## AWESAFE B0FKBCTX1N

# AWESAFE 9-inch Android 13 Car Radio User Manual

Model: B0FKBCTX1N | Compatible with Fiat Ducato (2006-2013)

### INTRODUCTION

---

This AWESAFE car radio features a 9-inch touchscreen display, 2GB RAM, 32GB internal storage, and runs on Android 13, providing a smooth and high-quality audio experience. It is specifically designed for Fiat Ducato models manufactured between 2006 and 2013. This manual provides essential information for installation, operation, and troubleshooting to ensure optimal performance of your device.

### SETUP AND INSTALLATION

---

Before installation, ensure compatibility by comparing your vehicle's dashboard with the provided images. If you have any doubts, please provide a photo of your car's dashboard for verification.

### Package Contents

The package includes the main head unit, power cable connector, RCA cables with 4G SIM support, rear camera connector, radio adapter, USB cable (4pin/6pin), external microphone, CanBus module, and GPS antenna.

# Accessori

Connettore per cavo

RCA con 4G SIM

Connettore per fotocamera posteriore

Adattatore Radio

Cavo USB (4pin/6pin)

Microfono esterno

CanBus

Antenna GPS

Image: All accessories included with the AWESAFE car radio, such as cables, adapters, microphone, and GPS antenna.

## Installation Overview

The installation process involves removing the original car radio and integrating the new AWESAFE unit. Proper connection of the CanBus module (white 8-pin connector) is crucial for enabling steering wheel controls without manual configuration.

## OPERATING INSTRUCTIONS

### Bluetooth Connectivity

The car radio supports Bluetooth 5.0, allowing for fast and convenient connection with iOS and Android smartphones. Once connected, you can use hands-free calling, stream Bluetooth music, and synchronize your mobile phone contacts.

Image: Screenshots of the car radio's Bluetooth interface, showing a phone dial pad for calls and a music player for audio streaming.

## Wireless CarPlay and Android Auto

This car audio system supports both wireless and wired CarPlay and Android Auto functions. Note that the Bluetooth channel is unique; if you are using CarPlay or Android Auto, the direct Bluetooth function will not be available. This is normal operation and does not indicate a disconnection issue with other devices.

# CarPlay & Android Auto

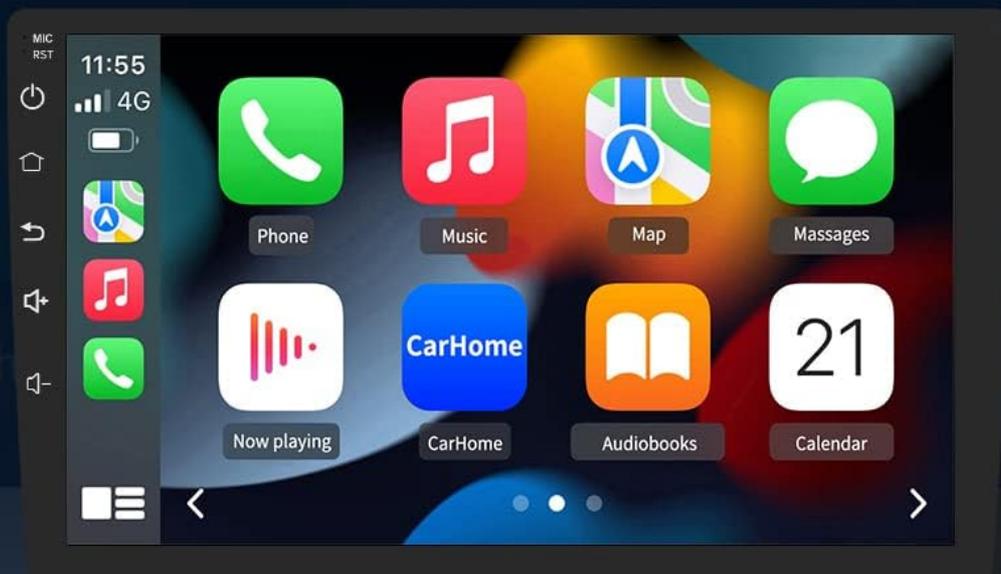

Image: The car radio display showing the main interface with various app icons, and separate views demonstrating CarPlay (left) and Android Auto (right) mirroring a smartphone screen.

## GPS Navigation and Radio

After connecting the car radio to a network, you can use online navigation applications directly on the device. Alternatively, by connecting via CarPlay or Android Auto, you can utilize your phone's online navigation applications. The device also supports FM and RDS radio stations. FM radio does not display station names, but RDS radio can display them.

## GPS

## WiFi

Image: The car radio display showing a GPS navigation map with route information and a separate section displaying various app icons, indicating WiFi connectivity.

## Steering Wheel Controls

With the CanBus correctly connected, your vehicle's steering wheel controls will function normally without requiring manual configuration. This allows for convenient control of volume, track changes, and other functions directly from your steering wheel.

Image: The car radio display showing a customizable interface for mapping steering wheel buttons to various functions like power, home, volume, navigation, and media controls.

## MAINTENANCE

To ensure the longevity and optimal performance of your AWESAFE car radio, keep the screen clean using a soft, dry cloth. Avoid using harsh chemicals or abrasive materials. Ensure all connections are secure and free from moisture. Regular software updates, if available, should be installed to maintain system stability and access new features.

## TROUBLESHOOTING

### Device Not Powering On

If the device does not power on after a period of operation, try disconnecting the negative terminal of your car's battery. Reconnect the battery after a few minutes and restart the car to ensure the device functions correctly.

### Incompatible Frame

If you encounter an incompatible frame after following the installation instructions, please send a photo of your car's dashboard to customer support. We will assist you in finding a compatible frame.

## SPECIFICATIONS

---

- **Brand:** AWESAFE
- **Model:** B0FKBCTX1N
- **Compatible Vehicles:** Fiat Ducato (2006-2013)
- **Operating System:** Android 13
