1. INTRODUCTION

Thank you for choosing the SEESII Cordless Tire Inflator Portable Air Compressor T7 MAX. This versatile 3-in-1 device combines a powerful tire inflator, a convenient car vacuum, and an integrated LED light, designed for ease of use and portability. Please read this manual thoroughly before operation to ensure safe and efficient use of your product.

2. SAFETY INFORMATION

Always observe basic safety precautions when using electrical appliances to reduce the risk of fire, electric shock, and personal injury.

- Read all instructions before using the appliance.
- Do not operate the inflator in wet conditions or near flammable liquids or gases.
- Keep children and pets away from the operating area.
- Use only the provided batteries and charger.
- Do not over-inflate tires. Always refer to the vehicle manufacturer's recommended tire pressure.
- Allow the device to cool down between prolonged uses to prevent overheating.
- Store the device in a dry, secure location when not in use.

3. PACKAGE CONTENTS

Verify that all items listed below are included in your package:

- 3-in-1 Multifunctional Inflator

- Air Hose
- Needle Storage box
- Tapered & Long Nozzles
- Presta/Schrader & Needle-Valve Adapters
- Dust Container
- 2 HEPA Filters
- Short-Bristle & Carpet Brushes
- LED Head
- Two Battery Packs (2000mAh each)
- Charger
- Storage Case

WHAT'S INCLUDED

- | | | |
|----------------------------|---------------------|-------------------------------|
| 1 Multifunctional Air Pump | 6 Dust Container | 11 Air Hose |
| 2 LED Light (Attachment) | 7 HEPA Filter ×2 | 12 Tapered Nozzle |
| 3 Battery Packs ×2 | 8 Dusting Brush | 13 Presta to Schrader Adapter |
| 4 Charger | 9 Upholstery Nozzle | 14 Ball Needle |
| 5 Storage Case | 10 Extension Wand | |

5. SETUP

5.1 Charging the Batteries

Before first use, fully charge both 2000mAh lithium batteries. Connect the charger to a power outlet and insert the battery pack. The indicator light on the charger will show charging status. A full charge typically takes a few hours.

5.2 Attaching Accessories

- **For Inflation:** Screw the air hose into the inflation port on the top of the unit. Select the appropriate nozzle adapter (Presta/Schrader, needle-valve, or tapered) from the built-in storage compartment and attach it to the air hose.
- **For Vacuuming:** Remove the LED head (if attached) and attach the dust container to the main unit. Select the desired vacuum nozzle (short-bristle, carpet brush, or extension wand) and attach it to the dust container.
- **For LED Light:** Attach the LED head to the front of the unit where the vacuum dust container would connect.

2-IN-1

6. OPERATING INSTRUCTIONS

6.1 Tire Inflation

1. **Connect:** Screw the air hose onto the inflator. Attach the appropriate nozzle adapter to the tire valve stem and secure it.
2. **Power On:** Press the power button to turn on the inflator. The digital display will show the current tire pressure.
3. **Set Pressure:** Use the '+' and '-' buttons to set the desired pressure. You can switch between PSI, KPA, and BAR units by pressing the 'M' button. For quick settings, select one of the 4 preset modes (Car, Motorcycle, Bike, Ball) by pressing the mode button.
4. **Start Inflation:** Press the trigger to begin inflation. The inflator will automatically stop once the preset pressure is reached.
5. **Disconnect:** Carefully disconnect the hose from the valve stem.

TOP-MOUNTED PANEL

No More Bending to Operate

6.2 Vacuum Function

1. **Assemble:** Ensure the dust container and desired vacuum nozzle are securely attached.
2. **Power On:** Press the power button.
3. **Operate:** Press the trigger to activate the vacuum. Move the nozzle over the area to be cleaned.
4. **Empty:** When the dust container is full, detach it and empty its contents.

7. MAINTENANCE

7.1 Cleaning the Dust Container and Filters

Regularly empty the dust container and clean the HEPA filters to maintain optimal vacuum performance. The filters can be rinsed with water; ensure they are completely dry before reinserting.

7.2 Battery Care

To prolong battery life, store batteries in a cool, dry place. Avoid fully discharging batteries frequently. Charge them periodically even if not in use.

7.3 Storage

Store the inflator and all accessories in the provided storage case to protect them from dust and damage. Keep the device away from extreme temperatures.

8. TROUBLESHOOTING

Problem	Possible Cause	Solution
Inflator does not turn on.	Battery is not charged or not properly inserted.	Ensure battery is fully charged and securely inserted.
Inflation is slow or ineffective.	Air hose connection is loose; incorrect nozzle; low battery.	Check all connections; ensure correct nozzle is used; charge battery.
Vacuum suction is weak.	Dust container is full; filter is clogged; nozzle is blocked.	Empty dust container; clean or replace HEPA filter; clear any blockages in the nozzle.
Device overheats and shuts off.	Prolonged continuous use.	Allow the device to cool down for at least 15-20 minutes before resuming use.

9. SPECIFICATIONS

- **Brand:** Seesii
- **Model Number:** T7 MAX
- **Voltage:** 21 volts
- **Maximum Pressure:** 150 PSI
- **Air Flow Capacity:** 30 liters per minute
- **Vacuum Suction:** 20000Pa
- **Maximum Power:** 130 watts
- **Noise Level:** 75 dB
- **Battery Capacity:** 2 x 2000mAh Lithium Batteries
- **Material Type:** Plastic
- **Additional Features:** Automatic Shut-Off, Cordless, Digital Gauge, LED Light, Portable

10. WARRANTY & SUPPORT

The SEESII Cordless Tire Inflator Portable Air Compressor T7 MAX comes with a**2-year warranty** from the date of purchase. This warranty covers manufacturing defects and workmanship under normal use. For technical assistance, troubleshooting, or warranty claims, please contact SEESII customer support. We offer**24/7 support** and **24-month care** to ensure your satisfaction. Please retain your proof of purchase for warranty service.
