BONTEMPI Ring Light with 2 Wireless Lavalier Microphones User Manual

Model: 60 4120

1. PRODUCT OVERVIEW

The BONTEMPI Ring Light with 2 Wireless Lavalier Microphones is a comprehensive kit designed to enhance audio and video quality for various applications. This system is compatible with smartphones, tablets, laptops, and PCs equipped with Type-C or Lightning ports, making it ideal for live streaming, video recording, interviews, and online meetings.

Key features include:

- **Complete Audio and Light Kit:** Includes an 85mm diameter ring light and two wireless lavalier microphones.
- **Easy and Quick Connection:** Automatic pairing receiver for immediate use.
- **Integrated Noise Reduction:** Ensures clear audio recording without interference.
- **Adjustable Lighting:** Ring light offers 3 intensity levels for various lighting conditions.
- **Portability:** Compact microphones and a rechargeable lithium battery via USB Type-C for mobile use.

2. PACKAGE CONTENTS

Please verify that all items are present in the package:

- 1 x BONTEMPI Ring Light (85mm diameter)
- 2 x Wireless Lavalier Microphones
- 1 x Type-C Receiver
- 1 x USB Type-C Charging Cable
- 1 x Lightning Adapter (for iOS devices)

Image 2.1: The product packaging displaying the kit contents, including the ring light, two microphones, receiver, and cables.

3. SETUP INSTRUCTIONS

3.1 Charging the Devices

Before initial use, ensure both the wireless microphones and the ring light are fully charged. Use the provided USB Type-C charging cable.

1. Connect the USB Type-C end of the charging cable to the charging port on the microphone(s) and the ring light.
2. Connect the USB-A end of the cable to a standard USB power adapter (not included) or a computer's USB port.
3. An indicator light on the devices will show charging status (e.g., red for charging, green/off for fully charged).

Note: Only use the provided charging cable to prevent damage to the devices.

3.2 Connecting the Receiver

The receiver facilitates the wireless connection between the microphones and your recording device.

1. Identify the appropriate port on your smartphone, tablet, laptop, or PC.
2. If your device has a Type-C port, directly plug the Type-C receiver into it.
3. If your device has a Lightning port (e.g., iPhone), attach the Lightning adapter to the Type-C receiver, then plug the adapter into your device's Lightning port.
4. Once connected, the receiver's indicator light will typically blink, awaiting microphone connection.

Image 3.1: Close-up of the two wireless lavalier microphones, the Type-C receiver, the USB-C charging cable, and the Lightning adapter.

3.3 Pairing the Microphones

The microphones feature automatic pairing with the receiver.

1. Ensure the receiver is securely plugged into your recording device.
2. Turn on the wireless microphone(s) by pressing and holding the power button (refer to the microphone's specific button layout if available).
3. The microphone(s) will automatically search for and connect to the receiver. An indicator light on both the microphone(s) and receiver will typically turn solid (e.g., green) once successfully paired.
4. You can use one or both microphones simultaneously.

4. OPERATING INSTRUCTIONS

4.1 Using the Wireless Microphones

- **Placement:** Clip the lavalier microphone securely to your clothing, approximately 6-8 inches (15-20 cm) from your mouth, for optimal sound capture.
- **Noise Reduction:** The integrated noise reduction technology automatically filters out ambient noise, providing clear and crisp audio. No manual adjustment is typically required for this feature.
- **Recording:** Once paired, the microphones will act as the audio input for your connected device. Start your recording application (e.g., camera app, voice recorder, live streaming software) and begin recording.

4.2 Using the Ring Light

The ring light provides adjustable illumination for your recordings.

1. **Power On/Off:** Locate the power button on the ring light and press it to turn the light on or off.
2. **Adjusting Brightness:** The ring light offers 3 levels of intensity. Press the brightness adjustment button (often the same as the power button, or a dedicated button) repeatedly to cycle through the different

brightness levels.

3. **Positioning:** Position the ring light to illuminate your face evenly, reducing shadows and enhancing visual quality during video calls, streaming, or recording.

Image 4.1: Close-up view of the BONTempi ring light, highlighting its illuminated LEDs and brand logo.

5. MAINTENANCE

- **Cleaning:** Wipe the devices with a soft, dry cloth. Do not use harsh chemicals or abrasive cleaners.
- **Storage:** Store the kit in a dry place, away from direct sunlight and extreme temperatures.
- **Charging:** Always use the provided USB Type-C charging cable for recharging. Avoid overcharging by disconnecting once fully charged.
- **Battery Care:** For optimal battery life, avoid fully discharging the devices frequently. Recharge them regularly, even if not in use for extended periods.

6. TROUBLESHOOTING

Problem	Possible Cause	Solution
Microphones not pairing.	Low battery on microphone or receiver; receiver not properly connected; microphone not turned on.	Ensure both microphones and receiver are fully charged. Re-insert the receiver firmly into the device. Turn on the microphones.
No audio input from microphones.	Microphones not paired; incorrect audio input selected on device; receiver not recognized.	Verify microphones are paired (solid indicator light). Check your device's audio settings to ensure the external microphone is selected. Try restarting your recording application.
Ring light not turning on or dim.	Low battery; faulty connection.	Charge the ring light fully. Ensure the power button is pressed correctly.
Poor audio quality (e.g., static, muffled sound).	Microphone too far from source; environmental interference; microphone obstruction.	Ensure microphone is clipped correctly and close to the speaker's mouth. Move away from strong electromagnetic sources. Check for any obstructions on the microphone's wind screen.

7. SPECIFICATIONS

Model Name:	60 4120
Brand:	BONTEMPI
Microphone Type:	Wireless Lavalier (Clip-on)
Number of Microphones:	2
Ring Light Diameter:	85 mm
Ring Light Brightness Levels:	3
Connectivity Technology:	Wireless
Connector Type:	USB-C (Receiver), Lightning (Adapter)
Power Source:	Rechargeable Lithium Battery
Material:	Plastic
Microphone Dimensions (L x W x H):	15 x 65 x 7.5 mm
Ring Light Dimensions (L x W x H):	8.5 x 8.5 x 2.7 cm
Total Weight:	100 grams (approximate, for the ring light)

Special Features:	Integrated Noise Reduction, Adjustable Ring Light
Recommended Uses:	Live Streaming, Video Recording, Interviews, Online Meetings

8. SAFETY WARNINGS

Please read and adhere to the following safety warnings to ensure safe operation and prevent damage:

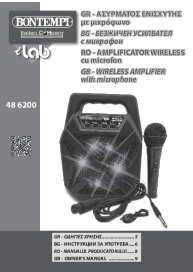

- Use in dry environments only. Do not expose to humidity or heat sources.
- Keep out of reach of children.
- Do not disassemble or modify the device. Unauthorized modifications can lead to malfunction or injury.
- Recharge only with the provided USB Type-C cable. Using incompatible chargers may damage the battery or device.

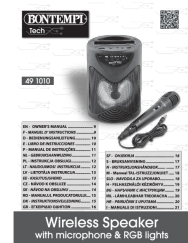

9. WARRANTY AND SUPPORT

Specific warranty information for this product is not available in the provided details. For warranty claims or technical support, please refer to the documentation included with your purchase or contact the retailer/manufacturer directly.
