3. SETUP AND ASSEMBLY

Assembly is required for this dresser. Follow the step-by-step instructions provided in the separate assembly guide included with your product. Each piece of hardware is numbered and labeled for easy identification.

Assembly Tips:

- **Pre-installed Rails:** The slide rails for the drawers are pre-installed to simplify the assembly process.
- **Tools:** An electric screwdriver (set to the lowest torque setting) can expedite assembly, but hand tools are also sufficient.
- **Heavy Lifting:** The assembled unit can be heavy (approximately 94 lbs). It is recommended to have at least two people for lifting and positioning the dresser.
- **Drawer Alignment:** If drawers appear to be sticking or uneven after assembly, ensure all rails are properly aligned. Minor adjustments can often be made using the screws on the sides of the metal drawer slides. For

wooden rails, gently sand any rough edges and apply a lubricant like candle wax for smoother operation.
