> YITAHOME XXL Chicken Coop with Run - 3x6x2m Large Outdoor Enclosure for Poultry and Small Animals

## YITAHOME PSPPPC-0062-E

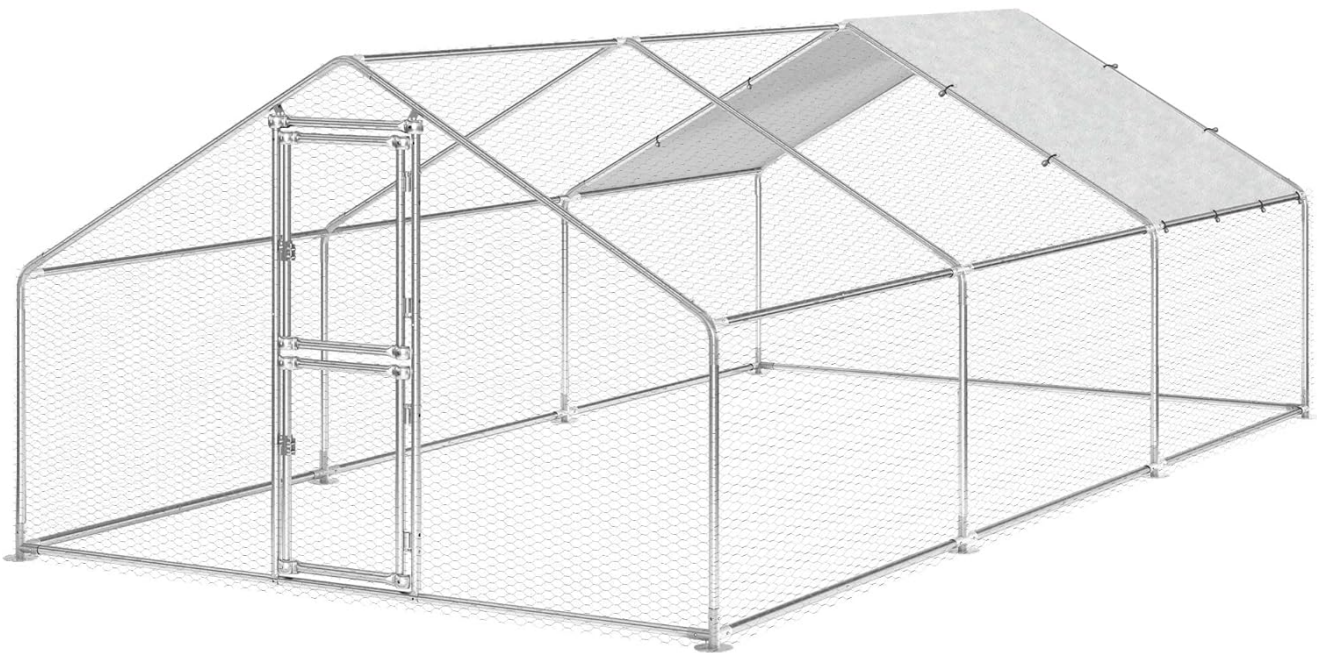

# YITAHOME XXL Chicken Coop with Run

Model: PSPPPC-0062-E

## INTRODUCTION

---

Thank you for choosing the YITAHOME XXL Chicken Coop. This premium outdoor enclosure is designed to provide a secure, comfortable, and spacious habitat for various small animals, including chickens, ducks, geese, rabbits, and even small dogs. Constructed with high-quality galvanized steel and featuring a waterproof, UV-resistant roof, this coop ensures durability and protection against the elements. This manual provides essential information for assembly, operation, and maintenance to ensure the longevity and optimal performance of your YITAHOME Chicken Coop.

## SAFETY INFORMATION

---

- Always ensure all connections are securely fastened during assembly and periodically check for stability.

- The enclosure is designed for small animals. Do not use it for animals that may exceed its structural capacity or attempt to escape through the mesh.
- Keep children away from the assembly area to prevent injury.
- Regularly inspect the wire mesh and frame for any damage that could compromise animal safety or allow escape.
- Ensure the coop is placed on level ground to maintain stability.

## ASSEMBLY INSTRUCTIONS

---

The YITAHOME Chicken Coop features a snap-lock system for quick and easy assembly without the need for special tools. It is recommended to have two people for certain steps, especially when attaching the wire mesh.

### Components Overview

Before starting, verify that all components are present. The package typically includes:

- Galvanized Steel Frame Pipes
- Connectors
- Hexagonal Wire Mesh
- PE Waterproof and UV-resistant Roof Cover
- Double-Locking Door Assembly
- Elastic Straps for Cover Attachment

### Step-by-Step Assembly

1. **Frame Construction:** Assemble the galvanized steel pipes using the snap-lock connectors to form the main structure of the coop. Ensure all connections are firm and secure.
2. **Door Installation:** Attach the double-locking door assembly to the designated frame section. Verify that the latch operates smoothly and securely.
3. **Wire Mesh Attachment:** Unroll the hexagonal wire mesh and secure it to the frame. The mesh can be cut to size as needed. Ensure there are no gaps that animals could exploit for escape.
4. **Roof Cover Placement:** Drape the PE waterproof and UV-resistant roof cover over the top section of the coop. Use the provided elastic straps to securely fasten the cover to the frame, ensuring it is taut to prevent water pooling.

# Protect your chickens

### **OPERATING GUIDELINES**

#### **Animal Placement**

The YITAHOME XXL Chicken Coop is suitable for a variety of small animals. Ensure the number of animals housed is appropriate for the coop's dimensions (300 x 600 x 200 cm) to allow sufficient space for movement and comfort.

## MAINTENANCE

---

### Cleaning

- Regularly clean the interior of the coop to maintain a hygienic environment for your animals.
- The galvanized steel frame and PVC-coated mesh are easy to wipe down with water and mild soap.

### Weather Protection

The included PE roof cover provides excellent protection against rain, UV rays, and snow. Ensure the cover is always securely fastened, especially during adverse weather conditions, to prevent damage and maintain a comfortable internal temperature.

## TROUBLESHOOTING

- **Issue: Coop feels unstable.**

*Solution:* Recheck all frame connections to ensure they are fully engaged and tightened. Verify the coop is on a flat, level surface.

- **Issue: Water pooling on the roof cover.**

*Solution:* Ensure the roof cover is stretched taut and securely fastened with all elastic straps. Adjust the positioning if necessary to allow for proper water runoff.

- **Issue: Animals attempting to escape.**

*Solution:* Inspect the entire wire mesh for any gaps or loose sections. Secure any identified weak points. Ensure the door latch is fully engaged when closed.

- **Issue: Rust appearing on metal parts.**

*Solution:* While the frame is galvanized for rust resistance, prolonged exposure to harsh conditions can cause issues. Clean any rust spots with a wire brush and apply a rust-inhibiting paint or sealant.

## SPECIFICATIONS

Feature	Value
Brand	YITAHOME
Model Number	PSPPPC-0062-E
Dimensions (L x W x H)	600 x 300 x 200 cm (approx. 19.7 x 9.8 x 6.6 ft)
Weight	50.45 kg (approx. 111.2 lbs)
