1. INTRODUCTION

This manual provides instructions for the SABLUTE KMA1pro Bluetooth Keyboard and Mouse combo, designed for Apple devices. This combo offers a full-size Mac layout keyboard with 7-color backlighting, multi-device connectivity, and a quiet, rechargeable mouse. Please read this manual thoroughly before use to ensure proper operation and longevity of your devices.

Package Contents:

- SABLUTE KMA1pro Bluetooth Keyboard
- SABLUTE Bluetooth Mouse
- USB-C Charging Cable
- Silicone Dustproof Cover
- User Manual

2. SETUP

2.1 Charging the Devices

Before initial use, fully charge both the keyboard and the mouse. Use the provided USB-C charging cable.

1. Connect the USB-C end of the cable to the charging port on the keyboard (located on the top edge) and the mouse (located on the front edge).
2. Connect the USB-A end of the cable to a USB power adapter (not included) or a computer's USB port.
3. The charging indicator light will illuminate. Once fully charged (approximately 2-3 hours), the indicator will change or turn off.

2.2 Powering On/Off

- **Keyboard:** Locate the power switch on the top edge of the keyboard. Slide it to the 'ON' position to power on, and 'OFF' to power off.
- **Mouse:** Locate the power switch on the bottom of the mouse. Slide it to the 'ON' position to power on, and 'OFF' to power off.

2.3 Bluetooth Pairing

The KMA1pro combo supports connecting up to three Bluetooth devices simultaneously.

1. **Enable Bluetooth on your Mac device:** Go to System Settings (or System Preferences) > Bluetooth and ensure Bluetooth is turned on.

2. **Keyboard Pairing:**

- Turn on the keyboard.
- Press and hold the **BT1**, **BT2**, or **BT3** key for 3-5 seconds until the corresponding indicator light flashes rapidly. This indicates the keyboard is in pairing mode.
- On your Mac device, look for "SABLUTE Keyboard" in the Bluetooth device list and click "Connect".
- Once connected, the indicator light will stop flashing.

3. **Mouse Pairing:**

- Turn on the mouse.
- Press the channel switch button on the bottom of the mouse to select a channel (e.g., BT1). The indicator light will flash.
- On your Mac device, look for "SABLUTE Mouse" in the Bluetooth device list and click "Connect".
- Once connected, the indicator light will stop flashing.

