3. SETUP AND INSTALLATION

The NHOPEEW Android Car Stereo is designed for a plug-and-play installation in compatible Kia Rio and Kia Pride models (2015-2017). Basic mechanical skills are recommended for installation. If you are unsure, professional installation is advised.

Installation Steps (General Guide)

1. **Preparation:** Ensure the vehicle's ignition is off and the battery is disconnected to prevent electrical damage.
2. **Remove Old Unit:** Carefully remove the existing car stereo and dashboard bezel. Refer to your vehicle's service manual for specific instructions.
3. **Connect Wiring:** Use the provided power cable and other accessory cables (RCA, USB, GPS antenna, backup camera, microphone) to connect the new NHOPEEW unit. The wiring harnesses are designed for direct connection to your vehicle's existing ports.
4. **Test Functionality:** Before fully securing the unit, reconnect the battery and briefly test the stereo's basic functions (power on, audio, touchscreen response).

5. **Secure Unit:** Mount the NHOPEEW stereo into the dashboard opening and reattach the bezel. Ensure all connections are secure and no wires are pinched.
6. **Final Checks:** Verify all features, including CarPlay/Android Auto, GPS, and backup camera, are working correctly.

4. OPERATING INSTRUCTIONS

4.1 Display and Interface

The unit features a 9-inch 2.5D Tempered Glass Mirror capacitive touchscreen with a resolution of 1024x600. This display offers rich, full color expression and vivid visuals. Navigate the interface by tapping, swiping, and pinching gestures.

1024*600 HD Touchscreen

Enjoy vivid visual experience

4.2 Wireless CarPlay & Android Auto

Connect your iOS or Android smartphone wirelessly via Bluetooth and Wi-Fi to access phone features directly on the stereo's display. This allows for hands-free calls, messaging, music playback, navigation, and voice control (e.g., Siri, Google Assistant).

Wireless Carplay & Android Auto

You can access all phone features via wireless bluetooth and wifi connection. Such as making calls, playing music, online navigation, voice control and more.

Image 4.2: The user interface demonstrating active Wireless CarPlay and Android Auto connections, displaying various smartphone applications.

4.3 Mirror Link

The unit supports Mirror Link for both iOS and Android devices. Connect your phone via USB cable or Wi-Fi to mirror your phone's screen onto the stereo's display, allowing you to interact with your phone's apps, media, and content directly from the car stereo.

4.4 GPS Navigation

The built-in GPS receiver supports both online and offline navigation. Connect to Wi-Fi or a mobile hotspot to download maps or use real-time navigation apps. The system is compatible with popular navigation applications.

GPS Navigation

4.5 WiFi Connection

Easily connect the car stereo to a Wi-Fi network or your mobile hotspot. Once connected, you can browse the internet, download applications, stream media, and access online services like YouTube, TikTok, and Spotify.

Image 4.4: The car stereo displaying various online applications and demonstrating 5G WiFi and hotspot connectivity for internet access and streaming.

4.6 Audio Settings (Hi-Fi/EQ/FM/RDS)

The unit features a DSP Sound Processor for crystal-clear audio. Customize your listening experience with the graphic equalizer, offering preset modes (Pop, Rock, Jazz, Classical, Flat, User, Voice) and sound delay adjustments. It also supports subwoofer output. The built-in FM/RDS radio allows you to enjoy your favorite radio stations with enhanced information display.

Image 4.5: The interface for the DSP Sound Processor, showing options for equalizer settings, sound balance, and surround sound adjustments.

4.7 Steering Wheel Control (SWC)

The stereo supports integration with your vehicle's existing steering wheel controls, allowing you to manage audio playback, volume, and other functions without taking your hands off the wheel.

5. MAINTENANCE

To ensure the longevity and optimal performance of your NHOPEEW Android Car Stereo, follow these general maintenance guidelines:

- **Cleaning:** Use a soft, dry cloth to clean the screen and exterior. For stubborn smudges, a slightly damp cloth with a mild, non-abrasive cleaner suitable for electronics can be used. Avoid harsh chemicals.
- **Temperature:** Avoid exposing the unit to extreme temperatures, both hot and cold, for extended periods.
- **Software Updates:** Periodically check for available software updates to ensure the system runs efficiently and has the latest features and security patches.
- **Connections:** Ensure all cables and connections remain secure. Avoid pulling on cables forcefully.

6. TROUBLESHOOTING

- If you encounter issues with your NHOPEEW Android Car Stereo, refer to the following common troubleshooting steps:
- **No Power:** Check all power connections. Ensure the vehicle's battery is properly connected and charged. Verify the fuse for the stereo is intact.
 - **No Sound:** Check speaker connections. Ensure volume is not muted or set to minimum. Verify audio settings (EQ, balance, fader).
 - **Touchscreen Unresponsive:** Try restarting the unit. Ensure the screen is clean and free of debris.
 - **GPS Signal Lost:** Ensure the GPS antenna is properly installed and has a clear view of the sky. Check network connection for online maps.
 - **CarPlay/Android Auto Not Connecting:** Ensure Bluetooth and Wi-Fi are enabled on both the stereo and your smartphone. Try restarting both devices. Verify your phone's operating system is compatible.
 - **System Slow/Freezing:** Close unnecessary applications. Clear cache if possible. A factory reset may be necessary as a last resort (note: this will erase all user data).

For persistent issues, please contact NHOPEEW customer support.
