Bellemave FST00216-F-BE1

Bellemave Full Loft Bed with Stairs, Shelves, Drawers, and LED - Instruction Manual

Model: FST00216-F-BE1

IMPORTANT SAFETY INFORMATION

Please read and understand all instructions before beginning assembly and use. Failure to follow these instructions may result in serious injury.

- Always use the guardrails when using the top bunk.
- Do not exceed the maximum weight recommendation of 220 pounds for the bed.
- Follow the assembly instructions carefully to prevent instability or collapse.
- Be cautious when using the stairs to avoid falls.
- Ensure all connections are tight before use and check periodically.
- Keep small parts away from children during assembly.

PRODUCT OVERVIEW

The Bellemave Full Loft Bed is designed to maximize space with integrated features. This model includes a full-size sleeping area, a staircase with built-in storage, two chest of drawers, a wardrobe section, an integrated desk, and an LED light strip.

SIZE: INCH

Detailed diagram showing the dimensions of the Bellemave Full Loft Bed: 78.9 inches (L) x 74.7 inches (W) x 68 inches (H).

SETUP INSTRUCTIONS

Assembly is required for this product. It is recommended to have at least two adults for assembly. Ensure all parts are present before starting. A detailed step-by-step guide is provided in the packaging.

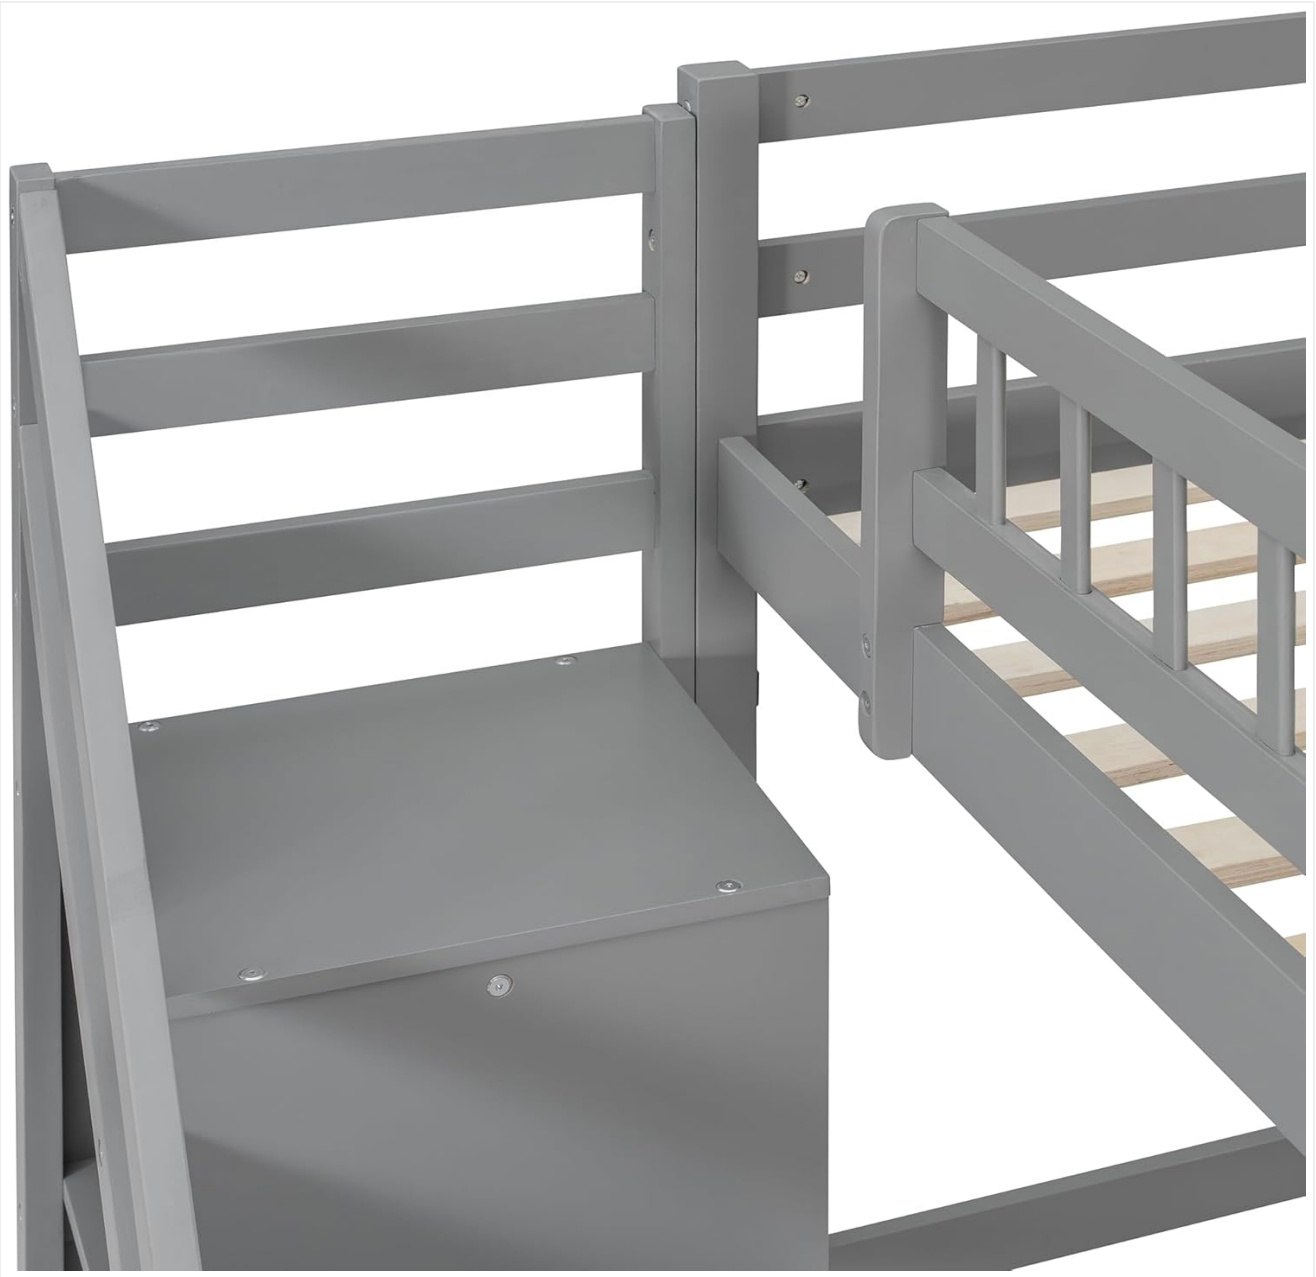

Required Tools (Not Included):

- Phillips head screwdriver
- Hammer
- Allen wrench (often included with hardware)

Assembly Steps Overview:

1. **Unpack and Identify Parts:** Carefully unpack all components and verify against the parts list in your included manual. Separate hardware by type.
2. **Assemble the Main Bed Frame:** Connect the long and short side rails to the headboard and footboard using the provided hardware. Ensure all connections are secure.
3. **Attach the Staircase:** Securely attach the independent staircase unit to the main bed frame. This unit includes integrated shelves and a wardrobe section.
4. **Install the Top Bunk Slats:** Place and secure the wooden slats onto the bed frame to support the mattress.
5. **Install Guardrails:** Attach the guardrails to the top bunk for safety.
6. **Assemble and Install Integrated Desk:** Assemble the desk components and attach them to the bed frame.

