Maintenance

To ensure the longevity and optimal performance of your Dasaita 11.6" 2K Car Stereo, follow these maintenance guidelines:

- **Screen Cleaning:** Use a soft, lint-free cloth to gently wipe the screen. For stubborn smudges, slightly dampen the cloth with water or a screen-safe cleaner. Avoid harsh chemicals or abrasive materials.
- **Software Updates:** Periodically check for software updates from Dasaita to ensure you have the latest features and security patches. Follow the instructions provided with the update.
- **Cable Connections:** Ensure all cables remain securely connected. Avoid pulling on cables forcefully.
- **Environmental Conditions:** Protect the unit from extreme temperatures and direct prolonged sunlight when parked, if possible.

Troubleshooting

If you encounter issues with your Dasaita 11.6" 2K Car Stereo, refer to the following common troubleshooting steps:

No Power / Unit Not Turning On

- Check all power connections to ensure they are securely plugged in.
- Verify the vehicle's battery is properly connected and charged.
- Inspect the fuse connected to the stereo's power line. Replace if blown.

No Audio Output

- Ensure the volume is not muted or set to minimum.
- Check speaker connections and amplifier connections (if applicable).
- Verify audio settings within the stereo's menu.

CarPlay/Android Auto Not Connecting

- Ensure Bluetooth is enabled on both your smartphone and the car stereo.
- Forget the device from your phone's Bluetooth settings and re-pair.
- Restart both your smartphone and the car stereo.
- Confirm your phone's operating system is up to date.

Backup Camera Not Displaying

- Check the camera input cable connection at the back of the stereo.
- Ensure the camera itself is properly powered and functioning.
- Verify the reverse trigger wire is correctly connected.
