AECOJOY Resin Outdoor Storage Cabinet Instruction Manual

Model: 16318DG

1. INTRODUCTION

Thank you for choosing the AECOJOY Resin Outdoor Storage Cabinet. This versatile and durable storage solution is designed to protect your belongings from the elements while providing ample, customizable storage space. Please read this manual thoroughly before assembly and use to ensure proper installation and longevity of your cabinet.

2. IMPORTANT SAFETY INFORMATION

WARNING: Failure to follow these safety instructions could result in injury or damage to the product.

- Always follow the assembly instructions carefully.
- Wear appropriate safety gear when handling heavy items.
- Do not exceed the weight limit of the shelves (70 lbs per shelf, 210 lbs total).
- Ensure the cabinet is placed on a level and stable surface to prevent tipping.
- Keep children and pets away from the assembly area.

3. PACKAGE CONTENTS

Before beginning assembly, please verify that all parts listed in the packing list are present and undamaged. If any parts are missing or damaged, do not proceed with assembly. Contact AECOJOY customer support immediately for assistance.

4. ASSEMBLY INSTRUCTIONS

The AECOJOY storage cabinet is designed for hassle-free assembly with clear, step-by-step instructions. We recommend assembling the cabinet with at least two people.

1. Unpack all components and lay them out on a clean, flat surface.
2. Identify all parts according to the provided parts list and diagrams.
3. Begin by assembling the base and side panels, ensuring all connections are secure.

4. Install the reinforced floor panel into the base.
5. Attach the adjustable shelves at your desired heights. The cabinet features 3 adjustable shelves, allowing for flexible interior layout. Each shelf can hold up to 70 lbs.
6. Mount the doors and ensure they open and close smoothly. The double doors provide secure closure.
7. Finally, attach the slanted plastic roof. This design prevents water from pooling, enhancing the cabinet's weather resistance.

5. OPERATING AND USAGE

Your AECOJOY storage cabinet is designed for versatile use, both indoors and outdoors. Its robust construction and adjustable shelving make it suitable for a wide range of storage needs.

- **Loading:** Distribute weight evenly across the shelves. Each shelf is rigorously tested to hold up to 70 lbs, making it suitable for heavy items like power tools, garden equipment, or bulk supplies. The total weight limit for the cabinet is 210 lbs.
- **Security:** The secure double doors provide an additional barrier against moisture and can be locked for added security (lock not included).
- **Weather Protection:** The slanted plastic roof design actively prevents water from pooling during heavy rain, keeping your stored items dry. The high-quality, UV-resistant resin construction ensures excellent waterproofing and resistance to fading.

★ SLOPED RESIN ROOF ★

Resist Rust and Option For Preventing Rainwater Accumulation

Figure 5.1: The sloped resin roof design effectively sheds rainwater, preventing accumulation and ensuring the interior remains dry.

6. MAINTENANCE

Maintaining your AECOJOY storage cabinet is simple and helps ensure its long-term durability and appearance.

- **Cleaning:** The resin material requires only simple wiping for cleaning. Use a soft cloth with mild soap and water to clean the surfaces. Avoid abrasive cleaners or harsh chemicals that could damage the finish.
- **Inspection:** Periodically check all connections and fasteners to ensure they remain tight. Re-tighten if necessary.
- **Weather Exposure:** While designed for outdoor use, prolonged exposure to extreme weather conditions may affect its lifespan. Ensure proper drainage around the base.

7. TROUBLESHOOTING

If you encounter any issues with your AECOJOY storage cabinet, please refer to the following common solutions. If the problem persists, contact customer support.

- **Doors not closing properly:** Check if the cabinet is on a level surface. Uneven ground can cause misalignment. Ensure all assembly screws are tightened.
- **Water inside the cabinet:** Verify that the roof is correctly installed and sealed. Check for any cracks or damage to the resin panels. Ensure the cabinet is not placed in an area where water can pool around its base.
- **Shelves sagging:** Ensure the weight on the shelves does not exceed the 70 lbs limit per shelf. Distribute heavy items evenly.

8. SPECIFICATIONS

Feature	Specification
Brand	AECOJOY
Model Number	16318DG
Color	Gray
Material	Resin, Metal Frame
Product Dimensions (D x W x H)	18.7"D x 35.4"W x 70.5"H (47.4cm D x 90cm W x 179cm H)
Item Weight	69.3 Pounds (31.4 kg)
Shelf Weight Limit	70 lbs per shelf
Total Weight Limit	210 Pounds
Water Resistance Level	Waterproof
Assembly Required	Yes
