Proper care and maintenance will extend the life and appearance of your Feonase bed frame.

- **Cleaning the Upholstery:** For general cleaning, gently vacuum the upholstered surfaces to remove dust and debris. For spills, blot immediately with a clean, dry cloth. For stubborn stains, use a mild fabric cleaner specifically designed for upholstery, testing on an inconspicuous area first. Do not saturate the fabric.
- **Cleaning the Frame:** Wipe down the wooden and metal components with a soft, damp cloth. Avoid harsh chemicals or abrasive cleaners.
- **Checking Connections:** Periodically check all bolts and screws to ensure they remain tight. Retighten if necessary to maintain stability and prevent noise.
- **Underbed Area:** The 8-inch underbed clearance allows for easy cleaning underneath the bed, including robot vacuum access.
