Maintenance

Regular cleaning of your diffuser is essential to ensure optimal performance and longevity.

Cleaning Instructions

1. Unplug the diffuser from the power outlet and remove the top cover.
2. Empty any remaining water from the tank, ensuring to pour away from the air outlet side.
3. Wipe the inside of the water tank with a soft cloth or sponge.
4. For stubborn residue, add a small amount of white vinegar (about 1 tablespoon) to the tank and let it sit for 10-15 minutes.
5. Gently clean the ultrasonic disc (the small ceramic disc at the bottom of the tank) with a cotton swab dipped in vinegar or rubbing alcohol. Do not scrub or use abrasive materials.
6. Rinse the tank thoroughly with clean water.
7. Wipe the exterior of the diffuser with a soft, dry cloth.
8. Allow all parts to air dry completely before reassembling or storing.

Note: Clean the diffuser after every 5-6 uses or every 3-5 days, especially when changing essential oils, to prevent oil buildup and ensure efficient misting.

Essential Oils Collection

Your ASAKUKI Oil Diffuser Set includes six unique essential oil blends, crafted to create a bold and refined atmosphere. These oils are made from high-quality plant extracts, free from synthetic fragrances, parabens, and are not tested on animals.

Safety Precautions

- Do not place the diffuser on uneven surfaces.
- Do not move the diffuser while it is operating or contains water.
- Do not touch the ultrasonic vibrating disc directly with your hands.
- Keep out of reach of children and pets.
- Use only the provided power adapter.
- Do not immerse the entire unit in water or other liquids.
- If the diffuser is not used for a long period, unplug it and empty the water tank.
- Ensure the top cover is securely in place before operating.
- Do not use corrosive detergents to clean the diffuser.
- Only use 100% pure essential oils. Avoid synthetic fragrances or oils with harsh additives.

Troubleshooting

Problem	Possible Cause	Solution
No mist or low mist output	• Insufficient water in tank. • Water level exceeds MAX line. • Ultrasonic disc dirty or scaled. • Air outlet blocked.	• Add water to the tank (below MAX line). • Pour out excess water. • Clean the ultrasonic disc as per maintenance instructions. • Ensure air outlet is clear.
Diffuser not turning on	• Power adapter not connected properly. • No power from outlet. • Water level too low (auto shut-off activated).	• Check power connections. • Test outlet with another device. • Add water to the tank.
Strong plastic smell	New unit, common initial smell.	Run the diffuser with water only for a few cycles. The smell should dissipate over time.
Light not working	Light function not activated or malfunction.	Press the "LIGHT" button on the diffuser or remote. If still not working, contact customer support.
