

## Vine ALL

# Vine C-Wire Adapter Installation and User Manual

Model: ALL

## INTRODUCTION

The Vine C-Wire Adapter is designed to provide a common wire (C-wire) connection for smart thermostats in heating, ventilation, and air conditioning (HVAC) systems that lack this essential wire. Many smart thermostats require a continuous 24VAC power supply, which is typically provided by a C-wire. This adapter facilitates the installation of such thermostats in systems that only have R, G, Y, and W wires, ensuring stable operation without the need for new wiring runs.

This manual provides detailed instructions for the safe and correct installation and use of your Vine C-Wire Adapter.

## IMPORTANT SAFETY INFORMATION

- **ALWAYS turn off power to your HVAC system at the circuit breaker before beginning any installation or wiring work.** Failure to do so can result in electrical shock, property damage, or personal injury.
- If you are unsure about any part of the installation process, consult a qualified electrician or HVAC technician.
- Ensure all wire connections are secure and properly insulated to prevent short circuits.
- This adapter is designed for use with 24VAC systems only. Do not use with higher voltage systems.
- Keep the adapter and wiring away from sources of heat or moisture.

## PACKAGE CONTENTS

Verify that all items are present in your package:

- Vine C-Wire Adapter Unit
- Wire Nuts (2)
- Additional Wires (for extending connections if needed)

**Image: Vine C-Wire Adapter Kit.** This image displays the complete Vine C-Wire Adapter kit, including the main adapter unit, two orange wire nuts, and two additional white wires with crimped ends, ready for installation.

