GDSAFS Storm Industries Jet Blower 2.0 for Milwaukee: User Manual

Model: blower25072902-01

1. INTRODUCTION

Thank you for purchasing the GDSAFS Storm Industries Jet Blower 2.0. This powerful, cordless, handheld blower is designed for a variety of tasks, including car drying, leaf removal, and general cleaning. It is compatible with Milwaukee 18V-21V batteries (not included). Please read this manual thoroughly before operation to ensure safe and efficient use of your device.

2. SAFETY INSTRUCTIONS

WARNING: Read all safety warnings and instructions. Failure to follow the warnings and instructions may result in electric shock, fire, and/or serious injury.

- **Work Area Safety:** Keep the work area clean and well-lit. Cluttered or dark areas invite accidents. Do not operate power tools in explosive atmospheres, such as in the presence of flammable liquids, gases, or dust.
- **Electrical Safety:** This appliance is battery-operated. Ensure the battery pack is fully charged before use. Do not expose power tools to rain or wet conditions. Water entering a power tool will increase the risk of electric shock.
- **Personal Safety:** Always wear eye protection. Use hearing protection when operating the blower for extended periods. Dress properly. Do not wear loose clothing or jewelry. Keep hair and clothing away from moving parts.
- **Tool Use and Care:** Do not force the power tool. Use the correct power tool for your application. Disconnect the battery pack from the power tool before making any adjustments, changing accessories, or storing power tools. Store idle power tools out of the reach of children and do not allow persons unfamiliar with the power tool or these instructions to operate the power tool.
- **Battery Pack Use and Care:** Recharge only with the charger specified by the manufacturer. Use power

tools only with specifically designated battery packs.

- **Service:** Have your power tool serviced by a qualified repair person using only identical replacement parts. This will ensure that the safety of the power tool is maintained.

3. PACKAGE CONTENTS

Verify that all items are present and in good condition upon unpacking:

- 1 x Storm Industries Jet Blower 2.0 Unit
- 1 x Nozzle Attachment
- User Manual

Note: Batteries and charger are not included and must be purchased separately. This unit is compatible with Milwaukee 18V-21V (4Ah or more) batteries.

4. PRODUCT OVERVIEW

The Storm Industries Jet Blower 2.0 is a compact and powerful handheld device. Familiarize yourself with its components before operation.

Image 4.1: The Storm Industries Jet Blower 2.0, shown with a compatible Milwaukee battery, along with accessories like gloves and microfiber towels, illustrating its primary use for car drying and general cleaning.

Key Components:

- **Blower Unit:** Main body housing the motor and fan.
- **Trigger/Speed Control:** Activates the blower and allows for variable speed adjustment.
- **Battery Port:** Receptacle for compatible Milwaukee batteries.
- **Nozzle:** Directs the airflow.

Upgraded motor: up to 130,000 RPM

Image 4.2: A detailed view of the blower's internal motor, highlighting its capability of reaching up to 130,000 RPM for powerful airflow.

5. SETUP

Follow these steps to prepare your jet blower for use:

1. **Attach Nozzle:** Align the nozzle with the air outlet on the front of the blower unit. Push firmly until it clicks into place. Ensure it is securely attached.
2. **Insert Battery:** Ensure the battery is fully charged. Align the battery pack with the battery port on the base of the blower. Slide the battery into the port until it locks securely. Do not force the battery.
3. **Remove Battery:** To remove the battery, press the release button on the battery pack and slide it out of the port.

6. OPERATING INSTRUCTIONS

The Storm Industries Jet Blower 2.0 offers versatile functionality for various cleaning and drying tasks.

General Operation:

1. **Starting the Blower:** Press and hold the trigger to activate the blower.
2. **Adjusting Speed:** The blower features a stepless speed change. Increase or decrease pressure on the trigger to adjust the airflow speed.
3. **Stopping the Blower:** Release the trigger to turn off the blower.

Applications:

Image 6.1: Illustrates the multi-purpose capabilities of the jet blower across various scenarios, from indoor cleaning to outdoor tasks.

- **Car Drying:** Use the blower to quickly remove water droplets from vehicle surfaces after washing. This helps prevent water spots and rust formation, especially in crevices. Maintain a safe distance to avoid direct contact with the paint.

CAR DRYING

BEFORE
★ ★ ★ ★ ★

- ✗ Cause **micro-scratches** on the paint surface
- ✗ Leaves water trapped in crevices, increasing **rust risk**
- ✗ Takes a **long time** and requires frequent changes
- ✗ Raking causes **back pain** and **strain**

VS

AFTER
★ ★ ★ ★ ★

- ✓ Blasts water away without touching the surface, preventing scratches
- ✓ Removes water from all crevices, **preventing rust formation**
- ✓ Dries the car in minutes, **saving time and effort**
- ✓ **Easy, pain-free cleanup**

Image 6.2: Demonstrates the effectiveness of the blower for car drying, highlighting its ability to prevent scratches and rust compared to conventional methods.

- **Yard Cleanup:** Efficiently clear leaves, grass clippings, and light debris from lawns, patios, and driveways. The powerful airflow can move debris without physical contact, preserving lawn health.

Image 6.3: Compares traditional leaf raking with the blower method, emphasizing the blower's efficiency and gentleness on the lawn.

- **Dust Removal:** Use for cleaning dust from electronics, vents, and workshop areas.
- **Inflation:** Can be used for inflating pools, air mattresses, or sports gear.
- **Campfire Ignition:** Provides a quick burst of air to help ignite campfires.

7. MAINTENANCE

Regular maintenance ensures optimal performance and extends the lifespan of your blower.

- **Cleaning:** After each use, disconnect the battery and wipe down the exterior of the blower with a clean, damp cloth. Do not use harsh chemicals or abrasive cleaners. Ensure the air intake and outlet are free from debris.
- **Storage:** Store the blower in a dry, secure location, out of reach of children. Remove the battery pack before storing for extended periods.
- **Battery Care:** Store batteries in a cool, dry place. Do not store batteries in a discharged state.

8. TROUBLESHOOTING

If you encounter issues with your Storm Industries Jet Blower 2.0, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Blower does not start or stops unexpectedly.	Battery not inserted correctly, battery discharged, or battery overheating.	Ensure battery is fully charged and securely inserted. Allow the battery and blower to cool down if overheating is suspected.
Reduced airflow.	Nozzle partially blocked, air intake blocked, or low battery charge.	Check and clear any obstructions from the nozzle and air intake. Recharge the battery.
Excessive vibration or unusual noise.	Loose components or internal obstruction.	Stop operation immediately. Disconnect the battery. Inspect for loose parts or foreign objects. If the issue persists, contact customer support.

If the problem persists after attempting these solutions, please contact GDSAFS customer support for further assistance.

9. SPECIFICATIONS
