5. Setup

5.1 Initial Charging

Before first use, fully charge the device. Connect the provided USB Type-C cable to the charging port on the device and a compatible USB power source. The LCD screen will display the battery life. A full charge takes approximately 3.5 hours.

5.2 Cleaning Before First Use

Remove the TPE sleeve from the main unit. Wash the sleeve with warm water and mild soap. Rinse thoroughly and allow it to air dry completely before reinserting. Do not wash the main unit with water; wipe it with a damp cloth if necessary.

5.3 Attaching Accessories

- **Phone Holder:** Securely attach the phone holder to the designated slot on the device. Adjust the angle as needed.
- **Suction Base:** Attach the suction base to the bottom of the device. Ensure the surface is smooth and clean before pressing the suction base firmly and engaging the lock mechanism for stable, hands-free use.

6. Operating Instructions

6.1 Power On/Off

Press and hold the Power Button (usually marked with a circle and vertical line) for 3 seconds to turn the device on or off. The LCD screen will illuminate.

6.2 Adjusting Modes

The device features 7 thrusting and rotating modes. Tap the Thrusting & Rotating Button (usually marked with a plus/minus sign) to cycle through the different modes. The LCD screen will display the current mode setting.

7. Maintenance & Cleaning

7.1 Cleaning the TPE Sleeve

The TPE sleeve is removable for easy cleaning. Gently pull the sleeve out from the main unit. Wash it with warm water and a mild, toy-safe soap. Rinse thoroughly to remove all soap residue. Allow the sleeve to air dry completely before reinserting it into the main unit.

7.2 Cleaning the Main Unit

The main unit is not waterproof. Do not immerse it in water. Wipe the exterior of the main unit with a soft, damp cloth. Avoid using harsh chemicals or abrasive cleaners.

7.3 Storage

Store the device in a clean, dry place, away from direct sunlight and extreme temperatures. Ensure the TPE sleeve is completely dry before storage to prevent mildew or damage. Keep the device in its original discreet packaging for protection.

8. Troubleshooting

- **Device not turning on:** Ensure the device is fully charged. Connect it to the charger and try again.
- **Modes not changing:** Check if the device is powered on. Ensure the buttons are pressed firmly. If using APP control, verify Bluetooth connection.
- **Weak performance:** The battery might be low. Recharge the device.
- **APP connectivity issues:** Ensure Bluetooth is enabled on your smartphone and the device is within range. Restart the APP and the device if necessary.
- **Sleeve feels sticky or damaged:** Ensure only water-based lubricants are used. Clean the sleeve thoroughly after each use and store it properly.

If issues persist, please contact customer support.
