FOHERE HU-701

FOHERE 6L Cool Mist Humidifier

MODEL: HU-701 USER MANUAL

1. Introduction

This manual provides essential instructions for the safe and efficient operation, maintenance, and troubleshooting of your FOHERE 6L Cool Mist Humidifier, Model HU-701. Please read this manual thoroughly before use and retain it for future reference.

The FOHERE HU-701 humidifier is designed to add moisture to the air, helping to alleviate dry air conditions in various indoor environments such as bedrooms, offices, and plant rooms. It features a large capacity, quiet operation, smart humidity control, and an aromatherapy function.

2. Safety Instructions

To reduce the risk of fire, electric shock, or injury, always follow these basic safety precautions:

- Read all instructions before operating the humidifier.
- Place the humidifier on a firm, flat, level surface at least 12 inches (30 cm) away from walls and appliances.
- Do not place the humidifier directly on carpet, towels, or other absorbent surfaces.
- Keep the humidifier out of reach of children and pets.
- Always unplug the humidifier before filling, cleaning, or moving it.
- Do not immerse the base unit in water or other liquids.
- Use only clean, cool tap water. Distilled or demineralized water is recommended to prevent mineral buildup.
- Do not add essential oils directly into the water tank. Use the designated aroma box.
- Do not block the mist outlet.

- If the humidifier is damaged, do not operate it. Contact customer support.

3. Product Components

The FOHERE HU-701 humidifier package includes the following items:

- 1 x 6L Humidifier Unit (Base and Water Tank)
- 1 x Remote Control
- 3 x Aroma Pads (1 pre-installed)
- 1 x User Manual (this document)
- 1 x Quick Start Guide
- 1 x Cleaning Brush

Handhabung**

Image 3.1: Detailed view of the humidifier highlighting its top-fill design, integrated carrying handle, and easy access for cleaning. Dimensions are shown as 33.5cm height, 24.5cm width, and 16cm depth.

4. Setup

1. **Unpack:** Carefully remove all packaging materials and place the humidifier on a stable, flat, and water-resistant surface.
2. **Placement:** Ensure the humidifier is placed at least 12 inches (30 cm) from walls, furniture, and electronics. Do not place it directly on the floor if possible, to allow for better mist dispersion.
3. **Fill Water Tank:**
 - Remove the top cover of the humidifier.
 - Lift the water tank using the integrated handle.
 - Fill the tank with clean, cool tap water up to the 'MAX' line. Distilled or demineralized water is recommended.
 - Place the water tank back onto the base, ensuring it is seated correctly.
 - Replace the top cover.

4. **Connect Power:** Plug the power cord into a standard electrical outlet. The display will illuminate briefly.

5. Operating Instructions

The humidifier can be operated using the touch control panel on the front or the included remote control.

5.1 Basic Operation

- **Power On/Off:** Press the Power button (U) to turn the humidifier on or off.
- **Mist Level Adjustment:** In Manual Mode, press the Mist button (A) repeatedly to cycle through Low, Medium, and High mist output levels.
- **360° Mist Nozzles:** The dual mist nozzles on top can be rotated independently to direct mist in desired directions.

3 Nebelstufen

Image 5.1: The humidifier actively releasing mist, demonstrating its 360-degree rotatable nozzles for wide coverage.

5.2 Smart Humidity Control (Auto Mode)

- Press the Humidity button (%) to set your desired humidity level between 40% and 80% in 5% increments.
- The humidifier will automatically adjust mist output to maintain the set humidity level.

- The built-in humidistat has a precision of $\pm 5\%$.

Image 5.3: The humidifier operating in a quiet bedroom setting at night, illustrating its low noise level of 28dB for undisturbed sleep.

5.4 Timer Function

- Press the Timer button (⏰) repeatedly to set the operating time from 1 to 16 hours.
- The humidifier will automatically turn off once the set time expires.

5.5 Night Light

- Press the Night Light button (💡) to turn the soft night light on or off.

5.6 Aromatherapy Function

- Locate the aroma box on the side of the humidifier base.
- Pull out the aroma box tray.
- Add a few drops of your preferred essential oil onto the aroma pad.
- Slide the tray back into the aroma box. The mist will carry the scent into the air.

5.7 Remote Control

The remote control duplicates all functions available on the main control panel, allowing for convenient operation from a

distance.

6. Maintenance

Regular cleaning is essential for optimal performance and to prevent mineral buildup and bacterial growth.

6.1 Daily Maintenance

- Unplug the humidifier.
- Empty any remaining water from the tank and base.
- Wipe the tank and base dry with a clean cloth.
- Refill with fresh water before next use.

6.2 Weekly Cleaning (or every 3-5 days of use)

- Unplug the humidifier.
- Remove the top cover and water tank.
- **Clean the Water Tank:** Use the provided cleaning brush or a soft cloth to wipe the inside of the tank. For mineral buildup, fill the tank with a mixture of 1 teaspoon of white vinegar and 1 gallon of water. Let it sit for 30 minutes, then rinse thoroughly.
- **Clean the Base Unit:** Gently wipe the surface of the base, especially around the transducer (the small disc that produces mist), with a soft cloth dampened with white vinegar. Do not immerse the base in water. Use the cleaning brush to remove any mineral deposits from the transducer.
- **Rinse:** Rinse all components thoroughly with clean water until the smell of vinegar is gone.
- **Dry:** Allow all parts to air dry completely before reassembling.
- **Aroma Pad:** Replace the aroma pad every 2-3 months or when it loses effectiveness.

6.3 Storage

- Before storing, perform a thorough weekly cleaning.
- Ensure all parts are completely dry.
- Store the humidifier in its original packaging or a cool, dry place.

7. Troubleshooting

Problem	Possible Cause	Solution
No mist or low mist output	• No water in tank • Mineral buildup on transducer • Mist outlet blocked	• Refill water tank • Clean transducer with cleaning brush and vinegar solution • Ensure mist outlet is clear
Unusual odor	• New unit odor • Stagnant water or dirty tank	• Run for a few hours with fresh water • Clean the water tank and base thoroughly

Problem	Possible Cause	Solution
Water leakage	• Water tank not seated correctly • Cracked tank • Overfilling	• Ensure tank is properly aligned on the base • Inspect tank for damage; contact support if cracked • Do not fill past the 'MAX' line
Humidifier turns off unexpectedly	• Water shortage (auto shut-off) • Timer expired	• Refill water tank • Check timer settings