4. Repeat these steps for additional devices using BT2 and BT3 channels.

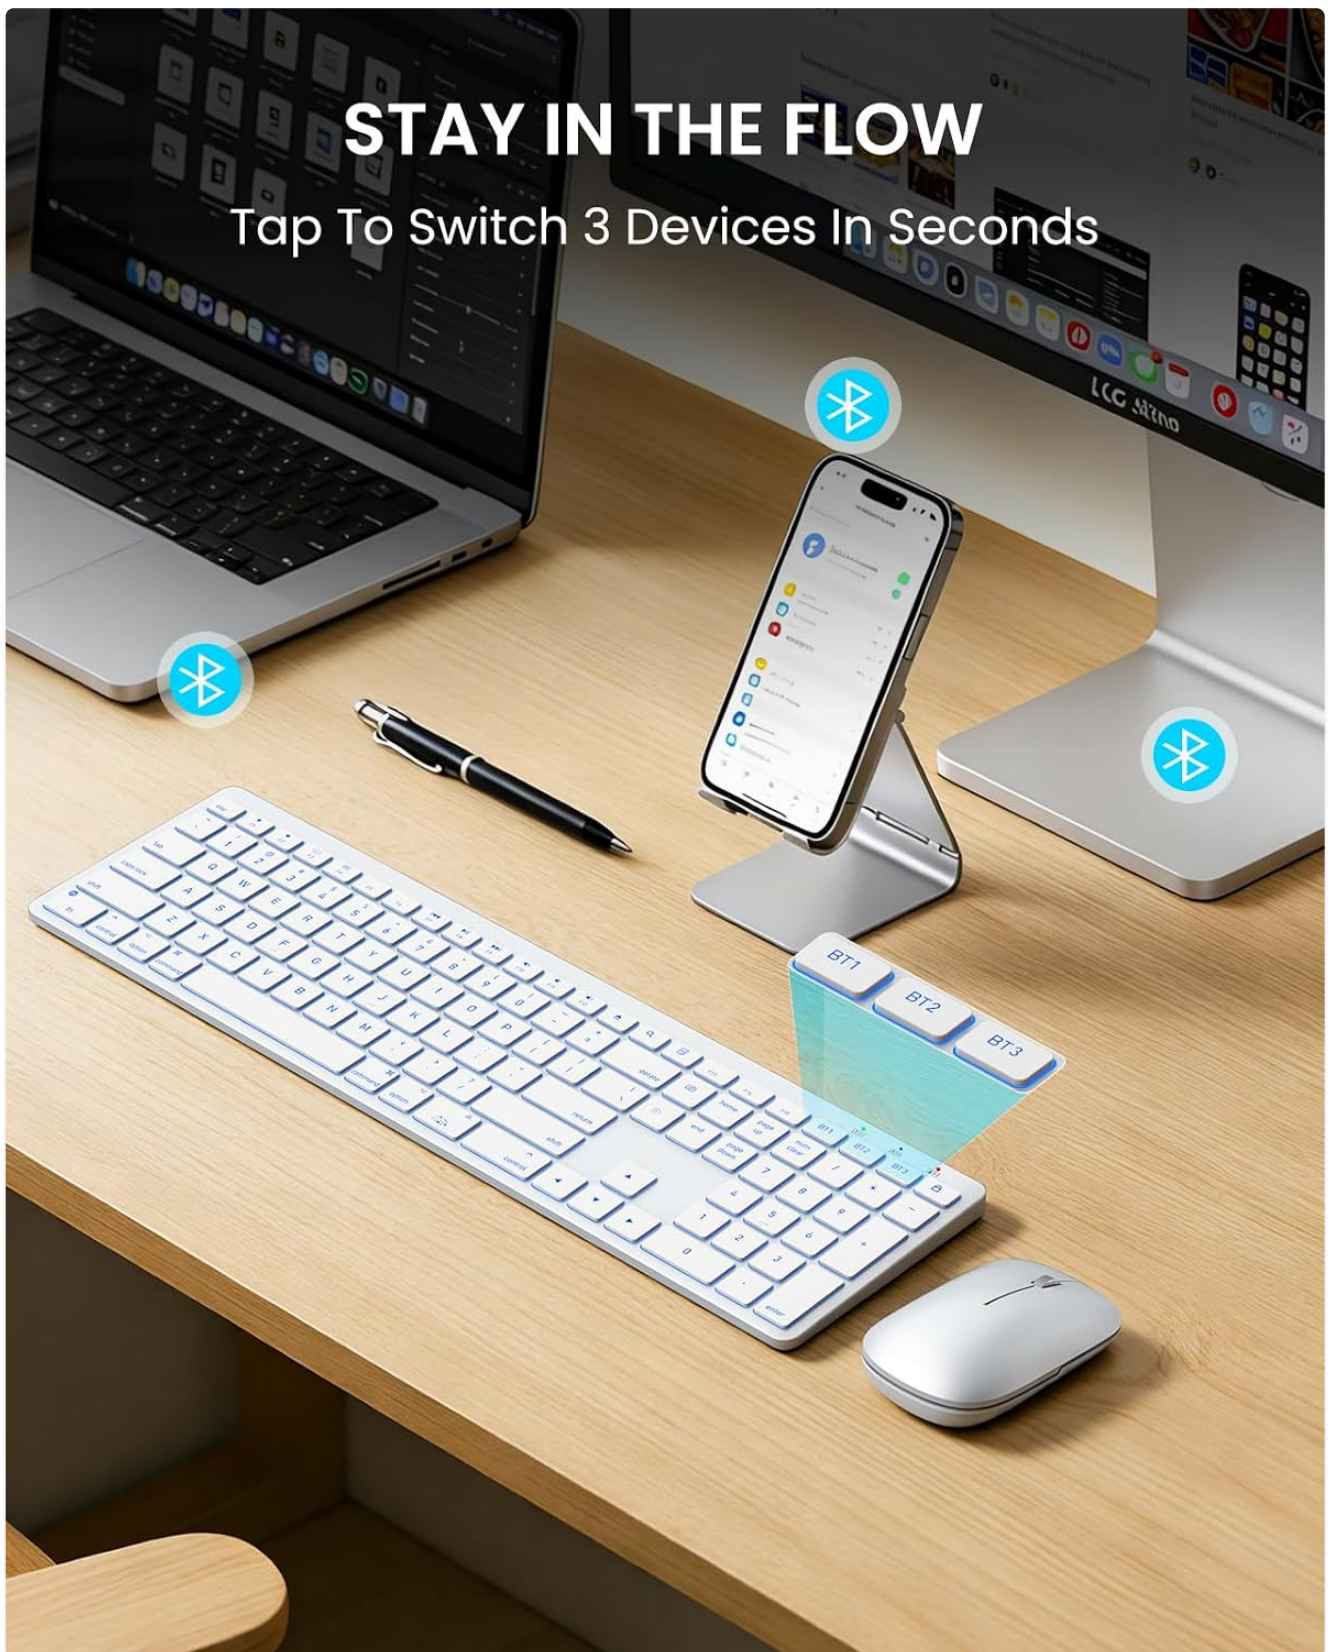

Image 2.2: The keyboard and mouse can switch between three paired Bluetooth devices.

3. OPERATION

3.1 Keyboard Backlight Control

The keyboard features 7-color backlighting with adjustable brightness levels.

- **Change Backlight Color:** Press **Fn +**  (the light bulb icon) to cycle through the 7 available colors.
- **Adjust Brightness:** Press **Fn +**  (the sun icon) to cycle through 3 brightness levels or turn the backlight

off.

Image 3.1: Adjusting backlight colors and brightness on the keyboard.

3.2 Switching Between Multiple Devices

To switch between your paired devices (Mac, iPad, iPhone), simply press the corresponding Bluetooth channel key on the keyboard:

- Press **BT1** to switch to device 1.
- Press **BT2** to switch to device 2.

- Press **BT3** to switch to device 3.

For the mouse, press the channel switch button on the bottom to select the desired paired channel.

3.3 Mac Shortcut Keys

The keyboard features a full standard Mac layout with dedicated macOS shortcut keys for enhanced productivity.