## INSTALLATION GUIDE

---

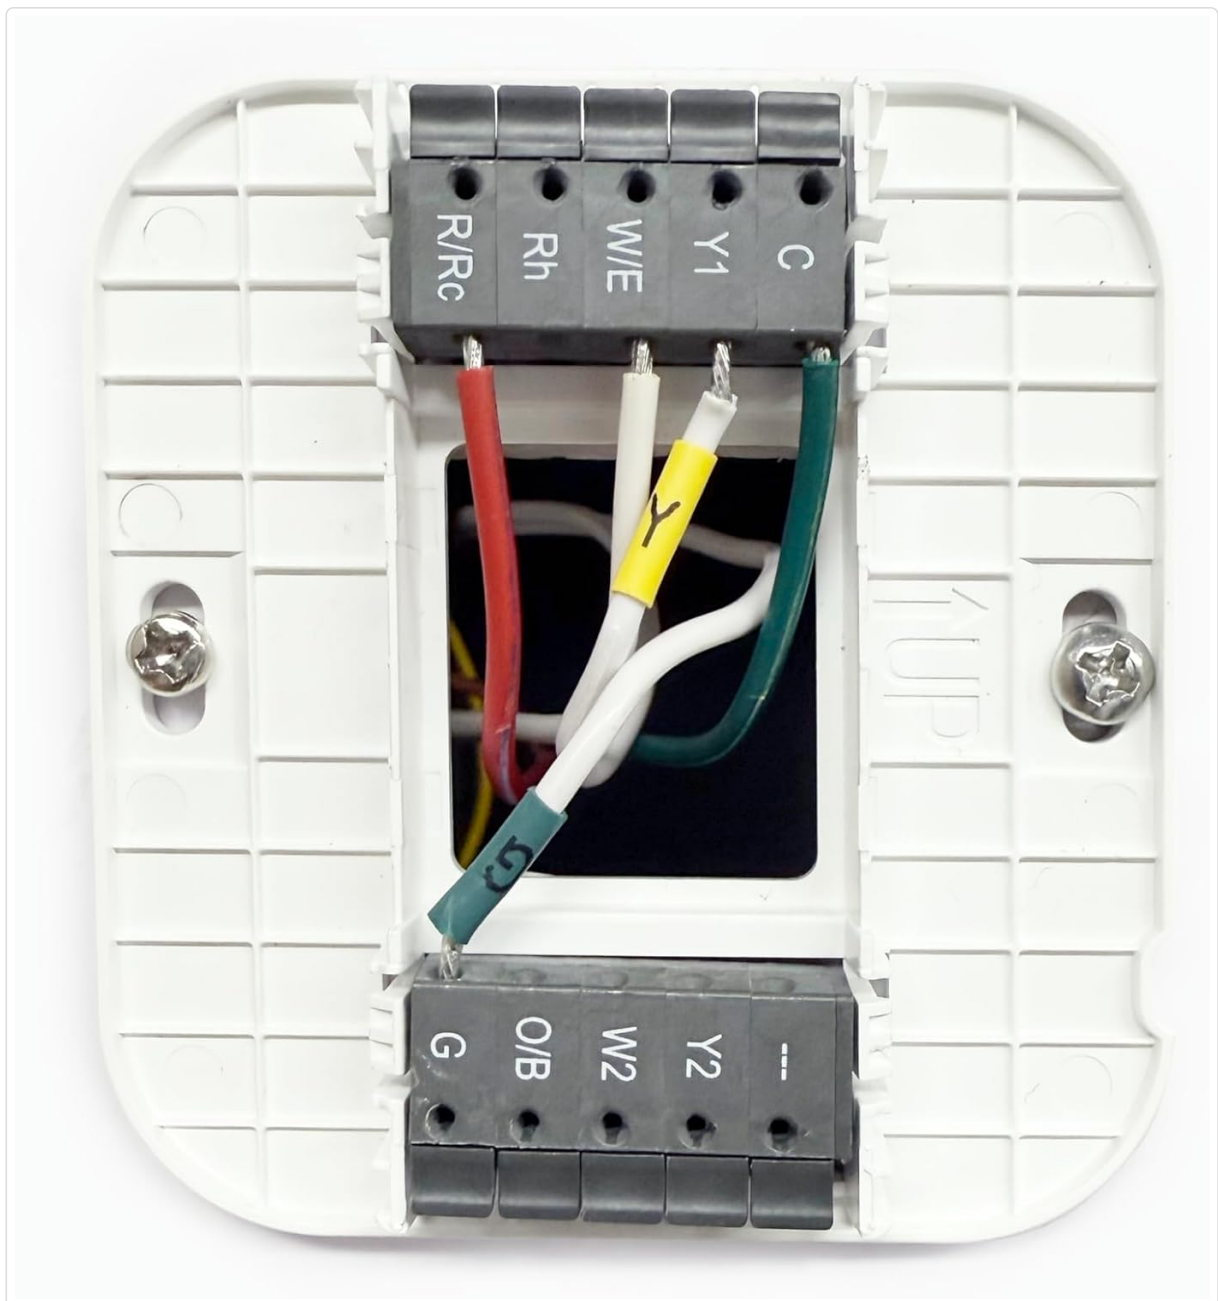

This guide assumes your existing thermostat wiring consists of R, G, Y, and W wires, and your HVAC system does not have a C-wire available at the thermostat.

### Step 1: Power Off Your HVAC System

Locate your HVAC system's circuit breaker and turn off the power. Verify that the thermostat is completely off and unresponsive before proceeding.

### Step 2: Access Thermostat Wiring

Remove your existing thermostat from its wall plate to expose the wiring. Note the current connections. Take a picture for reference if desired.

