perishable food items that require precise temperature control.

### PRODUCT OVERVIEW

The advwin 20L Mini Skincare Fridge is designed to keep your cosmetics and skincare products at an optimal temperature. It features a dimmable LED light mirror, a removable drip tray, and operates in both cooling and warming modes. It is suitable for use in bedrooms, offices, or dorms, and can be powered by both AC (home) and DC (car) power sources.

### Package Contents

- Mini Skincare Fridge x 1
- AC Power Cord x 1
- DC Power Cord x 1
- Instruction Manual x 1

## SETUP INSTRUCTIONS

1. **Unpacking:** Carefully remove the fridge and all accessories from the packaging. Retain packaging for future transport or storage.
2. **Placement:** Place the fridge on a flat, stable surface. Ensure there is at least 10 cm (4 inches) of space around all sides for proper ventilation. Avoid placing it near heat sources or in direct sunlight.
3. **Power Connection:**
  - **For Home Use (AC 110V):** Connect the AC power cord to the AC port on the back of the fridge, then plug the other end into a standard wall outlet.
  - **For Car Use (DC 12V):** Connect the DC power cord to the DC port on the back of the fridge, then plug the other end into your vehicle's 12V cigarette lighter socket.

- 4. Initial Cleaning:** Before first use, wipe the interior and exterior with a soft, damp cloth. Ensure the unit is completely dry before plugging it in.
- 5. Drip Tray Installation:** Ensure the removable drip tray is correctly seated at the bottom of the fridge interior.

## OPERATING INSTRUCTIONS

### Powering On and Mode Selection

1. **Connect Power:** Ensure the correct power cord (AC or DC) is connected to the fridge and a power source.
2. **Select Voltage:** On the back of the fridge, slide the voltage switch to either "AC" (for home use) or "DC" (for car use).
3. **Select Mode:** On the back of the fridge, slide the mode switch to your desired setting:
  - **COLD:** For cooling items. The green indicator light will illuminate.
  - **HOT:** For warming items. The red indicator light will illuminate.
  - **OFF:** To turn off the unit.
4. Allow 15-30 minutes for the fridge to reach its desired temperature.

### Using the LED Light Mirror

- The mirror on the fridge door features a dimmable LED light.
- To turn on/off the LED light, gently touch the circular sensor on the mirror surface.
- To adjust the brightness (3 levels), touch and hold the sensor until the desired brightness is achieved.

### Storage Recommendations

- For cooling, store skincare products, cosmetics, and small beverages.
- For warming, store small towels or heat packs. Do not store food items that require precise temperature control for safety.
- Avoid overfilling the fridge to ensure proper air circulation.

## MAINTENANCE AND CLEANING

- **Always unplug the fridge** before cleaning.
- **Exterior Cleaning:** Wipe the exterior with a soft, damp cloth and mild detergent. Dry thoroughly.
- **Interior Cleaning:** Wipe the interior with a soft, damp cloth. For stubborn stains, use a mild, non-abrasive cleaner. Ensure the interior is completely dry before plugging the unit back in.
- **Drip Tray Cleaning:** The bottom drip tray is removable for easy cleaning. Slide it out, rinse with water, and dry completely before reinserting.
- **Ventilation:** Regularly check and clean the ventilation openings on the back of the unit to prevent dust buildup, which can affect performance. Use a soft brush or vacuum cleaner.
- Do not use abrasive cleaners, solvents, or sharp objects for cleaning, as these can damage the surfaces.

## TROUBLESHOOTING GUIDE

Problem	Possible Cause	Solution
---------	----------------	----------

Problem	Possible Cause	Solution
Fridge not powering on.	<ul style="list-style-type: none"> <li>• Power cord not securely connected.</li> <li>• Power outlet not functioning.</li> <li>• Mode switch set to OFF.</li> <li>• Voltage switch set incorrectly (AC/DC).</li> </ul>	<ul style="list-style-type: none"> <li>• Check all power connections.</li> <li>• Test the outlet with another appliance.</li> <li>• Slide the mode switch to COLD or HOT.</li> <li>• Ensure the voltage switch matches your power source.</li> </ul>
Fridge not cooling/warming effectively.	<ul style="list-style-type: none"> <li>• Ventilation blocked.</li> <li>• Ambient temperature too high.</li> <li>• Door not closed properly.</li> <li>• Overfilled interior.</li> </ul>	<ul style="list-style-type: none"> <li>• Ensure adequate space around the unit and clean vents.</li> <li>• Move the fridge to a cooler location.</li> <li>• Check door seal and ensure it's fully closed.</li> <li>• Remove some items to allow for better air circulation.</li> </ul>
LED mirror light not working.	<ul style="list-style-type: none"> <li>• Unit not powered on.</li> <li>• Sensor not activated.</li> </ul>	<ul style="list-style-type: none"> <li>• Ensure the fridge is powered on (COLD or HOT mode).</li> <li>• Gently touch the circular sensor on the mirror to activate.</li> </ul>
Excessive condensation/water in drip tray.	<ul style="list-style-type: none"> <li>• High humidity.</li> <li>• Frequent door opening.</li> </ul>	<ul style="list-style-type: none"> <li>• This is normal. Empty and clean the drip tray regularly.</li> <li>• Minimize door openings.</li> </ul>
