LocoLee 75639

LocoLee LED Light Kit Instruction Manual for LEGO 75639 The Going Merry Pirate Ship (Standard Version)

Enhance your LEGO model with dynamic lighting.

1. INTRODUCTION

This instruction manual provides detailed guidance for installing and operating the LocoLee LED Light Kit, specifically designed for the LEGO 75639 The Going Merry Pirate Ship model. Please note that **this product is a lighting kit only; the LEGO model building set is not included and must be purchased separately.**

2. SAFETY INFORMATION

To ensure safe use and prevent accidental ingestion, keep all small parts of the light kit out of reach of young children. Handle wires and components with care to avoid damage. This product is recommended for ages 16 years and up.

3. PACKAGE CONTENTS

Before beginning installation, please verify that all components listed below are present in your package:

- LED light strings and individual LEDs
- Connecting cables of various lengths
- Expansion boards
- Hard light bars (Warm White)
- Light strips (Blue-COB, Warm White-COB)
- AAA Battery Case (batteries not included)
- Touch Dimmer Module (USB powered)

- Tweezers for precise handling
- Instruction Manual (online video/PDF)

4. SETUP AND INSTALLATION

Installation of the LocoLee LED Light Kit requires careful attention to detail. Detailed video and PDF installation instructions are available online. These step-by-step guides are designed to assist you through the entire process.

4.1 General Guidelines

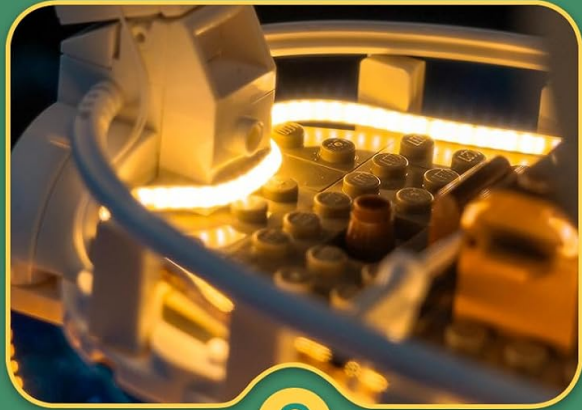

- **Test all lights:** Before beginning assembly, test each light component to ensure it is functioning correctly.
- **Handle with care:** The parts are small and the wires are delicate. Avoid pulling wires too hard to prevent damage.
- **Disassemble as needed:** You may need to carefully disassemble a few bricks of your LEGO model to properly install the light fixtures.
- **Cable management:** Plan your cable routing to ensure wires are neatly hidden and do not interfere with the model's structure or appearance.

4.3 Online Instructions

For comprehensive step-by-step instructions, including video tutorials and PDF guides, please refer to the online resources provided by LocoLee. A QR code or specific URL is typically included in the physical packaging to access these materials.

5. OPERATING INSTRUCTIONS

The LocoLee LED Light Kit offers flexible power options and simple operation.

5.1 Powering the Light Kit

The light kit can be powered via USB (voltage less than 5V) or by an AAA battery pack (batteries not included). For optimal brightness, USB power is recommended.

5.2 Using the Touch Dimmer Module

The included Touch Dimmer Module allows you to control the power and brightness of the lights when powered by USB. Simply touch the module to turn the lights on/off or adjust their intensity.

5.3 Operational Demonstration

6. MAINTENANCE

To ensure the longevity and optimal performance of your LocoLee LED Light Kit, follow these simple maintenance tips:

- **Dusting:** Regularly dust your illuminated LEGO model with a soft, dry cloth or a soft brush to prevent dust buildup on the lights and components.
- **Gentle handling:** Always handle the model and light kit components gently to avoid damaging the delicate wires and connections.
- **Storage:** If storing the model for an extended period, ensure the light kit is disconnected from its power source.

7. TROUBLESHOOTING

If you encounter any issues with your light kit, please refer to the following common troubleshooting steps:

- **Lights not working:**
 - Check all power connections to ensure they are secure.
 - Verify the power source (USB or batteries) is functioning correctly. If using batteries, ensure they are new and correctly inserted.
 - Inspect individual light components and wires for any visible damage or disconnections.
- **Dim lights:**
 - Ensure the light kit is powered by a stable 5V USB source for maximum brightness.
 - If using the Touch Dimmer Module, adjust the brightness setting.
- **Flickering lights:**
 - Check for loose connections at the expansion boards or individual light points.
 - Ensure the power supply is consistent and not fluctuating.

If these steps do not resolve the issue, please contact LocoLee customer support for further assistance.

8. SPECIFICATIONS

Feature	Detail
Brand	LocoLee
Model Compatibility	LEGO 75639 The Going Merry Pirate Ship
Style	Standard Version
