

TORRAS GuardianMagFold

TORRAS GuardianMagFold Case Instruction Manual

For Samsung Galaxy Z Fold 7

INTRODUCTION

This manual provides detailed instructions for the proper installation, use, and maintenance of your TORRAS GuardianMagFold Magnetic Shockproof Case for the Samsung Galaxy Z Fold 7. This case is designed to offer robust protection and enhanced functionality, including strong magnetic compatibility and comprehensive device safeguarding.

SETUP INSTRUCTIONS

Follow these steps to correctly install your TORRAS GuardianMagFold case and screen protectors.

1. Case Installation

- 1. Attach Front Cover:** Carefully align the front cover with your Samsung Galaxy Z Fold 7. Ensure both the top and bottom engagement points are fully secured. The exclusive glue-free lock system ensures a firm attachment without adhesives. Avoid pressing hard on the hinge area when unfolding the phone during installation.
- 2. Install Rear Cover:** Once the front cover is in place, align and snap the rear cover onto the back of your device. Ensure all edges are flush and secure.

2. Screen Protector Application

Your case includes two front screen protectors. For optimal results, follow these instructions:

- 1. Preparation:** Remove any pre-installed screen protector from your phone completely before applying the TORRAS screen protector. Clean the screen thoroughly to remove dust and smudges.
- 2. Apply Screen Protector:** With the front cover already installed on your phone, carefully align the screen protector. Use the 0.9mm alignment gap for precision. Gently apply the protector, ensuring it adheres smoothly without bubbles or misalignment.

Seamless Mil-Grade Hinge Shield

Rugged one-piece backplate with flexible hinge, press a few times to lock the hinge and front cover securely.

OPERATING INSTRUCTIONS

The TORRAS GuardianMagFold case enhances your Samsung Galaxy Z Fold 7 experience with several key features.

Magnetic Functionality

The case integrates N56SH neodymium magnets and MegaMag technology, providing an 18N magnetic force. This allows seamless compatibility with various magnetic accessories, even if your Z Fold 7 does not have built-in magnets.

- **Magnetic Chargers:** Attach your device to magnetic wireless chargers for efficient power delivery.
- **Car Mounts:** Securely mount your phone in your vehicle using magnetic car mounts.
- **Magnetic Stands:** Utilize magnetic stands for hands-free viewing.

Hinge Protection

The case features a shockproof hinge cover that provides 4X military-grade protection for the delicate hinge mechanism of your Z Fold 7. This design ensures the hinge is protected during drops and daily use while allowing smooth folding and unfolding of the device.

Enhanced Grip and Slim Design

The case is crafted from German-engineered material with a Nano Oleophobic coating, providing a silky, non-sticky grip. Its 0.04-inch ultra-thin TPU/TPE design ensures protection without adding significant bulk, maintaining the phone's slim profile for easy pocket storage.

Comprehensive Protection, Inside and Out

Comfortable yet durable – combining scratch-resistant durability with a velvety-soft touch. Effortlessly luxurious.

Protection Features

The case incorporates a reinforced 3-layer bumper, 2mm raised bezels for screen protection, and 1.6mm camera lips to prevent scratches on the camera lenses. It is drop-tested to 12 feet and certified for 4X military-grade protection.

MAINTENANCE

To ensure the longevity and appearance of your TORRAS GuardianMagFold case, follow these maintenance guidelines:

- **Cleaning:** The Nano Oleophobic coating helps resist fingerprints and smudges. For cleaning, gently wipe the case with a soft, dry, or slightly damp cloth. Avoid harsh chemicals or abrasive materials, which can damage the coating.
- **Scratch Resistance:** While the case offers superior scratch resistance, avoid placing it on rough surfaces or exposing it to sharp objects to maintain its pristine condition.

**Go Stable. Go Fast.
Go Far.**

TROUBLESHOOTING

If you encounter any issues with your TORRAS GuardianMagFold case, refer to the following common solutions:

Front Cover Not Securing Properly

Ensure both the top and bottom engagement points of the front cover are fully engaged. The case uses a glue-free lock system; verify it clicks into place. If the issue persists, gently re-align and re-attach the front cover.

Image: Detail of the exclusive glue-free lock mechanism.

Speaker Hinderance

A small nub is intentionally designed to cover the speaker area. This feature helps prevent the front cover from sliding off and ensures a secure, adhesive-free fit. While it may slightly hinder the speaker, the speaker remains fully functional. This is a design feature and not a defect.

Hinge Making Noise When Opening/Closing

In some instances, a slight rubbing sound may occur between the front piece and the hinge panel. This is typically due to the design tolerances and does not indicate damage to the phone or case. Ensure the case is correctly installed and not misaligned.

SPECIFICATIONS

Brand	TORRAS
Compatible Phone Models	for Samsung Galaxy Z Fold 7
Color	Black
Model Name	GuardianMagFold
Material	Carbon Fiber, Plastic, Polyester, Polypropylene, Rubber, Silicone, Thermoplastic Polyurethane