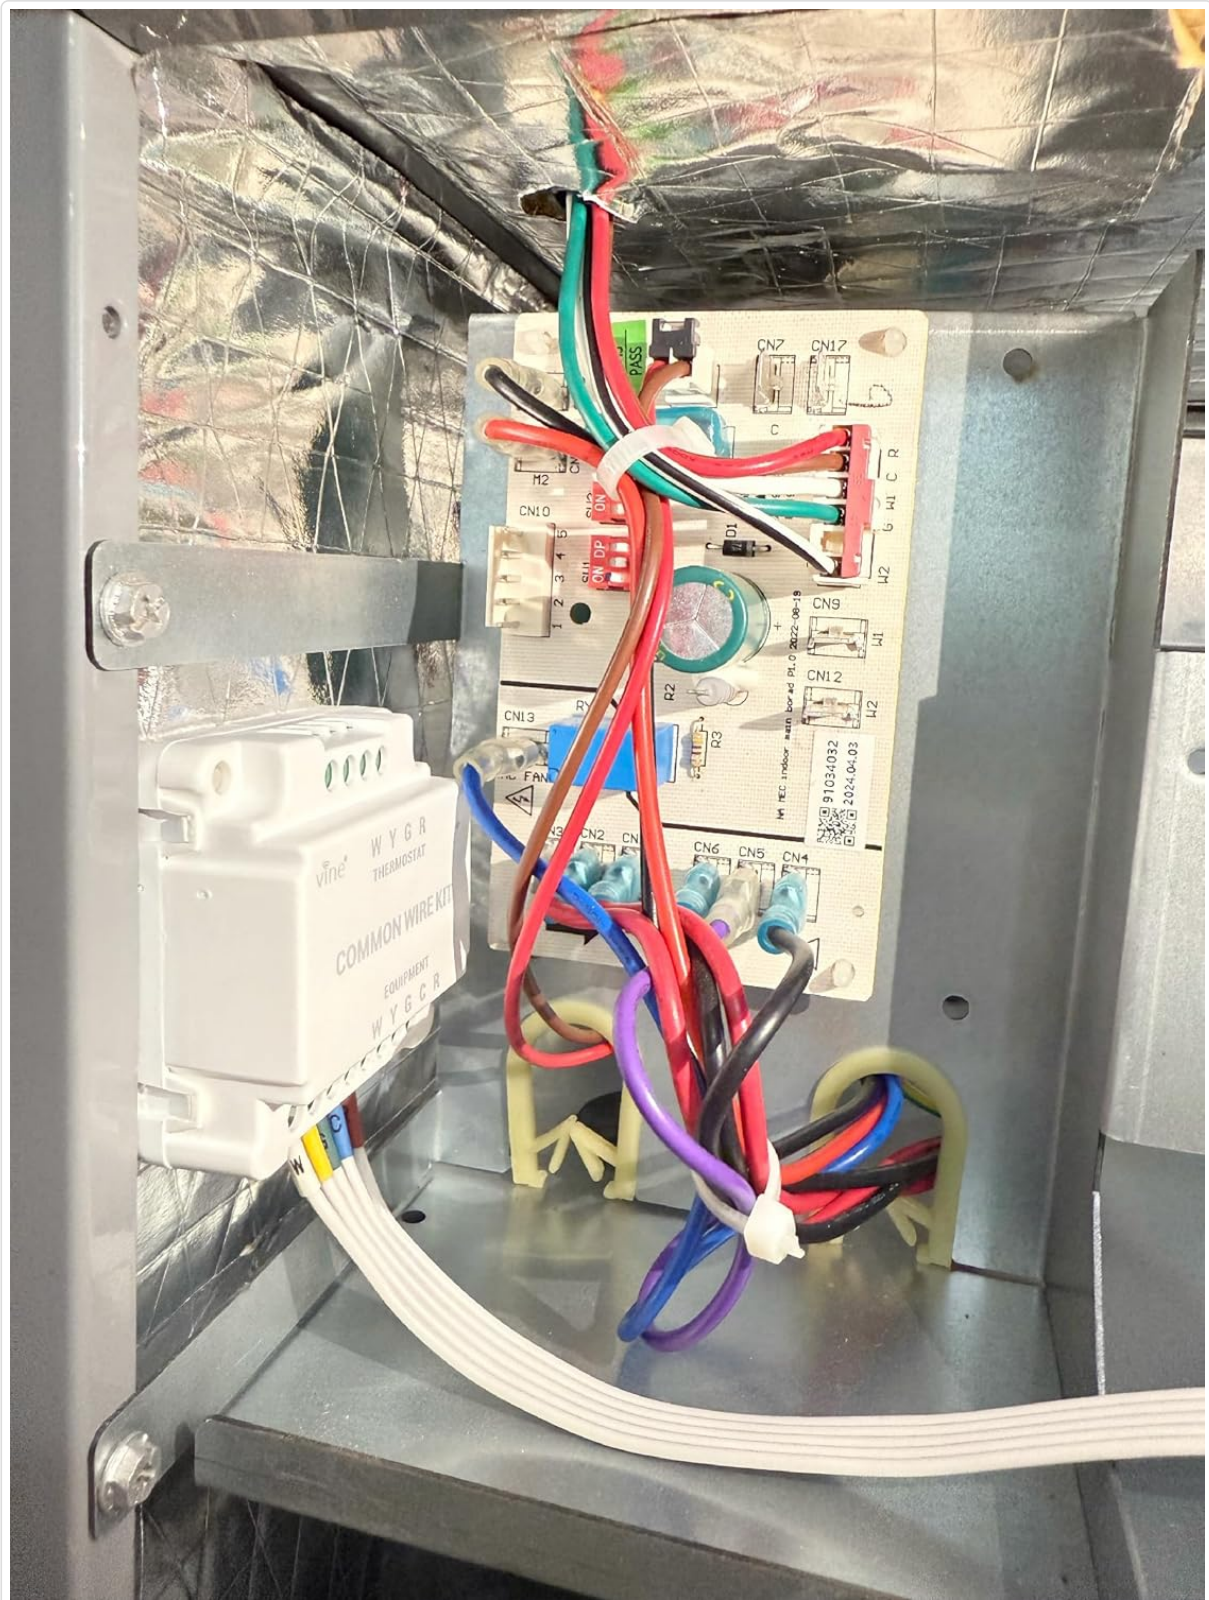

**Image: Thermostat Wiring Backplate.** This image shows a typical thermostat backplate with existing wiring connected to terminals such as R/Rc, Rh, W/E, Y1, C, G, O/B, W2, and Y2. The C-wire adapter will help provide a connection to the 'C' terminal.