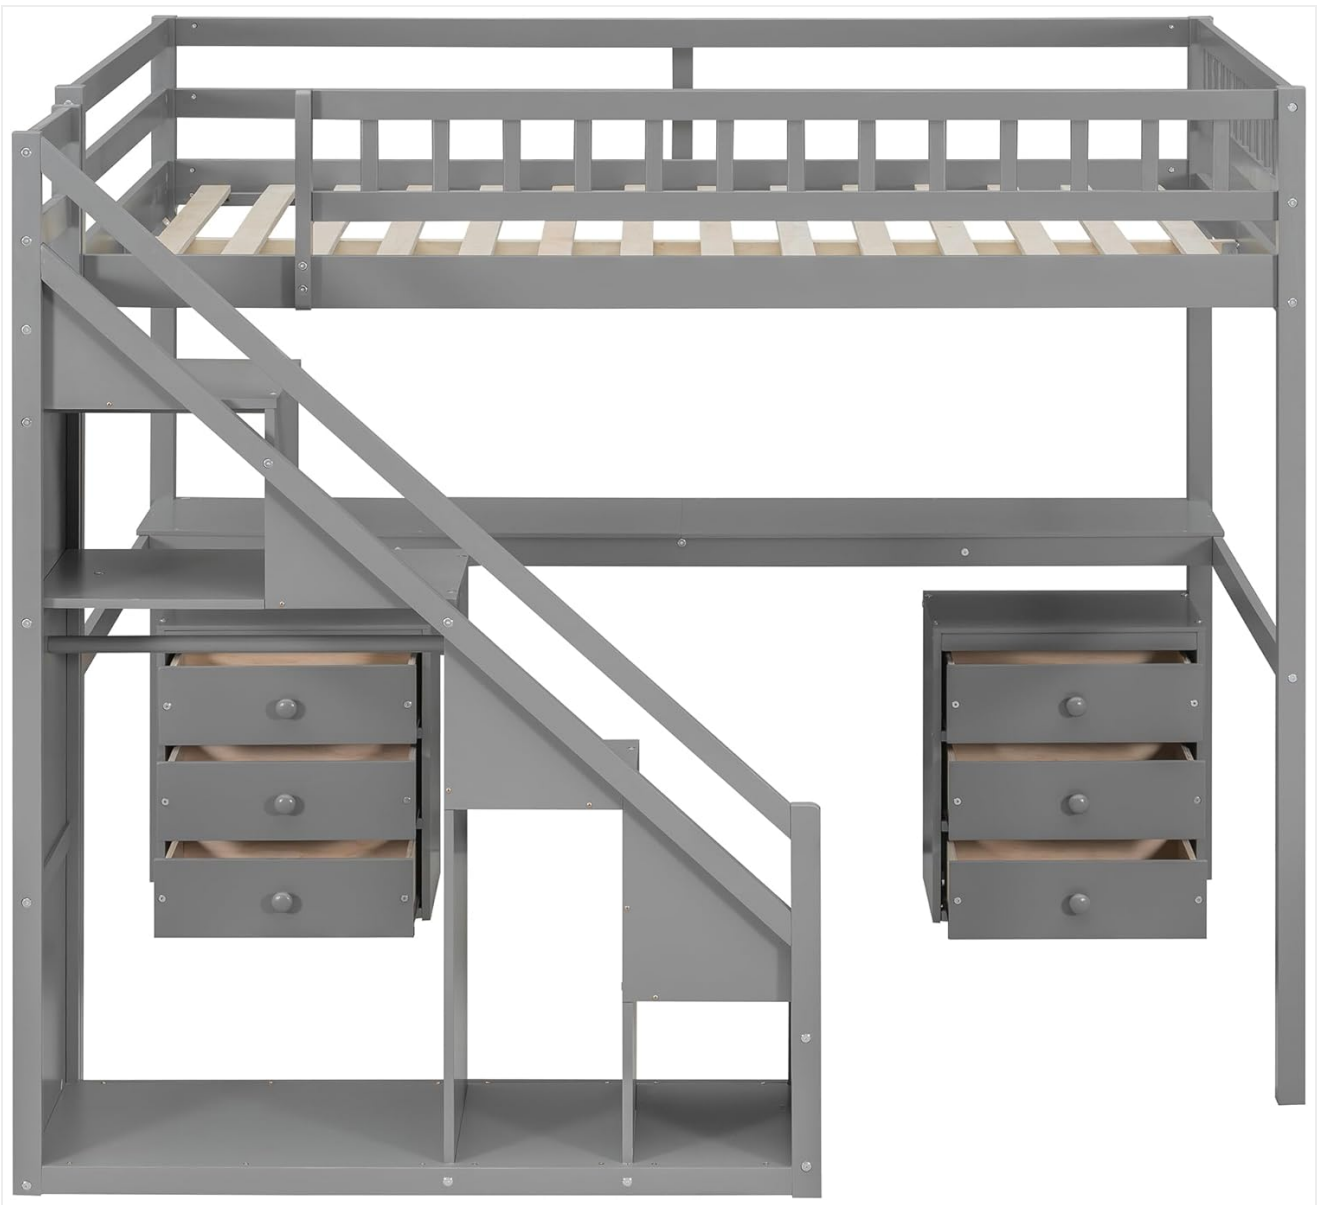

7. **Assemble and Install Storage Drawers:** Assemble the two chest of drawers and slide them into their designated positions beneath the desk.
8. **Secure LED Light Strip:** Attach the LED light strip beneath the bed frame as per the specific instructions for the lighting unit.
9. **Final Inspection:** Double-check all screws, bolts, and connections to ensure they are tight and secure.

OPERATING INSTRUCTIONS

Using the Loft Bed:

- **Accessing the Top Bunk:** Use the integrated staircase for safe and easy access to the top bunk. Always face the stairs when ascending or descending.
- **Guardrails:** Ensure guardrails are properly installed and maintained on the top bunk to prevent falls.
- **Weight Limit:** Do not exceed the maximum weight capacity of 220 lbs for the top bunk.

Utilizing Storage and Desk:

- **Staircase Storage:** The staircase features open shelves and a wardrobe section. Use these for clothes, books, or decorative items.
- **Chest of Drawers:** The two independent chest of drawers provide additional storage for personal belongings. Ensure drawers slide smoothly and are not overloaded.
- **Integrated Desk:** Use the desk for studying, working, or creative activities. Keep the area clear for optimal use.

LED Light Operation:

- The built-in LED light strip offers seven color options. Refer to the separate LED light controller instructions for specific operation details, including power on/off, color selection, and brightness adjustment.