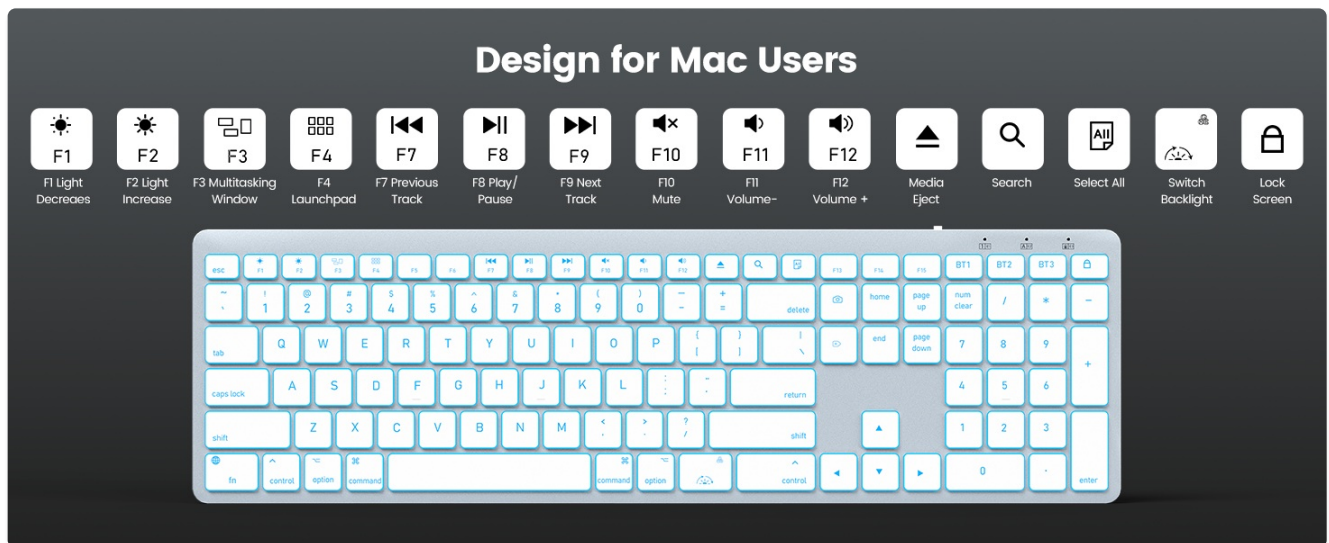

Image 3.2: Mac-specific function keys on the keyboard.

Key	Function
F1	Light Decreases
F2	Light Increases
F3	Multitasking Window
F4	Launchpad
F7	Previous Track
F8	Play/Pause
F9	Next Track
F10	Mute
F11	Volume -
F12	Volume +
Media Eject	Eject Media
Search	Search Function
Select All	Select All Content
Switch Backlight	Toggle Backlight On/Off
Lock Screen	Lock Screen

Note: Mac shortcuts and keys are incompatible with Windows operating systems.

3.4 Mouse DPI Adjustment

The mouse features three adjustable DPI settings (800/1200/1600) for precise cursor control.

- To switch DPI settings, press and hold the middle scroll wheel button and the right-click button simultaneously for 3 seconds. The DPI will cycle through 800, 1200, and 1600.

Image 3.3: The mouse offers three adjustable DPI settings for cursor precision.

3.5 Ergonomic Tilt

The keyboard includes built-in adjustable folding feet to set an ergonomic typing angle, reducing wrist strain during extended use.

- Gently pull out the folding feet located on the underside of the keyboard to elevate the back edge.
- Push them back in to return the keyboard to a flat position.

3.6 Power Saving Mode

Both the keyboard and mouse feature an intelligent auto-sleep mode to conserve battery power when not in use. To reactivate, simply press any key on the keyboard or move/click the mouse.

4. MAINTENANCE

4.1 Cleaning

- Turn off both the keyboard and mouse before cleaning.
- Use a soft, lint-free cloth slightly dampened with water or a mild cleaning solution. Avoid harsh chemicals.
- For the keyboard, you can use a can of compressed air to remove dust and debris from between the keys.

4.2 Using the Dustproof Cover

A custom-fit silicone protective film is included to shield your keyboard from dust, spills, and daily wear. Place it over the keyboard when not in active use or during travel.

4.3 Battery Care

- Avoid fully discharging the batteries frequently. Recharge when the low battery indicator appears.
- If storing the devices for an extended period, charge them to about 50% and power them off. Recharge every few months to prevent deep discharge.

5. TROUBLESHOOTING

Problem	Possible Solution
Keyboard/Mouse not connecting via Bluetooth	◦ Ensure both devices are powered on and fully charged. ◦ Make sure Bluetooth is enabled on your Mac device. ◦ Put the keyboard/mouse into pairing mode again (refer to Section 2.3). ◦ Remove previous pairings from your Mac's Bluetooth list and try pairing again. ◦ Restart your Mac device.
Backlight not working or dim	◦ Charge the keyboard. Low battery can affect backlight performance. ◦ Adjust brightness using Fn + .
Mouse cursor erratic or unresponsive	◦ Ensure the mouse is fully charged. ◦ Check the mouse's optical sensor for obstructions. ◦ Try adjusting the DPI settings (refer to Section 3.4). ◦ Ensure the mouse is on a suitable surface.
Keyboard keys not responding	◦ Ensure the keyboard is powered on and connected. ◦ Recharge the keyboard. ◦ If specific keys are affected, check for debris under the keycaps.
