CIRCLE JOY KMDJ-KCT-W2-SL

CIRCLE JOY Manual Coffee Grinder User Manual

Model: KMDJ-KCT-W2-SL

INTRODUCTION

Thank you for choosing the CIRCLE JOY Manual Coffee Grinder. This manual provides essential information for the safe and efficient use of your new coffee grinder. Designed for precision and portability, this grinder features 40 external adjustable settings and durable ceramic conical burrs, ensuring a consistent grind for various brewing methods. Please read these instructions carefully before use and retain them for future reference.

PRODUCT OVERVIEW

The CIRCLE JOY Manual Coffee Grinder is crafted from durable stainless steel and features high-quality ceramic conical burrs. Its compact design makes it ideal for travel, camping, or home use. Key features include:

- **40 External Grind Settings:** Easily adjust the coarseness from extra-fine for espresso to coarse for French press.
- **Ceramic Conical Burrs:** Ensures even grinding with minimal heat generation, preserving coffee aroma and flavor.
- **Stainless Steel Body:** Provides a premium look and enhanced durability.
- **Extra-Long Handle:** Designed for improved leverage and reduced hand fatigue during grinding.
- **Clear Glass Grounds Hopper:** Allows for easy monitoring of grind levels and prevents over-grinding.
- **Portable Design:** Lightweight and space-saving, perfect for on-the-go coffee enthusiasts.

COMPONENTS

Familiarize yourself with the main components of your coffee grinder:

- **Grinder Body:** The main stainless steel housing.
- **Hopper:** Top section where whole coffee beans are loaded.
- **Grind Adjustment Dial:** Located on the top, allows selection of grind coarseness (0-40).
- **Crank Handle:** Detachable handle used to operate the grinding mechanism.
- **Ceramic Conical Burrs:** Internal grinding mechanism.
- **Glass Grounds Container:** Detachable bottom container for collecting ground coffee.

SETUP

Before first use, ensure all components are clean and dry. The grinder comes pre-assembled, but the handle is detachable for storage.

1. **Unpack:** Carefully remove all parts from the packaging.
2. **Clean:** Wash the glass grounds container and the grinding mechanism (if disassembled for cleaning) with warm, soapy water. Rinse thoroughly and dry completely.
3. **Assemble Handle:** Attach the crank handle to the top shaft of the grinder.

OPERATING INSTRUCTIONS

Follow these steps to grind your coffee beans:

1. **Adjust Grind Setting:** Turn the external adjustment dial on the top of the grinder to your desired coarseness. A lower number indicates a finer grind (e.g., for espresso), while a higher number indicates a coarser grind (e.g., for French press). There are 40 settings available.
2. **Load Coffee Beans:** Remove the crank handle and the top cover. Add up to 30 grams of whole coffee beans into the hopper. Replace the top cover and reattach the crank handle.
3. **Grind Coffee:** Hold the grinder body firmly and turn the crank handle clockwise. Continue grinding until all beans have passed through the burrs and the grounds are collected in the glass container.
4. **Retrieve Grounds:** Unscrew the glass grounds container from the bottom of the grinder. Your freshly ground coffee is ready for brewing.

MAINTENANCE

Regular cleaning ensures optimal performance and longevity of your grinder.

- **Disassembly:** Unscrew the grounds container. Remove the crank handle and the top cover. The internal burr assembly can be carefully disassembled for thorough cleaning.
- **Cleaning:** Use the provided brush (if included) or a small brush to remove any residual coffee

grounds from the burrs and internal components. The glass container can be washed with warm, soapy water. The stainless steel body can be wiped clean with a damp cloth.

- **Drying:** Ensure all parts are completely dry before reassembly to prevent rust and maintain hygiene.
- **Reassembly:** Reassemble the burr mechanism, ensuring all parts are correctly aligned. Attach the top cover and crank handle.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Grinder is difficult to turn.	Grind setting is too fine; burrs are clogged.	Adjust to a coarser setting. Disassemble and clean burrs thoroughly.
Inconsistent grind.	Burrs are dirty or damaged; adjustment dial not set correctly.	Clean burrs. Ensure adjustment dial is securely set. Check for burr damage.
Coffee beans not feeding.	Hopper is empty; beans are stuck.	Add more beans. Gently shake the grinder to dislodge stuck beans.
