Laifen SE Lite

Laifen SE Lite Hair Dryer Instruction Manual

Model: SE Lite

PRODUCT OVERVIEW

The Laifen SE Lite Hair Dryer is engineered for efficient and gentle hair drying. It features a powerful 100,000 RPM brushless motor for fast drying, a negative ion generator to reduce frizz and enhance shine, and advanced Smart Temperature Control to prevent heat damage. Its lightweight and ergonomic design makes it comfortable for extended use.

SAFETY INFORMATION

- Keep out of reach of children.
- Do not use near water.
- Keep the power plug and cord away from heated surfaces.
- Do not use while bathing.

SETUP

Attaching Nozzles

The Laifen SE Lite Hair Dryer features magnetic attachments for easy and secure nozzle changes. Simply align the desired nozzle (Smooth or Diffuser) with the front of the dryer and it will snap into place. The nozzles can be rotated 360 degrees to direct airflow as needed.

Lightweight Design, Ergonomic Feel

OPERATING INSTRUCTIONS

Power On/Off and Airflow Control

Locate the sliding switch on the handle. Slide it up to turn the dryer ON. The dryer offers 2 airflow speed settings: Low and High. Adjust the switch to select your desired speed.

Temperature Control

The dryer features a temperature button to cycle through 4 temperature settings: Cold, Warm, Hot, and Temperature Cycling Mode. The LED indicator will change color to reflect the current temperature setting (e.g., Blue for Cold, Orange for Warm, Red for Hot, and alternating colors for Temperature Cycling Mode).

A Mind-Blowing Experience

MAINTENANCE

Cleaning the Air Filter

Regular cleaning of the air filter is essential for maintaining optimal performance and extending the life of your hair dryer. To clean the filter:

1. Ensure the hair dryer is unplugged and cool.

2. Gently twist and pull off the removable filter cover located at the bottom of the handle.
3. Remove any accumulated dust or hair from the filter mesh using a soft brush or cloth.
4. Reattach the filter cover by aligning it and twisting until secure.

TROUBLESHOOTING

- **No Power:** Ensure the power cord is securely plugged into a working outlet. Check the circuit breaker.
- **Low Airflow:** Clean the air filter as described in the Maintenance section. Ensure no obstructions are blocking the air intake or outlet.
- **Overheating:** If the dryer automatically shuts off, it may be due to overheating. Unplug the unit, allow it

to cool down, and clean the air filter before resuming use.

- **Unusual Noise:** Check the air filter for any debris. If the noise persists, discontinue use and contact customer support.

SPECIFICATIONS

Feature	Specification
Product Dimensions	10.9 x 3.5 x 2.76 inches
Weight	0.76 lb (345g)
Motor Speed	Up to 100,000 RPM
Negative Ions	150 Million
Wattage	1400 watts
Power Source	Corded Electric
Material	Polycarbonate
