

Advwin HXR-18

Advwin 3-in-1 Smart Slushie Machine

Model: HXR-18 | Brand: Advwin

1. INTRODUCTION

Thank you for choosing the Advwin 3-in-1 Smart Slushie Machine. This versatile appliance is designed to create a variety of frozen beverages, including slushies, chilled drinks, and milkshakes, with ease. This manual provides essential information for safe operation, setup, maintenance, and troubleshooting to ensure optimal performance and longevity of your machine.

2. IMPORTANT SAFETY INFORMATION

Please read all safety instructions carefully before operating the machine. Retain this manual for future reference.

- **Electrical Safety:** Ensure the power supply matches the machine's requirements. Do not operate with a damaged

cord or plug. Keep the power cord away from hot surfaces.

- **Infrared Safety Sensor:** The machine is equipped with infrared sensors that pause mixing if hands approach the agitator, preventing accidents. Do not attempt to bypass or disable this feature.
- **Child Safety:** Keep the appliance out of reach of children. Supervise children when the machine is in use.
- **Material Safety:** All food-contact parts are made from BPA-free materials.
- **Placement:** Place the machine on a stable, level, and dry surface. Ensure adequate ventilation around the unit.
- **Cleaning:** Always unplug the machine before cleaning. Do not immerse the main unit in water.

3. PACKAGE CONTENTS

Verify that all components are present upon unpacking:

- Advwin 3-in-1 Smart Slushie Machine (Main Unit)
- Transparent Mixing Bowl with Lid
- Agitator/Mixing Paddle
- Drip Tray
- User Manual
- Recipe E-book (digital access)

4. PRODUCT FEATURES

The Advwin Slushie Machine offers advanced features for convenient and efficient frozen drink preparation:

- **Ice-Free Instant Freezing Technology:** A powerful 150W compressor chills drinks to perfect slush consistency in minutes without the need for ice.
- **3 Customizable Modes:** One-touch presets for Slush (icy texture), Cold Drink (chilled refreshment), and Milkshake (creamy blend).
- **Adjustable Hardness Control:** Tailor the consistency of your frozen treats to your preference.
- **Hassle-Free Cleaning System:** Features an auto-clean function and dishwasher-safe removable parts (bowl, lid, drip tray).
- **Infrared Safety Sensor:** Automatically pauses mixing when hands are detected near the agitator.
- **Quiet Operation:** Advanced R600a compressor operates at ≤55 dB, comparable to a quiet conversation.
- **Energy-Efficient:** Cuts energy use by 30% compared to traditional models.
- **Large Capacity:** 88oz (2.5L) bowl, suitable for serving 8–10 guests per batch.
- **Durable Construction:** Commercial-grade steel housing and non-slip base.

5. SETUP

Follow these steps for initial setup:

1. **Unpack:** Carefully remove all components from the packaging.
2. **Clean:** Before first use, wash the mixing bowl, lid, and drip tray with warm, soapy water. Rinse thoroughly and dry. Wipe the main unit with a damp cloth.
3. **Assemble:** Place the drip tray onto the base. Ensure the mixing bowl is securely seated on the main unit. Attach the lid.
4. **Placement:** Position the machine on a stable, flat, and dry surface, ensuring it is away from direct sunlight or heat sources. Allow sufficient space around the unit for ventilation.
5. **Power Connection:** Plug the power cord into a grounded electrical outlet.

6. OPERATION

Operating your Advwin Slushie Machine is straightforward:

Image: A visual guide illustrating the three main steps of operation: 1. Add liquid juice and use 360° rapid cooling technology. 2. Select the appropriate program and adjust hardness. 3. Wait for your smoothie to arrive.

6.1. Preparing Your Drink

1. **Add Ingredients:** Pour your desired liquid into the mixing bowl. For best results, ensure the liquid contains at least 10% sugar or 2.8–16% alcohol. Fill up to the 'MAX' line indicated on the bowl.
2. **Close Lid:** Securely close the lid on the mixing bowl.

