Vehipa HD300

Vehipa 2.4 Gallon Smart Fish Tank Instruction Manual

MODEL: HD300 | BRAND: VEHIPA

Product Overview

The Vehipa 2.4 Gallon Smart Fish Tank is a multi-functional aquarium kit designed for ease of use and optimal fish health. It features a self-circulating 3-in-1 pump for filtration, oxygenation, and circulation, an adjustable 7-color lighting system, a smart aromatherapy humidifier with three modes, and a real-time temperature display. Constructed with 4mm ultra-high-definition glass and a thickened non-slip base, it offers a clear viewing experience and durability. The tank lid includes convenient feeding ports.

Setup Instructions

1. Unpacking and Placement

Carefully unpack all components. Place the aquarium on a stable, level surface that can support its weight when filled with water. Ensure it is away from direct sunlight and heat sources.

2. Filter System Assembly

Assemble the 3-in-1 pump and connect it to the water outlet and oxygen tube. Place the filter sponge, quartz balls, and ceramic rings into their designated compartments within the filter system. Ensure the pump is fully submerged in water before plugging it in to prevent burnout.

TRIPLE SELF-CIRCULATING FILTER SILENT PUMP

Integrates filtration, oxygenation and water circulation to ensure clear water quality

Image: A detailed diagram illustrating the components and assembly steps for the triple self-circulating filter silent pump, including water circulation, impurity adsorption, oxygenation port, and adjustable air valve.

3. Water Preparation and Filling

Clean the aquarium and all accessories thoroughly to remove any manufacturing residues. Fill the tank with dechlorinated water up to the minimum water level line. Ensure the oxygen tube and valve are placed outside the tank and kept dry for proper oxygenation.

4. Decorative Elements

Arrange the included plastic plant decorations and any other desired gravel or ornaments in the tank to create an appealing environment for your fish.

5. Fish Acclimation

Once the tank is fully cycled and water conditions are stable, float the sealed bag containing your fish in the aquarium for about 20 minutes to allow temperature acclimation. Then, open the bag and gently release the fish into the aquarium.

2. Smart Humidifier Operation

The built-in aromatherapy humidifier offers three adjustable spray modes (2-second interval, 1-second interval, continuous spray). Press the 'Humidifier' button to cycle through these modes. Use distilled water in the humidifier reservoir.

INTELLIGENT DISPLAY SCREEN

Image: The intelligent display screen on the tank lid, showing the temperature (78°F), model (HD300), and icons for lamp and humidifier, along with visual examples of the three adjustable spray modes.

3. Temperature Display

The integrated digital display provides a real-time readout of the water temperature, ensuring a safe and comfortable environment for your fish.

4. Feeding

Utilize the feeding port on the tank lid for convenient and mess-free feeding. This design also helps prevent fish from jumping out of the water.

Maintenance

1. Filter Maintenance

Regularly clean or replace the filter sponge, quartz balls, and ceramic rings to ensure optimal filtration and clear water. The 3-in-1 pump system is designed for easy access to filter media.

2. Water Changes

Perform partial water changes (e.g., one-third of the tank volume) every 1-2 weeks to maintain water quality and remove accumulated waste. Ensure new water is temperature-matched and dechlorinated.

3. General Cleaning

Gently wipe the exterior of the tank with a soft, damp cloth to remove stains. Avoid using abrasive cleaners or materials that could scratch the glass.

Troubleshooting

- **Pump not working:** Ensure the 3-in-1 pump is fully submerged in water before plugging it in.
- **No oxygen bubbles:** Verify that the oxygen tube and valve are placed outside the tank and kept dry to ensure proper air intake.
- **Cloudy water:** Perform regular filter maintenance and water changes. Ensure proper water cycling.
- **Glass product issues:** Due to the nature of glass products, issues may arise during transportation or use. If any problems occur, please contact customer service immediately for technical guidance.
