### Aklaus AK-KD-30XZ-WHITE-W-H-B-2

## Aklaus Swivel Metal Bar Stools User Manual

Brand: Aklaus | Model: AK-KD-30XZ-WHITE-W-H-B-2

### PRODUCT OVERVIEW

The Aklaus Swivel Metal Bar Stools are designed for versatility and comfort, suitable for various settings such as kitchen islands, bars, cafes, and dining rooms. These 30-inch bar height stools feature a 360° swivel function, a high back for support, and a large wooden seat. Constructed from heavy-duty metal, they are built for durability and stability, with a maximum load capacity of 330 lbs. The design incorporates non-slip, anti-scratch rubber foot pegs to protect your floors and an ergonomic backrest for extended comfort.

## KEY FEATURES

- **360° Swivel Function:** Allows for easy rotation and movement, enhancing usability in dynamic spaces.
- **High Back Design:** Provides ergonomic support for comfortable seating over extended periods.
- **Durable Construction:** Made from heavy-duty metal with anti-rust and anti-scratch properties, ensuring long-lasting stability.
- **Large Wooden Seat:** Features a 14.2" x 14.2" wooden seat for a comfortable sitting experience.
- **Floor Protection:** Equipped with non-slip, anti-scratch rubber foot pegs to prevent damage to flooring.
- **Space-Saving Design:** Backrest and legs can be removed for convenient storage when not in use.
- **High Load Capacity:** Supports up to 330 lbs, ensuring robust performance.

### SETUP AND ASSEMBLY

The Aklaus Swivel Metal Bar Stools require assembly. Please follow these general steps. For detailed instructions, refer to the assembly guide included in your product packaging.

- 1. Unpack Components:** Carefully remove all parts from the packaging and lay them out on a clean, soft surface to prevent scratches. Verify all components are present according to the parts list in your manual.
- 2. Attach Legs:** Securely attach the four legs to the main seat frame using the provided screws and tools. Ensure all connections are firm but do not overtighten initially.
- 3. Install Footrest:** Attach the footrest ring or bars to the legs, ensuring they are evenly spaced and provide stable support.
- 4. Secure Backrest:** Fasten the high backrest to the seat frame. Align the holes and tighten the screws until the backrest is stable.
- 5. Final Tightening:** Once all components are loosely assembled, place the stool upright on a flat surface. Apply gentle pressure to ensure it sits evenly, then progressively tighten all screws until secure. Do not overtighten to avoid stripping.

threads.

6. **Check Stability:** Before use, gently rock the stool to ensure it is stable and all connections are secure.

## OPERATING INSTRUCTIONS

These bar stools are designed for straightforward use. Simply sit on the large wooden seat. The 360° swivel mechanism allows you to rotate freely, providing easy access to different areas around your kitchen island or bar. The ergonomic high backrest offers comfortable support during use. Ensure the stool is placed on a flat, stable surface before sitting to maintain balance and safety. Do not exceed the maximum weight capacity of 330 lbs.

## Maintenance

Regular maintenance will help prolong the life and appearance of your Aklaus bar stools.

- **Cleaning:** The metal frame and wooden seat are easy to clean. Wipe down surfaces with a soft, damp cloth. For stubborn stains, a mild soap solution can be used, followed by drying thoroughly. Avoid abrasive cleaners or harsh chemicals that may damage the finish.
- **Inspection:** Periodically check all screws and connections to ensure they remain tight. Retighten if necessary to maintain stability.
- **Floor Protection:** Ensure the rubber foot pegs are intact and in place to continue protecting your floors from scratches. Replace if worn or missing.
- **Storage:** If storing the stools for an extended period, especially if disassembling, keep components in a dry place away from extreme temperatures and humidity.

## Troubleshooting

If you encounter any issues with your Aklaus bar stools, consider the following common solutions:

- **Stool Wobbles:**

- Ensure all screws are tightened evenly. Sometimes, loosening all screws slightly, placing the stool on a flat surface, and then re-tightening them can resolve wobbling.
- Check if the floor surface is uneven.
- Verify that all legs are correctly installed and are of the same length.

- **Difficulty Swiveling:**

- Check for any obstructions or debris in the swivel mechanism.
- Ensure the stool is not overloaded beyond its weight capacity.
- The swivel mechanism is designed to be maintenance-free, but if issues persist, contact customer support.

- **Scratches on Floor:**

- Verify that the rubber foot pegs are securely attached to each leg.
- Replace any missing or damaged foot pegs.