6.2. Selecting a Mode

Use the control panel to select your desired mode:

- **Slush Mode:** For icy, granular textures like frozen margaritas, fruit slushies, or granitas.
- **Cold Drink Mode:** For simply chilling beverages without freezing them.
- **Milkshake Mode:** For creamy, thicker blends like milkshakes or protein shakes.

Once a mode is selected, the machine will begin processing. An LED progress light will indicate the status.

6.3. Adjusting Hardness

The control panel includes an adjustable hardness control. Use this to fine-tune the consistency of your frozen drink. Increase for a firmer texture, decrease for a softer one.

6.4. Dispensing

Once the drink is ready (indicated by the LED light), place a glass under the precision pour spout and pull the self-serving handle to dispense.

6.5. Pro Tips for Best Results

- For alcohol slushies, use premixed cocktails (e.g., canned margaritas) to avoid separation.
- For thicker shakes, add 1 tablespoon of xanthan gum per quart of liquid for a creamier texture.
- Ensure ingredients are well-mixed before adding to the machine.

7. CLEANING AND MAINTENANCE

Regular cleaning ensures hygiene and extends the life of your machine.

7.1. Auto-Clean Function

For daily maintenance or between batches:

- 1. Empty any remaining liquid from the bowl.
- 2. Pour approximately 2 cups of warm water into the mixing bowl.
- 3. Select the 'RINSE' or 'AUTO-CLEAN' mode on the control panel.
- 4. Allow the cycle to complete.
- 5. Drain the water through the spout.
- 6. Wipe the interior of the bowl with a soft cloth.

7.2. Deep Cleaning

For thorough cleaning, especially after using sugary or dairy-based ingredients:

- 1. **Unplug:** Always unplug the machine from the power outlet before disassembling or deep cleaning.
- 2. **Disassemble:** Remove the lid, mixing bowl, and drip tray. These parts are dishwasher-safe.
- 3. **Wash:** Wash the removable parts in warm, soapy water or place them in the dishwasher.
- 4. **Clean Main Unit:** Wipe the exterior and interior of the main unit with a damp cloth. Do not immerse the main unit in water.
- 5. **Dry:** Ensure all parts are completely dry before reassembling and storing.

8. TROUBLESHOOTING

If you encounter issues, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Machine does not turn on.	Not plugged in; power outage; faulty outlet.	Check power cord connection; test outlet with another appliance; check circuit breaker.
Drink is not freezing.	Insufficient sugar/alcohol content; too much liquid; ambient temperature too high.	Ensure liquid meets minimum sugar/alcohol requirements; do not overfill; operate in a cooler environment.
Drink is too hard/soft.	Hardness setting incorrect.	Adjust the hardness control on the panel.
Agitator stops during operation.	Infrared safety sensor activated; obstruction in bowl.	Ensure hands are clear of the agitator; check for and remove any obstructions.
Leaking from spout.	Spout not properly closed; seal issue.	Ensure the spout handle is fully closed; check the spout's seal for damage.

If the problem persists, please contact Advwin customer support.

9. SPECIFICATIONS

Feature	Specification
Brand	Advwin
Model Name	Slushie Machine
Item Model Number	HXR-18
Capacity	88 oz (2.5 Liters)
Color	Black
Special Feature	Automatic Clean, Infrared Safety Sensor
Noise Level	≤55 dB
Refrigerant	R600a
Certifications	CE-certified

10. WARRANTY AND SUPPORT

The Advwin 3-in-1 Smart Slushie Machine is CE-certified and comes with a **1-year warranty** from the date of purchase. This warranty covers manufacturing defects under normal use.

For warranty claims, technical support, or any questions not covered in this manual, please contact Advwin customer service through the retailer's platform or the official Advwin website. Please have your model number (HXR-18) and proof of purchase ready.
