TROUBLESHOOTING COMMON VIEWING ISSUES

If you encounter issues while watching K2, consider the following troubleshooting steps:

- **Buffering or Poor Quality:**

Check your internet connection speed. A stable broadband connection is recommended for smooth streaming. Try reducing the video quality setting if available, or pause the video for a few minutes to allow it to buffer.

- **No Audio or Video:**

Ensure your device's volume is turned up and not muted. Check if other applications or videos on your device have sound. Restart the Prime Video app or your streaming device.

- **Subtitles Not Appearing:**

Verify that subtitles are enabled in the Prime Video player settings. Look for a subtitle icon (often a speech bubble or "CC") and select "English [CC]".

- **App Crashing or Freezing:**

Close and reopen the Prime Video application. If the issue persists, restart your streaming device or computer. Ensure your Prime Video app is updated to the latest version.
