

CHIVALZ YZY6001-KC

CHIVALZ 6L Cool Mist Humidifier User Manual

Model: YZY6001-KC

1. IMPORTANT SAFETY INSTRUCTIONS

Please read and save these instructions before operating your CHIVALZ humidifier. Failure to follow these instructions may result in electric shock, fire, or serious injury.

- Always place the humidifier on a firm, flat, waterproof surface at least 16 inches (40 cm) away from walls, appliances, and furniture.
- Do not immerse the base of the humidifier in water or other liquids.
- Unplug the humidifier before filling, cleaning, or moving it.
- Do not add essential oils directly into the water tank or base chamber. Use the designated aroma diffuser tray only.
- Use only clean, cool tap water, purified water, or distilled water. Do not use hot water.
- Keep out of reach of children and pets.
- Do not block air vents.
- If the humidifier is damaged, do not operate it. Contact customer support.
- The humidifier will automatically shut off when the water level is low.

2.2 Key Features

- **6L Large Capacity:** Provides up to 50 hours of continuous humidification on the lowest setting.
- **Top-Fill Design:** Easy water refilling without removing the tank.
- **Quiet Operation:** Operates at less than 26dB, suitable for bedrooms and nurseries.
- **Aroma Diffuser:** Integrated tray for essential oils to disperse fragrance.

- **Adjustable Mist Output:** One-knob control for varying mist intensity.
- **360° Rotatable Nozzle:** Directs mist in desired directions.
- **Nightlight:** Soft blue nightlight feature, which can be turned off.
- **Automatic Shut-off:** Safety feature that activates when water level is low.

3. SETUP

3.1 Unpacking

Carefully remove all components from the packaging. Ensure all parts listed in the "Product Overview" section are present and undamaged. Retain packaging for future storage or transport.

3.2 Placement

- Place the humidifier on a flat, stable, and waterproof surface.
- Ensure it is at least 16 inches (40 cm) away from walls, furniture, and electronic appliances to prevent moisture damage.
- Position the humidifier in a central location within the room for optimal mist distribution.

3.3 Filling the Water Tank

1. Ensure the humidifier is unplugged from the power outlet.
2. Remove the water tank cover.
3. Pour clean, cool tap water, purified water, or distilled water directly into the tank opening. Do not exceed the maximum water level indicator.
4. Replace the water tank cover securely.
5. Ensure the water filter is correctly positioned and rotated clockwise to secure it in place before filling.

Figure 5: Step-by-step guide for initial setup and water filling.

Figure 6: The top-fill design simplifies water refilling.

4. OPERATION

4.1 Power On/Off and Mist Control

1. Plug the power cord into a suitable electrical outlet.
2. Rotate the control knob clockwise to turn the humidifier ON. Continue rotating to increase mist output.
3. Rotate the control knob counter-clockwise to decrease mist output.
4. Rotate the control knob fully counter-clockwise until it clicks to turn the humidifier OFF.

4.2 Nightlight Function

The humidifier features a soft blue nightlight. To turn the nightlight on or off, press the dedicated nightlight button (if available, otherwise it's integrated with the main control or automatic). Refer to the specific model's control panel for exact operation.

4.3 Aroma Diffuser

1. Locate the aroma diffuser tray, typically a small drawer or compartment on the side or back of the base.
2. Add a few drops of your preferred essential oil onto a cotton pad (not included) and place it in the tray.

3. Close the tray. The humidifier's airflow will disperse the aroma into the room.
4. **Important:** Do not add essential oils directly into the water tank or base chamber, as this can damage the unit and void the warranty.

Figure 8: Using the aroma diffuser tray for essential oils.

5. MAINTENANCE

Regular cleaning is essential to prevent mineral buildup and ensure optimal performance and hygiene. It is recommended to clean the humidifier every 2-3 weeks, or more frequently with heavy use or hard water.

5.1 Daily Maintenance

- Unplug the humidifier.
- Empty any remaining water from the tank and base.
- Refill with fresh water.

5.2 Weekly Cleaning

1. Unplug the humidifier and empty all water.
2. Remove the water tank cover and the water filter.
3. **Cleaning the Water Tank:** Rinse the water tank thoroughly with clean water. For mineral buildup, fill the tank with a mixture of equal parts white vinegar and water, let it soak for 30 minutes, then scrub with the provided cleaning brush. Rinse thoroughly until the vinegar smell is gone.
4. **Cleaning the Base:** Gently wipe the inside of the base chamber with a soft cloth dampened with white vinegar. Use the cleaning brush to clean hard-to-reach corners and the nebulizer (mist outlet). **Do not immerse the base in water.**
5. **Cleaning the Water Filter:** Rotate the filter counter-clockwise to disassemble. Rinse under running water. If heavily scaled, soak in a white vinegar solution for 15-20 minutes, then rinse.
6. Dry all parts completely before reassembling.

Figure 9: Steps for cleaning the humidifier components.

5.3 Storage

When not in use for an extended period, clean the humidifier thoroughly, dry all parts, and store it in its original packaging in a cool, dry place.

6. TROUBLESHOOTING

Problem	Possible Cause	Solution
No mist or low mist output	No water in tank Water level too low Mineral buildup on nebulizer Water filter clogged	Refill water tank Clean the nebulizer and water filter Ensure water filter is correctly installed
Unusual odor	Dirty water or tank New unit odor	Clean the water tank and base thoroughly Use fresh water Run the unit in a well-ventilated area for a few hours
Water leakage	Overfilled water tank Water added directly to base Unit not on a level surface Damaged component	Do not exceed MAX fill line Always fill water into the tank, not the base Place on a level surface Contact customer support if damage is suspected
Humidifier not turning on	Not plugged in No power at outlet Water tank empty (auto shut-off)	Check power connection Test outlet with another device Refill water tank

If the problem persists after attempting these solutions, please contact CHIVALZ customer support.

7. SPECIFICATIONS

Feature	Detail
Brand	CHIVALZ
Model Name	YZY6001-KC
