4. MAINTENANCE

To ensure the longevity and optimal performance of your OffiGo Electric Standing Desk, follow these simple maintenance guidelines:

- **Cleaning:** Wipe the desktop surfaces with a soft, damp cloth. Avoid harsh chemicals or abrasive cleaners that may damage the finish.
- **Motor Care:** Keep the motor and electrical components free from dust and moisture. Do not attempt to open or service the motor unit yourself.
- **Cable Management:** Periodically check and organize cables to prevent tangling or damage, especially when adjusting desk height.

- **Weight Limit:** Adhere to the maximum load capacity of 154 lbs to prevent damage to the desk's lifting mechanism.

5. TROUBLESHOOTING

If you encounter any issues with your OffiGo Electric Standing Desk, refer to the following common problems and solutions:

Problem	Solution
The table is uneven.	Loosen the screws and adjust the feet of the table until it is stable, then tighten the screws.
Wrong hole position.	Check if the panel is reversed.
Uneven hole position.	Rotate each screw a few turns. When all screws are threaded, go back and tighten all remaining screws.
The desktop could not be lifted.	Check if overloaded, max loading: 70kg (154 lbs). Find after sales in time.
Strange sound and shaking, incorrect assembly.	Check if all of the screws are 100% tightened.
Only one side moves up and down.	Check whether the coupling is connected to two ports at both ends and whether the black circlip is still there. If the coupling rod can be pulled out, it means that it is not installed and not fixed. Reassemble the coupling rod, and reset the desk.
Uneven legs but the desk can go up and down.	Find after sales in time. Remove the hexagonal coupling rod and rotate the coupling rod to adjust the table leg manually to the initial state.
Memory position button not work.	Find after sales in time.
Error code E10, Motor doesn't work.	Restart after switching off for 15 mins for overworking. Find after sales in time.
Overwork / Duty cycle.	Max 4 min ON / 15 min OFF.
Handset doesn't display, and power indicator light is not on.	Find after sales in time.