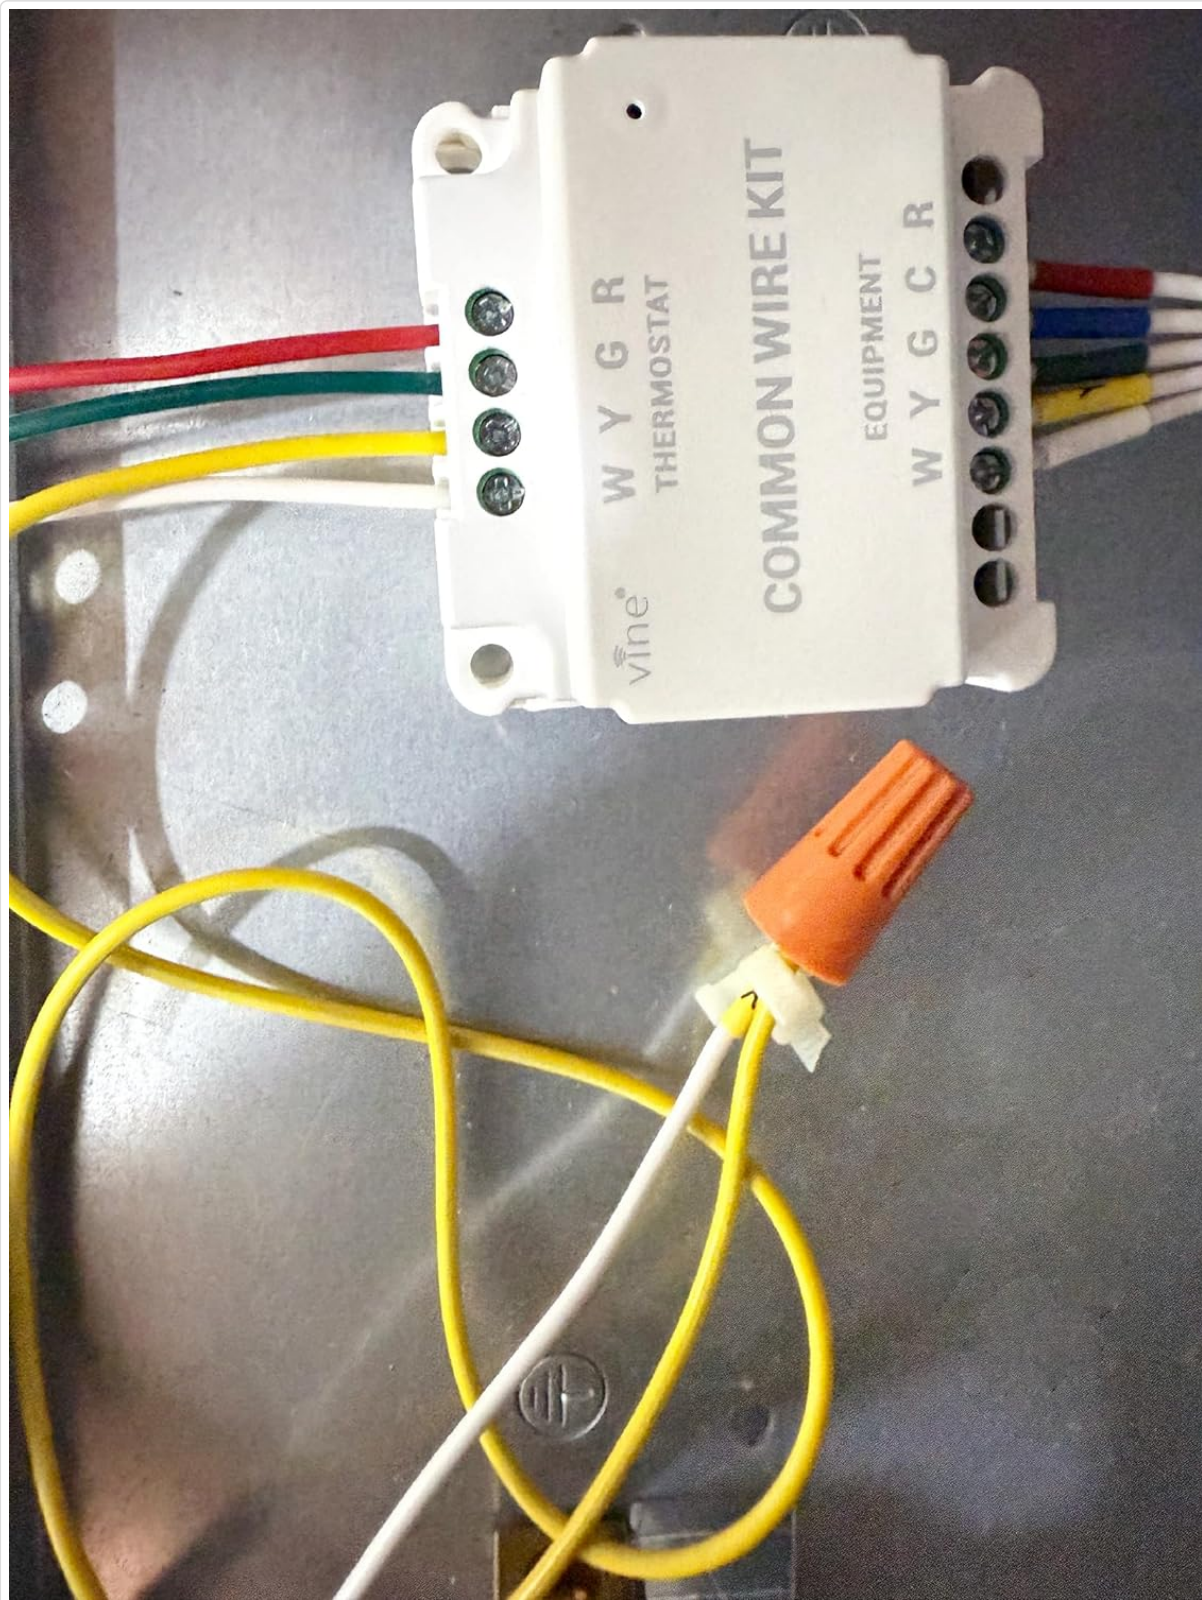

### Step 3: Install the C-Wire Adapter at the HVAC Control Board

The Vine C-Wire Adapter should be installed near your HVAC system's control board, typically located in the furnace or air handler. Open the access panel to the control board.

