DUDUPET DU-F11K

DUDUPET 5L Automatic Cat Feeder

MODEL: DU-F11K INSTRUCTION MANUAL

Introduction

Thank you for choosing the DUDUPET 5L Automatic Cat Feeder. This device is designed to provide a consistent and convenient feeding routine for your pets, ensuring they receive meals on time with precise portion control. Please read this manual carefully before use to ensure proper operation and maintenance.

What's in the Box

- Automatic Pet Feeder Main Unit
- Food Tank (5L capacity)
- Food Bowl (detachable)
- 5V DC Power Adapter
- Desiccant Bag
- User Manual

Setup

1. **Install Rotating Component:** Insert the rotating component into the base unit.
2. **Rotate Blade to Locked Position:** Ensure the slots of the rotor component are aligned with the base, then manually rotate the three-blade until it is securely locked in place and cannot move.
3. **Assemble Food Tank:** Place the 5L food tank onto the base unit, aligning the locking mechanisms.
4. **Lock Food Tank:** Gently rotate the food tank clockwise until it clicks into the locked position.
5. **Install Desiccant:** Open the desiccant box located on the underside of the lid and insert the provided desiccant bag. Close the box securely.
6. **Install Lid:** Place the lid onto the food tank and rotate it to lock it in place.
7. **Connect Power Supply:** Plug the 5V DC adapter into the feeder and a wall outlet. For uninterrupted operation, install 3 D-cell batteries (not included) in the battery compartment on the bottom of the unit.

Operating Instructions

1. Setting the Current Time

- Press and hold the **SET** button for 3 seconds to enter time setting mode. The hour display will flash.
- Use the **UP** and **DOWN** buttons to adjust the hour.
- Press **SET** again to switch to minute setting, then use **UP** and **DOWN** to adjust minutes.
- Press **SET** to confirm and exit.

2. Programming Feeding Schedule

- Press **SET** to cycle through meal settings (Meal 1 to Meal 6).
- When a meal time is flashing, use **UP** and **DOWN** to set the desired feeding time.
- Press **SET** to move to portion setting. Use **UP** and **DOWN** to select 1-20 portions.
- Repeat for up to 6 meals. Press **SET** to save and exit.

Dual Power Supply

No need to worry about your pet going hungry—even if the power goes out

*Batteries are not included in package list

Maintenance & Cleaning

- All food-contact components, including the food tank and food bowl, are detachable and washable.
- To clean, detach the food tank and bowl from the main unit. Wash them with mild soap and water, then rinse thoroughly and dry completely before reassembling.
- The main unit should **NOT** be washed or submerged in water. Wipe it clean with a damp cloth.
- Replace the desiccant bag every 30 days to maintain food freshness.

Detachable Design for Easy Cleaning

Provide a Clean Feeding Environment for Your Pet

Troubleshooting

- **Food Not Dispensing:** Check if the food tank is properly installed and locked. Ensure there is enough food in the tank. Verify that the kibble size is between 0.07 to 0.55 inches (2-15mm) to prevent jamming.
- **Incorrect Portions:** Adjust the portion settings in the programming menu. Note that 1 portion is approximately 0.62 oz (3 Tbsp / 0.2 cup) for 0.35-0.39 inch pellets.
- **Feeder Not Powering On:** Ensure the power adapter is securely plugged into both the feeder and a working outlet. If using batteries, check that they are correctly installed and not depleted.
- **Settings Not Saving:** Make sure to press the **SET** button to confirm and save changes after adjusting time or meal settings.

Factory Reset

- To restore the feeder to factory settings, press and hold the **UP** button for 6 seconds. You will hear a
