

Janome Memory Craft 100E Embroidery Machine Instruction Manual

Model: 001100E

1. INTRODUCTION

The Janome Memory Craft 100E is a dedicated embroidery-only machine designed to add unique and decorative touches to various projects. It features 274 built-in embroidery designs and 11 fonts, offering extensive creative possibilities. This machine is compact, easy to navigate, and capable of stitching at speeds of 400-660 stitches per minute.

Key features include time-saving on-screen editing, one-handed threading, an automatic thread cutter, and auto-return post-thread break functionality. This manual provides essential information for setting up, operating, and maintaining your Memory Craft 100E.

3. SETUP

3.1 Power Connection

Connect the power cord to the machine and a suitable power outlet. Ensure the machine is placed on a stable, flat surface.

3.2 Threading

The machine features a one-handed threading system. Open the side cover to access the threading path. Utilize the Superior Needle Threader 2 for easy needle threading.

Figure 5: The 5.5" x 5.5" embroidery hoop attached to the machine.

4. OPERATING THE MACHINE

4.1 Touchscreen Interface

The Janome Memory Craft 100E features a 3.5" Color Touchscreen for easy navigation and design selection. Use the included stylus to interact with the screen.

4.2 Design Selection and Editing

You can easily choose from 274 built-in embroidery designs and 11 embroidery fonts. The machine offers various editing functions including resize, rotate, combine, duplicate, flip, arc, group, zoom, user color choice, and single color stitching.

4.3 Embroidery Process

Once a design is selected and the hoop is attached, the machine will guide you through the embroidery process. It will indicate the recommended thread tension and allow you to preview the design. The machine also includes a basting feature for securing fabric within the hoop and an automatic thread cutter for convenience.
