SMALLRIG 5127

SMALLRIG Magnetic Neck Phone Holder 5127 Instruction Manual

Model: 5127

INTRODUCTION

The SMALLRIG Magnetic Neck Phone Holder 5127 is a versatile accessory designed for hands-free point-of-view (POV) recording with smartphones and action cameras. Its ergonomic design, strong magnetic attraction, and quick-release mechanism make it ideal for various content creation scenarios. This manual provides detailed instructions for setup, operation, and maintenance to ensure optimal performance and longevity of your device.

SETUP

1. Attaching Your Device

The neck holder features a strong magnetic attachment for compatible smartphones (e.g., iPhone 12-17 series) and action cameras. For non-magnetic phones, use the included metal ring by adhering it to your phone case.

▶ Ultra-Strong Magnetic Attraction ◀

17 high-grade N52 magnets for unshakable hold

Includes free magnetic adapter for non-MagSafe phones

Note

Magnetic neck mount can support a maximum weight of 300g (10.6oz)

Image: A smartphone with a magnetic ring on its back is shown attaching to the magnetic mount of the neck holder. The image highlights the 17 powerful N52 magnets for a secure hold.

2. Wearing the Neck Holder

Place the silicone neck support around your neck. The flexible design allows for comfortable adjustment. The neck support can be opened and closed with a one-click button for quick wearing and removal.

▶ Instant Neck Mount ◀

Press OPEN to unlock

Snap until click-lock

Image: An arrow indicates pressing the 'OPEN' button to unlock the neck support, allowing it to be easily put on or taken off. The mechanism snaps until a click-lock sound is heard.

3. Attaching the Chest Strap (Optional)

For enhanced stability during dynamic activities, attach the included chest strap to the designated points on the neck holder. This reduces shaking and ensures smoother footage.

▶ Chest Strap ▶ for Enhanced Stability

Reduces shaking for smooth footage during filming

Image: A person is wearing the neck phone holder with a phone attached, and an additional chest strap is secured around their torso to minimize movement and enhance video stability.

4. Adjusting the Angle

The neck holder allows for instant angle adjustments to achieve cinematic framing for your POV footage. The flexible neckband can be molded to fit your preference.

▶ Multi-Scenario POV ◀

Shoot pro POV footage with your phone
Adjust to any angle instantly for cinematic framing

Image: Three different scenarios are depicted: a person cooking, a person cycling, and a person hiking, all using the neck phone holder to capture POV footage, illustrating its multi-scenario versatility and adjustable angles.

OPERATING

1. POV Recording

Once your device is securely attached and the neck holder is comfortably worn, you can begin recording hands-free POV content. The flexible neckband and adjustable mount allow for various perspectives.

2. Using with Action Cameras

The neck holder includes an adapter compatible with most action cameras, such as GoPro Hero series, DJI Osmo Action, and Insta360 models. Simply attach your action camera to the 2-prong mount.

▶ 2-Prong Action Camera Mount ◀

Compatible with mainstream action cameras

For GoPro Hero

For Insta360

For DJI Osmo Action

Works with other action cameras

Image: The neck holder is shown alongside illustrations of a GoPro Hero, Insta360, and DJI Osmo Action camera, indicating that the 2-prong action camera mount is compatible with these and other similar devices.

3. Enhancing Your Production

The attachable mount features a built-in cold shoe mount, allowing you to add external accessories like lights or microphones for improved audio and video quality.

► Upgrade Your Phone Production ◀

Add lights or mics with the built-in cold shoe mount for studio-quality videos

Image: A person is wearing the neck phone holder with a phone attached. A blue arrow points to a cold shoe mount on the device, illustrating how external lights or microphones can be added for professional video production.

MAINTENANCE

To ensure the longevity of your SMALLRIG Magnetic Neck Phone Holder, follow these maintenance guidelines:

- **Cleaning:** Wipe the silicone neckband and plastic components with a soft, damp cloth. Avoid harsh chemicals or abrasive cleaners.
- **Storage:** Store the neck holder in a cool, dry place away from direct sunlight. The flexible design allows it to be folded for compact storage.
- **Magnetic Components:** Keep the magnetic surfaces clean and free from debris to maintain strong attraction.

TROUBLESHOOTING

- **Phone not holding securely:** Ensure your phone or phone case has a compatible MagSafe feature. If not,

apply the provided metal ring to your phone case. Check that the magnetic surfaces are clean.

- **Footage is shaky:** Ensure the neck holder is worn snugly. For high-movement activities, attach the chest strap for additional stability.
- **Difficulty with quick release:** Ensure the button is fully pressed. If the mechanism feels stiff, check for any obstructions.