1. Identify the R, G, Y, and W wires coming from your thermostat that connect to the HVAC control board.
2. Disconnect these wires from the control board terminals.
3. Connect the corresponding wires from the C-Wire Adapter's "THERMOSTAT" side (labeled W, Y, G, R) to the wires coming from your thermostat. Use the provided wire nuts for secure connections. For example, connect the adapter's 'R' wire to the thermostat's 'R' wire, 'G' to 'G', and so on.
4. Connect the C-Wire Adapter's "EQUIPMENT" side (labeled W, Y, G, C, R) to the corresponding terminals on your HVAC control board. Ensure that the 'C' wire from the adapter is connected to the 'C' terminal on the control board.

**Image: C-Wire Adapter Installed in HVAC Unit.** This image shows the Vine C-Wire Adapter unit mounted inside an HVAC system, with its wires connected to the main control board. The adapter is positioned to manage the wiring between the thermostat and the HVAC unit.

**Image: C-Wire Adapter Connections at Control Board.** A close-up view of the Vine C-Wire Adapter connected to an HVAC control board. Wires from the adapter are neatly connected to the board's terminals, and a wire nut is used to secure a connection, demonstrating proper wiring technique.

**Image: Wire Nut Connection Detail.** This image provides a detailed view of a wire connection secured with an orange wire nut. It illustrates how two wires are twisted together and then covered by the wire nut for a safe and insulated electrical connection.

### Step 4: Connect C-Wire at Thermostat

At the thermostat wall plate, you should now have an additional C-wire available from the adapter's wiring. Connect this new C-wire to the 'C' terminal on your smart thermostat's wall plate.

### Step 5: Reassemble and Power On

Carefully reassemble your thermostat onto its wall plate. Once everything is securely connected, return to your circuit breaker and restore power to your HVAC system. Your smart thermostat should now power on and function correctly with the C-wire connection.

## OPERATION

The Vine C-Wire Adapter is a passive component designed to provide a stable 24VAC common wire connection to your smart thermostat. Once correctly installed, it operates continuously without user intervention. Its function is to ensure your smart thermostat receives consistent power, allowing it to perform its programmed functions reliably.

Refer to your smart thermostat's instruction manual for details on its specific operation, programming, and features.

## MAINTENANCE

The Vine C-Wire Adapter requires minimal maintenance. Periodically, it is recommended to:

- Ensure all wire connections remain secure at both the thermostat and HVAC control board.
- Inspect the adapter and its wiring for any signs of damage or wear.
- Keep the area around the adapter clean and free from dust or debris to ensure proper ventilation.

Always turn off power to the HVAC system at the circuit breaker before performing any inspection or maintenance.

## TROUBLESHOOTING

Problem	Possible Cause	Solution
Thermostat does not power on after installation.	Power to HVAC system is off. Incorrect wiring connections. Loose wire connections. Faulty adapter.	Ensure power is restored at the circuit breaker. Double-check all wiring against the installation steps. Ensure C-wire from adapter is connected to thermostat's C-terminal. Verify all wire nuts and terminal connections are secure. If all else fails, contact customer support.

Problem	Possible Cause	Solution
HVAC system not responding to thermostat commands.	Incorrect wiring at HVAC control board. Thermostat not configured correctly.	Review Step 3 of the installation guide. Ensure adapter's EQUIPMENT wires (W, Y, G, R) are connected to the correct terminals on the HVAC control board. Consult your smart thermostat's manual for proper configuration.
Intermittent power to thermostat.	Loose connections. Power fluctuations.	Check all wire connections for tightness. Ensure stable power supply to the HVAC system.

