## 1. INTRODUCTION

---

Thank you for choosing the Garvee PTC909A Portable Electric Space Heater. This 2-in-1 ceramic heater and fan is designed to provide efficient and quiet heating or cooling for various personal spaces. Please read this manual thoroughly before use to ensure safe and optimal performance.

### Key Features:

- **Dual Heating & Energy Saving:** Offers powerful 1500W for rapid heating and an energy-efficient 750W setting for consistent warmth. The manual thermostat helps maintain your desired comfort level.
- **Comprehensive Safety Assurance:** Equipped with multiple safety features including an automatic tip-over switch, overheat protection, a built-in safety fuse, and flame-retardant ABS plastic construction.
- **Compact & Highly Portable:** Lightweight at approximately 2.2 lbs (1kg) with a compact design and integrated carry handle, making it easy to move between rooms.
- **Quiet Operation & Fast Heating:** Utilizes advanced ceramic heating technology for quick warmth, operating at a low noise level of less than 45 dB, suitable for quiet environments.
- **Year-Round Versatile Use:** Functions as both a heater for cold months and a fan-only mode for circulating cool air during warmer seasons.

## 2. IMPORTANT SAFETY INFORMATION

---

**WARNING: To reduce the risk of fire, electric shock, or injury, please observe the following:**

- Always plug heaters directly into a wall outlet. Never use with an extension cord or relocatable power tap.
- Do not use this heater in wet or moist locations.
- Do not use this heater in bathrooms, laundry areas, or similar indoor locations.
- Always place the heater on a firm, level surface.
- Keep combustible materials such as furniture, pillows, bedding, papers, clothes, and curtains at least 3 feet (0.9 meters) from the front of the heater and keep them away from the sides and rear.
- Do not operate any heater with a damaged cord or plug, or after the heater malfunctions, has been dropped or damaged in any manner.
- Do not insert or allow foreign objects to enter any ventilation or exhaust opening as this may cause an electric shock or fire, or damage the heater.
- To prevent a possible fire, do not block air intakes or exhaust in any manner. Do not use on soft surfaces, like a bed, where openings may become blocked.
- This heater is hot when in use. To avoid burns, do not let bare skin touch hot surfaces.
- **Tip-Over Protection:** The heater is equipped with an automatic tip-over switch that will turn the unit off if it is accidentally knocked over.
- **Overheat Protection:** The heater will automatically shut off if it overheats. Unplug the unit and allow it to cool down before restarting.

### 3. SETUP

---

1. **Unpack the Heater:** Carefully remove the heater from its packaging. Ensure all packing materials are removed.
2. **Placement:** Place the heater on a stable, flat, and heat-resistant surface. Ensure there is at least 3 feet (0.9 meters) of clear space around the heater from any combustible materials.
3. **Power Connection:** Plug the heater directly into a 120V~60Hz wall outlet. Do not use extension cords or power strips.

## 4. OPERATING INSTRUCTIONS

---

The Garvee PTC909A heater features two control knobs on the top for power/mode selection and thermostat adjustment.

### 4.1 Power/Mode Selection Knob (Left Knob)

This knob controls the power and operating mode of the heater. Rotate the knob to select your desired setting:

- **OFF (0):** Turns the heater off.
- **FAN ONLY (Fan Icon):** Activates the fan without heat, circulating cool air.
- **LOW HEAT (I - 750W):** Provides a gentle heat output of 750 watts.

- **HIGH HEAT (II - 1500W):** Provides powerful heat output of 1500 watts for rapid warming.

## Heater with Multiple Modes

Cool Air for Summer

Winter Warmth, Two Ways

Warm **750 W** (Gentle)

Warm **1500 W** (Powerful)

Figure 2: Illustration of the heater's multiple modes, including cool air, 750W warm, and 1500W warm settings.

### 4.2 Thermostat Control Knob (Right Knob)

This knob allows you to adjust the desired room temperature. Once the room reaches the set temperature, the heater will automatically turn off. It will turn back on when the temperature drops below your setting.

- Rotate clockwise for higher temperature settings.
- Rotate counter-clockwise for lower temperature settings.

### 4.3 Using the Heater

1. Plug the heater into a suitable electrical outlet.
2. Turn the Power/Mode Selection knob to your desired heat setting (LOW or HIGH) or to FAN ONLY.
3. Adjust the Thermostat Control Knob to your preferred temperature.
4. The power indicator light will illuminate when the heater is operating.
5. To turn off the heater, rotate the Power/Mode Selection knob to the "OFF" (0) position.

## 5. MAINTENANCE

---

Regular maintenance helps ensure the longevity and efficient operation of your heater.

- **Cleaning:** Always unplug the heater and allow it to cool completely before cleaning. Use a soft, damp cloth to wipe the exterior surfaces. Do not use abrasive cleaners or solvents.
- **Storage:** When not in use, store the heater in a cool, dry place. It is recommended to store it in its original packaging to protect it from dust and damage.
- **No User-Serviceable Parts:** Do not attempt to open or repair the heater yourself. Refer all servicing to qualified service personnel.

## 6. TROUBLESHOOTING

Problem	Possible Cause	Solution
Heater does not turn on.	Not plugged in securely. Power/Mode knob is in OFF position. Tip-over switch activated. Overheat protection activated.	Ensure the plug is fully inserted into a working outlet. Rotate the Power/Mode knob to a heat or fan setting. Place the heater on a flat, stable surface. Unplug the heater, wait 10-15 minutes for it to cool, then plug it back in.
Heater turns off unexpectedly.	Tip-over switch activated. Overheat protection activated. Thermostat reached set temperature.	Ensure the heater is on a stable surface. Unplug the heater, wait 10-15 minutes for it to cool, then plug it back in. Adjust the thermostat to a higher setting if more heat is desired.
Reduced heat output.	Heater is on LOW heat setting. Thermostat set too low.	Switch to HIGH heat setting. Adjust the thermostat to a higher setting.

## 7. SPECIFICATIONS

Feature	Detail
Brand	Garvee
Model Number	PTC909A
Power Settings	750W (Low), 1500W (High)
Operating Modes	OFF, Fan Only, Low Heat, High Heat
Special Features	Adjustable Temperature, Child Lock, Flame Resistant, Overheat Protection, Tip-Over Protection
Color	BLACK BRIGHT
Form Factor	Compact and Portable
Power Source	AC
Heating Method	Electric, Ceramic
Mounting Type	Tabletop Mount

Feature	Detail
Item Dimensions (D x W x H)	5.5"D x 9"W x 7"H
Included Components	Space Heater, User Manual
