2. SETUP INSTRUCTIONS

2.1 Charging the Keyboard

Before first use, fully charge the keyboard using the provided USB-C cable. Connect the cable to the keyboard's charging port and a power source. The charging indicator light will show the charging status.

2.2 Bluetooth Pairing

The keyboard supports connecting up to three devices simultaneously via Bluetooth 5.3. Follow these steps to pair your devices:

1. Turn on the keyboard using the power switch.

2. Press and hold the **Fn** key along with one of the Bluetooth channel keys (**1**, **2**, or **3**) for 3-5 seconds until the corresponding Bluetooth indicator light flashes rapidly. This indicates the keyboard is in pairing mode.

3. On your device (tablet, computer, phone), go to Bluetooth settings and search for available devices.

4. Select "KB01105" from the list of found devices to complete the pairing.

5. Repeat for up to two additional devices using the other Bluetooth channel keys.

2.3 iPad OS Specific Setup

For optimal performance with iPad OS, adjust the keyboard settings:

1. Go to **Settings** > **Bluetooth** and ensure "KB01105" is connected.

2. Navigate to **General** > **Keyboard** > **Hardware Keyboard**.

3. Under Hardware Keyboard Language, select "British-PC" for correct key mapping.

3. OPERATING INSTRUCTIONS

3.1 Switching Between Devices

To switch between connected devices, simply press **Fn + 1**, **Fn + 2**, or **Fn + 3**, corresponding to the channel your device is paired to.

3.2 Touchpad Functionality

The integrated touchpad offers precise control and supports multi-touch gestures. It also features palm rejection to prevent accidental inputs during typing.

4. MAINTENANCE

4.1 Cleaning

To clean the keyboard, gently wipe the surface with a soft, damp cloth. Avoid using harsh chemicals or

abrasive materials that could damage the finish or keys. Ensure the keyboard is powered off before cleaning.

4.2 Battery Care

The keyboard features a built-in Lithium-ion battery. For optimal battery life:

- Charge the keyboard regularly, especially if it has not been used for an extended period.
- Avoid exposing the keyboard to extreme temperatures.
- A full charge provides up to 150 days of standby time.

Image: Illustrates the durable design of the keyboard keys, built for over 5 million keystrokes.

5. TROUBLESHOOTING

- **Keyboard not connecting:** Ensure the keyboard is charged and powered on. Verify Bluetooth is enabled on your device and the keyboard is in pairing mode (rapidly flashing indicator). Try re-pairing the device.
- **Keys not responding:** Check if the keyboard is connected to the correct device channel. Ensure the battery is not depleted.
- **Touchpad not working:** Confirm the keyboard is connected. Some operating systems may require specific settings for touchpad functionality (refer to section 3.3).
- **Keyboard unexpectedly turns off:** This could indicate a low battery. Ensure the keyboard is fully charged. If the issue persists after charging, contact customer support.
- **Lag or delayed input:** Ensure the keyboard is within the 10-meter Bluetooth range of your device. Minimize interference from other wireless devices.
