Swann SWDVK-446854MQB

Swann 4 Channel 1080p HD Security System User Manual

Model: SWDVK-446854MQB

INTRODUCTION

This manual provides essential instructions for the setup, operation, maintenance, and troubleshooting of your Swann 4 Channel 1080p HD Security System. This system is designed to provide 24/7 surveillance with crystal-clear 1080p Full HD video, audio recording, and advanced detection features for comprehensive property protection.

WHAT'S IN THE Box

Carefully unpack the contents and ensure all items listed below are present:

- 1 x 4 Channel DVR with 64GB Micro SD Card
- 4 x 1080p Audio/Video Bullet Cameras (PRO-1080MQB)
- 4 x Extension Cables (60ft/18m)
- 1 x Ethernet Cable
- 1 x HDMI Cable
- 1 x Power Adapter & Splitter
- 1 x Mouse
- Mounting Screws & Plugs
- Quick Start Guide
- Theft Deterrent Sticker

True Detect™ / PIR Heat-Sensing Detection

App Push

Email Alert

SETUP INSTRUCTIONS

- 1. Unpack and Inspect:** Remove all components from the packaging and inspect for any damage.
- 2. Connect Cameras to DVR:** Use the provided extension cables to connect each camera to the corresponding video input ports on the back of the DVR. Ensure connections are secure.
- 3. Connect DVR to Monitor:** Connect the DVR to a monitor using the supplied HDMI cable.
- 4. Connect Mouse:** Plug the USB mouse into a USB port on the DVR.
- 5. Connect to Network (Optional):** For remote viewing, connect the DVR to your router using the Ethernet cable.

6. **Power On:** Connect the power adapter to the DVR and then to a power outlet. The system will power on automatically.
7. **Initial Setup Wizard:** Follow the on-screen instructions to complete the initial setup, including setting up a password and configuring basic settings.
8. **Swann Security App Setup:** Download the free Swann Security app on your iOS or Android device. Follow the in-app instructions to pair your DVR for remote access and control.

OPERATING INSTRUCTIONS

Viewing Live Footage

Once the system is set up, you can view live camera feeds directly on your connected monitor or remotely via the Swann Security app. Use the mouse to navigate the DVR interface for various viewing options.

Motion Detection and Alerts

The system utilizes Swann's True Detect™ PIR Heat-Sensing Detection technology to accurately detect heat and motion, minimizing false alarms. When motion is detected, the system can trigger recording and send push notifications or email alerts to your connected devices via the Swann Security app.

Recording and Storage

The DVR includes a pre-installed 64GB Micro SD Card for recording. Storage can be expanded up to 8TB for extended recording periods. Manage recording settings and review footage through the DVR interface or the Swann Security app.

MAINTENANCE

Regular maintenance ensures optimal performance and longevity of your security system:

- **Camera Cleaning:** Periodically clean camera lenses with a soft, damp cloth to remove dust and dirt that

may obstruct the view. Avoid abrasive cleaners.

- **Check Connections:** Ensure all cables (power, video, network) are securely connected to prevent signal loss.
- **Firmware Updates:** Check the Swann Security app or Swann website for available firmware updates for your DVR and cameras. Keeping firmware updated ensures the latest features and security patches.
- **Weather Protection:** The cameras are IP66 weatherproof, designed to withstand various weather conditions. However, ensure they are mounted securely to prevent damage from strong winds or impacts.

IP66 Weatherproof

TROUBLESHOOTING

If you encounter issues with your Swann security system, refer to the following common solutions:

- **No Video Display:**

Check: Ensure the DVR is powered on and connected to the monitor via HDMI. Verify the monitor input source is correct.

- **No Recording:**

Check: Confirm the 64GB Micro SD Card is properly inserted. Verify recording schedules and motion detection settings in the DVR menu or app.

- **Motion Detection Not Triggering:**

Check: Adjust motion detection sensitivity settings. Ensure the camera's view is clear and not obstructed.

- **Remote Access Issues:**

Check: Ensure the DVR is connected to the internet via Ethernet. Verify your mobile device has a stable internet connection. Re-pair the DVR with the Swann Security app if necessary.

- **Poor Night Vision:**

Check: Ensure the camera lens is clean. Remove any obstructions near the camera that might reflect infrared light.