MAINTENANCE

Regular maintenance ensures the longevity and safety of your Bellemave Loft Bed.

- **Cleaning:** Wipe surfaces with a soft, damp cloth. Avoid harsh chemicals or abrasive cleaners that may damage the finish.
- **Hardware Check:** Periodically check all screws, bolts, and connections to ensure they remain tight. Retighten as necessary to maintain structural integrity.
- **Wood Care:** Protect the wood from excessive moisture and direct sunlight to prevent warping or fading.
- **LED Lights:** If the LED lights malfunction, check the power connection and consult the LED light strip's specific troubleshooting guide.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Bed feels wobbly or unstable.	Loose hardware connections.	Check and tighten all screws, bolts, and fasteners. Ensure the bed is on a level surface.
Drawers do not slide smoothly.	Misaligned drawer slides or obstructions.	Ensure drawers are correctly assembled and aligned with the slides. Check for any objects blocking the tracks.
LED lights are not working.	Power connection issue or faulty LED strip/controller.	Verify the power adapter is securely plugged in. Check the LED controller for power. If issues persist, consult the LED light strip's manual or contact support.
Squeaking noises from the bed.	Loose connections or friction between wood parts.	Retighten all hardware. Apply a small amount of wax or lubricant to contact points between wood components if necessary.
