## Bear QXJ-C05F3

# Bear Bottle Washer Pro: User Manual

Model: QXJ-C05F3

---

## 1. INTRODUCTION

The Bear Bottle Washer Pro is an advanced 4-in-1 appliance designed to simplify the cleaning and sterilization of baby bottles, pump parts, and other baby essentials. This unit integrates washing, sterilizing, drying, and hygienic storage functions into a single, compact device, providing a comprehensive solution for busy parents.

With its powerful spray jets, high-temperature steam sterilization, and efficient hot air drying, the Bear Bottle Washer Pro ensures that your baby's items are thoroughly cleaned, sanitized, and ready for use. This manual provides detailed instructions for safe and effective operation, maintenance, and troubleshooting.

## 2. IMPORTANT SAFEGUARDS

- Read all instructions before using the appliance.
- Do not immerse the main unit in water or other liquids.
- Ensure the appliance is placed on a stable, level, heat-resistant surface.
- Keep out of reach of children.
- Use only distilled or filtered water to prevent mineral buildup and prolong appliance life.
- Only use official Bear detergent tablets or recommended alternatives.
- Unplug from the outlet when not in use and before cleaning.
- Do not operate any appliance with a damaged cord or plug, or after the appliance malfunctions or has been damaged in any manner.
- This appliance is compatible with 120V 60Hz voltage.

## 3. PRODUCT COMPONENTS

- Main Unit with Control Panel
- Transparent Lid
- Upper Rack (for smaller items like nipples, pacifiers, pump parts)
- Lower Rack (for bottles)
- Water Tank (2.6L capacity)

- Drain Pipe with Suction Cups
- 90 Bear Detergent Tablets

#### 4. SETUP

1. **Unpack the Unit:** Carefully remove all components from the packaging.
2. **Position the Appliance:** Place the Bear Bottle Washer Pro on a stable, flat surface near a sink or a bucket for drainage.
3. **Connect the Drain Pipe:** Attach the drain pipe to the designated outlet on the side of the main unit. Secure the other end of the drain pipe into a sink or a bucket using the suction cups to prevent spills.
4. **Fill the Water Tank:** Remove the water tank from the side of the unit. Fill it with pure or filtered water

up to the indicated MAX line (2.5L). Reattach the water tank securely to the main unit.

5. **Plug In:** Connect the power cord to a 120V 60Hz electrical outlet.

## 5. OPERATING INSTRUCTIONS

### 5.1 Loading Items

- Place bottles upside down on the lower rack, ensuring they fit over the spray nozzles for thorough internal cleaning. The dual-tier rack can hold up to 4 standard bottles.
- Arrange smaller items like nipples, pacifiers, and breast pump parts on the upper rack.
- Add one Bear detergent tablet directly into the main washing cavity.
- Close the transparent lid securely.

# Includes 90 FREE Cleaning Tablets

## 5.2 Selecting a Mode

The control panel features a clear LED display and touch buttons for various functions:

# 72H Day & Night Care, with a Light-Up Menu

From sunrise to bedtime, peace of mind, all day long.

Figure 4: Bear Bottle Washer Pro control panel with mode selections.

Function	Time	Description
<b>Rapid Wash</b>	19 + 60 min	Includes rapid wash (19 min) + dry (60 min). Drying can be canceled.
<b>Normal Wash</b>	29 + 60 min	Includes normal wash (29 min) + dry (60 min). Drying can be canceled.
<b>Dry</b>	60 min	Hot air drying only.
<b>Steam</b>	10 min	Hot steam sterilizing only.
<b>Auto Wash</b>	99 min	Includes Normal Wash + Steam + Dry.
<b>Storage</b>	72 h	Keeps items sterile for up to 72 hours with fresh air circulation.

Press the Power button to turn on the unit. Select your desired function by pressing the corresponding button. The cycle will begin automatically.

### 5.3 Adding Items Mid-Cycle

If you forget to add an item, you can pause the cycle by lifting the lid slightly. Wait for the water flow to stop, then open the lid fully to add items. Close the lid to resume the cycle.

Figure 5: The ability to pause and add items during a cycle.

## 6. MAINTENANCE

### 6.1 Regular Cleaning

- After each use, ensure the water tank is emptied and cleaned.
- Wipe down the interior and exterior of the unit with a damp cloth.
- The racks are removable and can be hand-washed or placed in a dishwasher.

### 6.2 Descaling

Depending on water hardness, mineral deposits may accumulate. Descale the unit regularly (e.g., monthly) using a descaling solution or a mixture of white vinegar and water. Follow the descaling product's instructions or run a 'Steam' cycle with the vinegar solution, then rinse thoroughly.

### 6.3 HEPA Filter Maintenance

The HEPA filter helps maintain a sterile, odor-free environment during storage. Check the filter periodically and replace it as needed to ensure optimal performance. Refer to the product packaging for replacement filter information.

## 7. TROUBLESHOOTING

Problem	Possible Cause	Solution
Unit does not turn on	Not plugged in; power outage	Ensure power cord is securely plugged in; check power outlet.
"NO WATER" indicator lit	Water tank is empty or not properly seated.	Fill water tank to MAX line; ensure tank is correctly installed.

Problem	Possible Cause	Solution
Items not clean after cycle	Improper loading; insufficient detergent; stubborn residue.	Ensure bottles are on nozzles; use one detergent tablet per cycle; pre-rinse heavily soiled items.
Excessive noise during operation	Unit not level; items obstructing spray arms.	Place on a level surface; rearrange items to ensure free movement of spray arms.
Water leakage	Drain pipe not securely connected or clogged.	Check drain pipe connection; clear any blockages.

## 8. SPECIFICATIONS

Feature	Detail
Model Number	QXJ-C05F3
Product Dimensions	14.8 x 10.79 x 16.3 inches
Item Weight	13.86 pounds
Water Tank Capacity	2.6 Liters
Voltage	120V 60Hz
Sterilization Temperature	212°F (100°C)
Spray Pressure	25,000 Pa
Storage Duration	Up to 72 hours (sterile)
Material	BPA-free construction

## 9. WARRANTY AND SUPPORT

The Bear Bottle Washer Pro comes with a 1-year limited warranty from the date of purchase. This warranty covers defects in materials and workmanship under normal use. It does not cover damage resulting from misuse, accident, alteration, or unauthorized repair.

For warranty claims, technical support, or any questions regarding your product, please contact Bear customer service through the official website or the contact information provided in your purchase documentation. Please have your model number (QXJ-C05F3) and proof of purchase ready.
