eeTao 24.8V Charger Instruction Manual

For Somorei YS-710 and YS-712 Cordless Leaf Blowers

INTRODUCTION

This manual provides essential instructions for the safe and effective use of your eeTao 24.8V Charger. This charger is designed to provide power to Somorei YS-710 and YS-712 cordless lightweight electric mini handheld leaf blowers. Please read this manual thoroughly before using the product and retain it for future reference.

SAFETY INSTRUCTIONS

To ensure safe operation and prevent damage, observe the following safety guidelines:

- **Over Voltage Protection (OVP):** The charger is equipped with circuitry to prevent damage from excessive output voltage.
- **Over Current Protection (OCP):** The charger includes protection against excessive output current.
- **Short Circuit Protection (SCP):** Built-in protection safeguards against short circuits.
- **Input Voltage:** Use with a standard world-wide input voltage of 100-240 VAC, 50/60 Hz.
- **Battery Condition:** Rechargeable batteries are not permanent and typically have an average lifespan of 1 to 3 years. If the battery is damaged or has reached the end of its life, it may not be able to charge. Inspect your device's battery for damage before charging.
- Do not expose the charger to moisture or extreme temperatures.
- Do not attempt to disassemble or modify the charger.

Security Protection

Multiple professional protection, so that fast charge more safe

Image: This diagram illustrates the multiple protection features integrated into the eeTao charger, ensuring safe and reliable charging. These include temperature protection, overcharge protection, short circuit protection, anti-interference protection, and lightning protection.

PACKAGE CONTENTS

Verify that all items are present upon opening the package:

- 1 x eeTao 24.8V Charger (Model: HL-24800800)

Premium Cable

PRODUCT OVERVIEW

The eeTao 24.8V Charger is designed for durability and efficient power delivery.

Image: This diagram illustrates the internal construction of the charger's cable, featuring a coarsening core for efficient power transfer, inner insulators for safety, and a TPE protective outer layer for durability.

SETUP

Follow these steps to set up your charger:

1. **Unpack:** Carefully remove the charger from its packaging.
2. **Inspect:** Check the charger and cable for any visible damage. Do not use if damaged.
3. **Connect to Power Outlet:** Plug the charger's AC plug into a standard 100-240 VAC wall outlet.
4. **Prepare Device:** Ensure your Somorei YS-710 or YS-712 leaf blower is turned off before connecting the charger.

OPERATING INSTRUCTIONS

To charge your Somorei leaf blower:

1. **Connect to Device:** Insert the barrel connector of the charger into the charging port of your Somorei YS-710 or YS-712 leaf blower. Ensure a secure connection.
2. **Charging Indication:** Refer to your leaf blower's manual for specific charging indicators (e.g., LED

lights) to confirm that charging has begun.

3. **Charging Time:** Charging time will vary depending on the battery's current charge level and capacity. Avoid overcharging by disconnecting the charger once the battery is fully charged, as indicated by your device.
4. **Disconnect:** Once charging is complete, first unplug the barrel connector from the leaf blower, then unplug the charger from the wall outlet.

MAINTENANCE

Proper care will extend the life of your charger:

- **Cleaning:** Disconnect the charger from all power sources before cleaning. Use a soft, dry cloth to wipe the exterior. Do not use liquid cleaners or solvents.
- **Storage:** Store the charger in a cool, dry place away from direct sunlight and moisture when not in use.
- **Cable Care:** Avoid bending or crimping the cable excessively. Do not wrap the cable too tightly around the charger.
- **Inspection:** Periodically inspect the charger, cable, and connectors for any signs of wear or damage. Replace the charger if any damage is found.

TROUBLESHOOTING

If you encounter issues with your charger, refer to the following common problems and solutions:

- **Charger Not Working:**
 - Ensure the charger is securely plugged into a working wall outlet.
 - Verify that the barrel connector is fully inserted into the leaf blower's charging port.
 - Check for any visible damage to the charger or cable. If damaged, discontinue use.
- **Device Not Charging:**
 - Confirm that the leaf blower is compatible with a 24.8V charger and its battery is designed for DC20V/21V input.
 - As noted in safety instructions, if the rechargeable battery in your leaf blower is damaged or at the end of its lifespan (typically 1-3 years), it may not accept a charge. Consider testing with a known good battery or consulting the leaf blower's manufacturer.
 - Ensure the leaf blower is turned off during charging.
- **Slow Charging:**
 - Ensure the charger is connected directly to a wall outlet, not through a power strip or extension cord that might reduce power delivery.
 - Verify that the charger's specifications match the device's requirements.

SPECIFICATIONS

Brand	eeTao
Model Number	HL-24800800
Compatible Devices	Somorei YS-710, Somorei YS-712 Leaf Blowers

Input Voltage	100-240 VAC, 50/60 Hz
Output Voltage	24.8 Volts (DC)
Output Current	0.8 Amps
Connector Type	Barrel
Special Features	Short Circuit Protection, Over Voltage Protection, Over Current Protection
Item Weight	4 Ounces

WARRANTY AND SUPPORT

Your eeTao 24.8V Charger comes with the following warranty:

- **Warranty Period:** 30 Days Refund - 24 Months Exchange.
- **Return Policy:** A 30-day return policy is available for this product.

For technical support or warranty claims, please contact the seller or manufacturer through the platform where the product was purchased. Provide your purchase details and model number (HL-24800800) for efficient assistance.