## SPECIFICATIONS

- **Brand:** Vine
- **Model Name:** ALL
- **Compatibility:** All 24VAC systems (Air Conditioner, Heat Pump, Furnace)
- **Item Weight:** 2.89 ounces
- **Package Dimensions:** 2.32 x 2.32 x 2.13 inches
- **Color:** White

## WARRANTY AND SUPPORT

For warranty information and technical support, please refer to the official Vine website or contact Vine customer service directly. Details are typically provided with your product packaging or available online.

*Note: Specific warranty terms may vary and are subject to the manufacturer's policies.*

(Address) (‘**YOU**’)

**I. AGREEMENT**

1.1 This Agreement deals with the terms which Chapel Down shall offer and which YOU are prepared for accepting the Vine.

1.2 Each party will adhere to the conditions of sale in the terms of this agreement and shall be bound, where the parties have not agreed otherwise, by the provisions of the Sale of Goods Act 1979 and the Sale of Goods (Amendment) Act 1995.

1.3 The parties agree that Chapel Down shall be responsible for the provision and maintenance of the Vine and the forwarding of the grapes to the terms of this Agreement.

**2. GRANT**

2.1 Chapel Down hereby grants to you the Vine.

2.2 At the end of the Term Subscribed here to the rights to the Vine or any grapes produced from them after that time.

**3. YOUR OBLIGATIONS**

3.1 Chapel Down shall provide the following rights to the rights to be leased:

3.1.1 The right to use the Vine for the purpose of producing grapes for sale.

3.1.2 The right to deliver the grapes to the salespersons Chapel Down shall choose for their own use or for the use of others.

3.1.3 The right to use the salespersons Chapel Down shall choose for their own use or for the use of others.

3.1.4 The right to deliver the grapes on a weekly basis to any person to which Chapel Down shall be ready to send with the following conditions:

3.1.5 The right to have the variety of the grapes.

3.1.6 The right to have the variety of the grapes.

# NutraStar Bougainvillea And All Flowering Vines

**17-17-17 Promotes Healthy Growth and Bloom Production**

**WHEN TO USE**  
Use on flowering vines, including but not limited to African Violets, Begonias, Bougainvillea, Impatiens, Ipomoea, Lantana, Mimosa, Petunias, and many others. Apply to the soil and foliage of plants in pots and in the ground.

**WHEN TO USE AGAIN - SEPTEMBER**  
Apply again in September and October to keep flowers better looking, even more plants in the Spring, Summer and Fall.

**HOW TO USE**  
Apply 1/2 cup to 1 quart of water and spray thoroughly after every watering and after rain. Thoroughly after the application of any other fertilizers.

**TRANSPARENCY**  
Thoroughly test on a few plants and see if there is any damage. If there are no plants and see if there is any damage after each application.

**FEATURES**

- Contains a full spectrum of nutrients
- Contains Vitamins and a lot of water
- Contains 17-17-17
- Can be used on all flowering vines
- Promotes healthy growth and bloom production

KURSDAG I UNGDOMSSKOLEPROGRAMMET  
"ALLE HAR EN PSYKISK HELSE"  
Stavanger Forum (Schizofrenidagene)  
Tirsdag 7. november 2023

Psykisk helse i skolen inviterer til nytt kurs i ungdomsskoleopplegget "Alle har en psykisk helse"

MÅLGRUPPE  
Lærere, skoleledere, helsesstre, PP-ldgivere og andre som arbeider med elever i ungdomsskolen

Tid: Tirsdag 7. november 2023 kl. 09.00 – 15.00

Sted: Stavanger Forum (Schizofrenidagene)  
Oslostr. Wangelsgate 13, 4021 Stavanger

Ved å bruke dette programmet vil elevene være bedre i stand til å møte utfordringer når livet blir vanskelig å mestre.

Elevene vil kunne hjelpe seg selv og andre etter å ha arbeidet med stoffet i permen.  
Dette gir lyshet til å sette ord på følelser og bli tryggere på sin egen og andres psykiske helse. I tillegg får de vite hvor de skal henvende seg hvis de selv, venner eller familie sliter
